## OFFICIAL NOTICE

I

I. READ IN CLASS. Dean MacVittie has authorized faculty to read the following notice in classes: "There will be a Faculty Adviser Conference for all entering freshman students on Friday, October 3, at 11:00 a.m. Note the location on the Bulletin Board outside of your Division Office."

II

II. CIVIL SERVICE HOLIDAY. College will be in session on Monday, October 13. Clerical and maintenance staff who are entitled to this day as a holiday under Civil Service regulations will be given a compensating day on the Friday following Thanksgiving.

III

III. BUILDING USE POLICY. Dean MacVittie calls the attention of all staff to the revised policy for the use of college buildings. "As members of a college faculty, you are entitled to use the College buildings and facilities (shops, studios, laboratories, your office, and library) outside of the normal schedule of our college day. It is assumed that this use will be for purposes of a professional nature, such as research, preparation for classroom instruction, committee meetings and other activities of this type. No one desires to limit your professional endeavors in any way. Our College and the State of New York, however, do have some legal responsibilities for the safe and prudent use of our facilities by students and faculty. We have only one watchman for our total campus, and he cannot adequately do his job of policing buildings and locking doors unless he can work within a policy framework. Therefore, it is necessary to clarify our policy for faculty use of facilities. May I urge your cooperation in planning your work accordingly?

### "I. FACULTY OFFICES

"A. Any faculty member may use his office at any time during the hours that the building in which his office is located is located is regularly open. (See III below.)

"B. Any faculty member may use his office after the closing hours of the building in which his office is locating by obtaining written permission from his Division Director or Department Chairman and the approval of the Dean of the College.

### "II. LIBRARY, SHOPS, LABORATORIES AND STUDIOS

"A. The use of these facilities by faculty at any time must first be approved by the Division Director and Department Chairman responsible for the use of the facility and building.

"1. Facility use in the case of several faculty members wishing to use the same facility will be granted with a priority being given to the faculty member whose teaching assignment normally calls for the use of the facility.

"2. Students who have work to make up or who are doing additional work which requires the use of a particular facility must have written permission to use the facility from their instructor and from the Dean of Students' office for use after 6 P.M. on weekdays, or any time up to noon on Saturday.

"B. The Facility Use Approval Form may be obtained in the Office of the Dean. The following order should be followed:

"1. Obtain the F.U.A. Form from Office of the Dean, (4 copies)

"2. Fill in information requested and have Department Chairman sign.

"3. Take to Division Director or person who is the designated facility supervisor for signature. (See III below.)

"4. Present signed forms to Office of Dean for final approval of request.

"5. You will be given the original copy as your approved authorization for specific facility use.

"In 1958 the State University of New York has joined with other groups throughout the nation in observing the centennial anniversary of Theodore Roosevelt's birth. A local college committee has made suggestions for honoring this great New Yorker and great American by making our students aware of his accomplishments.

"Theodore Roosevelt lived a full and productive life, making many contributions in the fields of history, politics, government, geography, natural science, conservation, and literature. If those of us who teach in these fields could devote a class period or two to his attainments, it would be a most fitting way to honor Theodore Roosevelt during the centennial observance of the year of his birth. It would be particularly fitting if we could do so during October, the month of his birth, or on October 27, the day of his birth."

College Committee for honoring the Centennial Anniversary of Theodore Roosevelt's birth: Eric Brunger, Charles LaMorte, David Rogers, Richard C. Brown.

\*\*\*\*\*

ONE ERROR,  
THREE  
HYPOTHENOSES

Incredibly enough, the Bulletin "fox pawed" last week in reporting that only 80% of the class of '62 were graduated from high school. It intended to say that only 80% were 1958 graduates. The 20% finished before '58. Profound apostrophes herewith.

And from the Office of Origin of that report comes this supplementary note: "The survey finding that only 50% plan to complete their entire program at this college has raised some interesting conjectures:

"a. The question was the last of 90 items; was it carelessly read and answered?

"b. It follows several questions directed at freshmen who had applied to other colleges as well as this one; did only this group answer?

"c. Does this represent the aspirations of many locally-residing freshmen to go to an out-of-town college when finances permit?

"There are probably other hypotheses which would be interesting to explore...."

II. DEFICIENCY NOTICES (WARNINGS). It has been the College practice for each faculty member to assess the achievement of each of his students for the first half of each semester. Each instructor files a report of unsatisfactory student achievement with the Dean of the College. The Dean then notifies each student by mail of the unsatisfactory work, and recommends a conference with the Dean of the College or the Dean of Students. The end of our first eight weeks for the present semester is Friday, November 7.

