## ERIE COUNTY MEDICAL CENTER

462 Grider Street, Buffalo, New York 14215 / 716-898-3000

December 12, 1988

Catherine Collins, RN  
Erie County Medical Center  
462 Grider Street  
Buffalo, New York 14215

Dear Ms. Collins:

Please accept our invitation to join us in the planning of a major conference on AIDS for the fall of 1989. The conference will be designed to attract a diverse professional audience including physicians, health care workers, social workers, school teachers and administrators and personnel officers.

The AIDS Designated Center of the Erie County Medical Center is the primary sponsor and will coordinate the planning activities. However, we wish to enlist the support of a number of co-sponsors to have the fullest impact.

We have envisioned a one-day conference to be held at a downtown Buffalo hotel. The morning session would be a plenary session featuring four major guest speakers from outside of Western New York. After lunch, the afternoon sessions would be three separate workshops that focus on medical care (physicians), interdisciplinary support care (health care workers and social workers), and school and industry education and management policy focused for teachers, school administrators, and industry personnel officers.

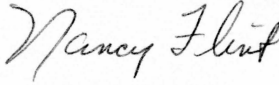

We would like you to serve in the role of a workshop planner. You would be part of a small group that would plan and design the afternoon workshop session with the perspective of school and industry education.

One of us will be contacting you shortly by telephone to discuss your participation.

As medical director and administrative coordinator of the area's premier center for AIDS care, we feel strongly about the leadership role of our center in the education of professionals who must deal with the AIDS epidemic now and in the future. We hope you will join us.

Sincerely,

  
Ross G. Hewitt, MD