Forms to be used in reporting these deficiencies will soon be sent to you. The completed forms are to be returned to the Dean's office no later than Wednesday, November 12, 1958.

Using the duplicate form, with carbon backing, will enable the College to notify students of their standing one or two weeks sooner than has previously been possible. This should permit the purpose of the "warning" to be better served.

The processing of these reports will be facilitated greatly if the information is printed and all the required information is provided.

A REPORT ON THE MEETING OF THE BOARD OF DIRECTORS, FACULTIES ASSOCIATION  
OF THE STATE UNIVERSITY OF NEW YORK, HELD IN ALBANY, NOVEMBER 7-8, 1958.

This report is submitted for the information of all. Various items will be explained and commented upon in greater detail at the Faculties Association meeting to be held in the Activities Rooms of the College Union, 4:00, Thursday, November 20. Your attendance is urged so you can hear and ask questions about these matters.

The officers of the Association and the Board of Directors reported many favorable comments from their faculties on the excellent program at the Syracuse Conference. The members of the Board of Directors agreed unanimously that it was the best conference within their respective memories.

George Bond, Secretary-Treasurer of the Association, submitted a complete financial report on the Syracuse Conference. It was a financial as well as an educational and artistic success.

Reported registrations showed this breakdown: Albany 14; Brockport, 19; BUFFALO, 154; Cortland, 54; Fredonia, 29; Geneseo, 49; New Paltz, 13; Oneonta, 82; Oswego, 89; Plattsburgh, 24; Potsdam, 36; Central Staff, 3; Guests, 39; Total registered attendance, 605. This total is nearly one-third greater than that at any previous conference. The large number registered from our college elicited murmurs of amazement and approbation.

The percentage of eligible members of our faculty who had joined the State Association was reported as 72%. This figure did not elicit murmurs of approbation. Three colleges reported a higher percentage of membership, with Brockport reporting 100% membership. If you have not yet joined the State Faculties Association, I will gladly furnish membership cards and accept your dues.

The Board of Directors decided on Albany as the site of the 1960 Biennial Conference. Lewis Curtis, Vice-President of the Association, was instructed to investigate three tentative sites for the 1962 Conference: Minnewaska, Syracuse, and Buffalo.

This subject was discussed at some length in the Board of Directors meeting on Friday afternoon. I will report further on this discussion at the Faculties Association meeting on Thursday afternoon.

You will recall that fourteen resolutions were passed at the business meeting at the Syracuse Conference. They dealt with these subjects: (1) Teaching Loads; (2) Attendance at Professional Meetings; (3) Research; (4) Waivers of Tuition Fees for Faculty Members and their Families; (5) Salaries of Public School Teachers; (6) Salaries of Faculty Members of the Teachers Colleges; (7) Promotion Policies; (8) Sabbatical Leaves; (9) Full-Time Graduate Program; (10) Doctorate Program; (11) Clerical and Secretarial Assistance; (12) Faculty Participation in University Government; (13) Status of Faculty Over 65 Years of Age and Under 70; (14) Lump-sum Budget.

The Board of Directors is authorized to implement these resolutions. In general, they were implemented in two ways; first, the President of the Association was directed to send copies of the resolutions to Dean Cooper and to Mr. Frank Moore, Chairman of the Board of Trustees, together with a letter asking their attention to the resolutions as examples of Teachers College Faculty thought on the subjects covered by the resolutions; second, each member of the Board of Directors was instructed to present a copy of the resolutions to his local unit head.

All those who attended the business meeting at the Syracuse Conference received copies of these resolutions. If you still have these copies, bring them with you to the meeting on Thursday afternoon. I will need to comment upon the implementation of some of them in detail.

BOARD OF  
DIRECTORS  
MEETING WITH  
DEAN COOPER

On Saturday morning Dean Cooper met with the Board of Directors at the invitation. He commented at length on some of the subjects covered by the resolutions passed at the Syracuse Conference and also freely and frankly answered most questions put to him by the Board of Directors. He spoke off the cuff, and issued no formal, written statements that could be construed as State University policy, so my report on his views will be based on notes that I took. He gave his views on such matters as (1) sabbatical leaves, (2) salary, (3) graduate programs, (4) the lump-sum vs. the line-item budget, (5) the building program, (6) the significance of the recent gubernatorial election for State University, and (7) the role of the Faculties Association of the State University of New York.

His views were very interesting and, in most cases, informative.

# BUFFALO STAFF BULLETIN

Volume II

Number 13

Wednesday, December 17, 1958

Again I want to thank all of you for your fine cooperation and the excellent zeal with which you have accepted and carried out your responsibilities. I do hope that each and everyone of you will have a most pleasant Holiday Season and I extend to you a Very Merry Christmas and a Happy New Year.

  
Ralph Horn  
Acting President

\*\*\*\*\*

At the Cabinet meeting yesterday the name of the General Education Division was changed to General Studies Division. Another Cabinet action was to vote that the 200-bed residence hall now under construction will be a men's dorm. Scheduled for completion in September 1959, the new hall increases total capacity to 766 students. When it is finished, all men who do not reside with parents or spouse in the City of Buffalo will live on campus if space is available. At the same meeting Acting President Horn read the following letter from Chancellor Furnas of the University of Buffalo which was sent in response to the Cabinet's letter of commendation:

"This is just a small note of very great appreciation of your letter of December 2nd citing the commendation of your College for the stand which we took on the Tangerine Bowl football game. I greatly appreciate your sympathetic attitude on this. Of course, it was a disappointing decision to have to make, but actually it was not a difficult one because, as I could see it, there was only one course - that of refusal for the simple reason that human decency was at stake. Would you please express my appreciation and thanks to your Cabinet again. With all good wishes for the Holiday Season - Sincerely yours, C. C. Furnas."

FACULTY

Enthusiastic response in the survey of Faculty Club interest has led Lloyd Jones and his committee to recommend that the Branch Association hold a meeting in January to discuss the possibilities further. Such a meeting is being planned. RESIGNATION  
OF REID S.  
MOULE

"Dear Dr. Horn: As you probably know, I have resigned as Chairman of the College Council. It was necessary for me to do so as, under the New York State Constitution, a Justice of the Supreme Court should not hold any other public office or public trust.

"It was not without regret that I did so, and I wish to thank you and everyone at the College for your cooperation and helpfulness, which is greatly appreciated and will not be forgotten. With warmest personal regards, Reid"

DR. HORN'S  
REPLY

"Dear Reid: Your letter of January 23 came to my attention this morning. While I realize it was essential for you to resign from the Board I do regret it exceedingly, for my relations with you have been exceptionally fine and I have always felt that you were a great source of strength to the Board and to the College. I hope that we shall have opportunity to meet frequently and continue the warm friendship which exists between us. Again I want to wish you every possible success and happiness in a long and continued service for the great State of New York. Cordially, Ralph Horn, Acting President"

The traffic control signal at Elmwood and Rockwell operates effectively only when a car moves beneath the activating instrument on Rockwell about 10 yards from Elmwood. Rogers and over!

"The spring meeting of the Board of Directors of FASUNYTC will be held in Syracuse, April 24 and 25. At the meeting some or all of the following matters will come up. I would appreciate any thoughts, given to me preferably in writing, that you might have on these matters.

- "1. The matter of a theme for the 1960 conference to be held in Albany. Some suggestions have been: 'Learning to Live Together'; 'Science for What?'; 'Education for Survival.' Do you have any further suggestions?
  - "2. The matter of speakers at the 1960 conference. Suggestions have been: 'Get more assistant and associate professors into the act'; 'Get William Hance of Columbia University to speak on Africa'; 'Get Ralph Bunche'; 'Get Governor Rockefeller.' Do you have any suggestions for speakers or other aspects of the program?

Would you approve of a Division of Higher Education within the New York State Teachers Association to which Teachers College faculty members, and others interested in teacher preparation, might belong? Would you approve of this Division of Higher Education replacing FASUNYTC? JAM  
TOMORROW

Staff should bear in mind that traffic conditions tomorrow will inconvenience many who regularly drive on the campus. The parking lot behind the Gymnasium will be closed throughout the day, and movement elsewhere will be curtailed. Delays in movement should be anticipated; car pools will symbolize wisdom.

\*\*\*\*\*

STAFF  
DINNER

If your social, professional, and business calendar is naked for May 2 you should be ashamed. The annual staff dinner is scheduled for that evening and the day should be marked clearly in red. This is the strong opinion of Mae O'Brien and Edna Lindemann, co-chairmen. Time is 6:30. Tickets will be on sale at the May 7 branch meeting.

\*\*\*\*\*

HOUSING  
NEEDED

A sophomore student desires to find a residence which will provide room and board for her and her two-year old daughter and an arrangement to care for the child while she is at the College. The mother can pay \$100 a month and is willing to do some housework and baby sitting. Any one interested should consult Stanley Gross in Ad. 103 (ext. 108).

A NOTE  
OF  
APPRECI-  
ATION

"I want to take this opportunity to express my appreciation and that the Planning Committee for the excellent cooperation and support which the staff members of this College gave to us in carrying out the dedication for our cornerstone laying and dedication ceremonies on Thursday, April 11. Both the Governor and Mr. Frank Moore were highly pleased with the way in which the program was planned. Mr. Moore commented that he had never attended two other such occasions and he thought that ours was by far the finest one of the three in which he had participated both from the standpoint of the quality of the program and the tempo in which it was carried out. This could not have happened without the excellent support of everyone. No one could ask for more than was given and for this I am deeply appreciative."

Ralph Horn, Acting President

REPORT  
OF  
DICK  
BROWN,  
DIRECTOR  
OF  
FASUNYTC

"The spring meeting of the Board of Directors, Faculties Association, State University of New York Teachers Colleges, was held April 24-25, 1959, in Syracuse. Major items of business discussed were as follows:

1. Budget for 1959-60. For the first time FASUNYTC has a projected two-year budget with funds allotted for specified purposes. Your director has a copy of the approved budget which he would be glad to show to any interested individuals.

2. Reconsideration of resolutions passed at Syracuse Conference, October, 1958. Final disposition was made of all resolutions passed at the Syracuse Conference. A FASUNYTC NEWSLETTER will soon be issued indicating the disposition of all these resolutions.

3. These committee reports were received, approved, or other appropriate action taken: In-Service Education; Issue of New York State Education; Liaison with N. Y. S. T. A.; Problems of Rank, Grade, and Salary Differentials; Public Relations; Resolutions; Salary; Study of Permanent Executive Secretary; Summer Session and Extension Policies. Action taken on these committee reports will be described either in the coming FASUNYTC NEWSLETTER or in a subsequent oral report that I will make to the faculty.

4. Plans for the Albany Conference, October, 1960, and date and place for 1962 Biennial Conference. Plans for the Albany Conference are shaping up. It is likely that the overall theme of the Conference will be "Quality in Education." Tentative arrangements are being made for the 1962 Conference. There is a good chance that it will be held in Buffalo.

5. New Business. Your director brought up those items that had been presented to him in writing. Machinery was set in motion to examine ways of implementing the Sick Leave Policy provided for by the Personnel Policies of the State University Board of Trustees."

Dick Brown, Buffalo Director, FASUNYTC

OFFICIAL  
NOTICE

I

1. "IT SEEMS EVIDENT THAT there is a strong desire and much need for further discussion and action on the proposed revision of the By-Laws before it is put to a vote. Therefore, I recommend to the faculty the following line of action for our meeting of May 28 and thereafter:
1. Extend the date for putting the revision into effect from July 1, 1959 to October 1, 1959;
2. Authorize all present officers and members of committees to continue in present status until September 30, 1959;
3. Devote the remainder of our meeting of May 28th to discussion of and action on the proposed revision of the By-Laws;
4. Have the Committee on Committees prepare amended version of By-Laws and present to faculty for secret ballot before the end of the term;
5. Have Elections Committee prepare a slate of officers and members of councils and committees for balloting at first faculty meeting in September in accordance with whichever instrument will be in effect on October 1, 1959.

To follow this line of action gives everyone ample time to read thoroughly the proposals for revision and come to the next meeting with suggestions for improvement. Then, too, it gives the Committee on Committees ample time to prepare the amended version and get it into faculty hands for careful reading for balloting. I personally believe this line of action gives each one a fair chance to read and analyze this instrument and a fair opportunity to present his reactions."

Ralph Horn, Acting President

Dorothy Eells, Registrar, has asked that the following notice be read in classes: "All students who expect to meet all graduation requirements by January 1960, June 1960, or August 1960, must make formal application for their degrees before the end of the present school year. The responsibility for submitting this application rests with the student.

"Application forms are to be filled out and filed in the Registrar's office by June 1, 1959. This will enable us to evaluate these records during the summer and send the check sheets to you in (over)

time for the fall registration.

"Failure to file a degree application will result in your name being omitted from the graduation list."

IBM  
SERVICE  
AGAIN  
AVAILABLE

The following announcement comes from George Sherrie, Ad. 104:

"The Evaluation Service Center will endeavor to provide the same service in the scoring of final examinations that it did in January. Exams will be scored on a 24-hour OR LESS basis.

"Those instructors planning to use objective type examinations are urged to submit answer keys during the next week. This makes it possible for Mrs. Ball to prepare the necessary masks for the IBM process in advance of the 'rush' period.

"Instructors who want their final examinations analyzed should save the student papers and, after marks are recorded, return them to the Evaluation Service Center. Only those courses with 80 or more test answer sheets should be submitted for analysis.

"The Evaluation Service Center, Ad. 104, is open from 10-2 and at other times by appointment, to help you.

"Please remind students to mark the IBM answer sheets properly and to write the instructor's name on each answer sheet."

\*\*\*\*\*

Because of the inability of both the Buffalo representative (Joe Hubler) and his alternate (Anna Burrell) to attend the spring meeting of the SUNY Faculty Senate, President Horn invited me to represent the faculty. This placed me in the rare position of serving as a substitute for the alternate to the Buffalo senator. As the only living ex-senator on our faculty, I was happy to undertake to attempt to substitute for Anna on Joe's behalf.

The full official minutes of the Syracuse meeting of May 11-12 will be available about June 1. Anyone wishing details beyond the following notices may consult Joe Hubler for his copy of the minutes.

Harold F. Peterson  
Senator pro-tem pro-tem

(A) Among the more important actions taken by the Senate were the following:

(1) Pertaining to assignments previously given to the Committee on Personnel Policies:

(a) Recommitted for re-study and possible re-drafting a recommendation requesting the Board of Trustees to include in the "Personnel Policies" a statement requiring each college to have an elected faculty committee to advise the college head on personnel matters.

(b) Accepted the Committee's recommendation that it is "neither possible nor prudent" to expand the "Personnel Policies" to include specific procedures for the evaluation of personnel for continuing appointment and promotion.

(c) Accepted the Committee's recommendation that the Senate should not study the effects of multiple salary grades on staffing and faculty morale. (Comment: This appears to be a matter of controversy only in the Teachers Colleges, which have proposed their own study through the Faculties Association.)

(d) Accepted the Committee's recommendation that the Senate study the current system of allocating positions at various ranks to colleges in terms of a fixed percentage formula.

(e) Voted to ask the President of SUNY to call the attention of college heads to Art. XIII, Title D, par. 7, "Sabbatical Leave: Substitutes." (Comment: Consult your copy of the "Personnel Policies.")

REPORT  
OF  
FACULTY  
SENATE  
(continued)

(f) Directed all Senators to report to their faculties that the "Personnel Policies" on sabbatical leaves are clear and the primary problem is the Budget Office's refusal to support the policies with funds. Voted to commend the President of SUNY for past efforts to secure such funds and to create an ad hoc committee to collect additional data for support of continuing requests for these funds.

(2) Voted to express deep concern with the impact of increased tuition upon recruitment, academic standards, and the service of State University to the community and the hope that the Senate would be consulted about increases.

(3) Directed the Vice Chairman to seek from the Central Office clarification of the recent directive on "Questionnaires" and to ask the Vice President of SUNY to advise Senators of this clarification. (Comment: It appears that some colleges are interpreting this directive much too strictly while others are totally disregarding it.)

(4) Postponed until the November meeting a proposed resolution calling for a statement of State University policy on academic freedom.

(5) Re-elected Charles Stokes, of Albany State, as Vice Chairman, and elected Robert Donaldson, of Plattsburgh State, to the Executive Committee both for 1959-60.

(B) Among the more important announcements made at the meeting were the following:

(1) The Board of Trustees is hopeful (as of May 11th) of announcing at an early date the new president of SUNY. The selection will be made from a list of 42 candidates prepared by the Committee of Unit Heads and members of the Faculty Senate.

(2) The SUNY Faculty indemnification bill is now law. Copies will soon be available on all campuses. The Senate voted expression of its appreciation to the Board of Trustees and especially to Mr. John Crary, Legal Counsel, for his awareness of faculty concern over questions of personal liability and his effective representation of their interests in supporting the bill. (Comment: This is good news for all of us.)

(3) The first volume of the SUNY Press has appeared. The Senate voted to extend its appreciation to the Research Foundation. (Comment: The hope was expressed that publication of later volumes would be speeded.)

(4) A new edition of the "Personnel Policies" is now in press:

(a) It will include amendments giving to "college administrative officers other than chief administrative officers not in classified civil service" the same privileges of faculty status, voting, and leaves of absence as members of the academic staff. (Comment: This is good news for librarians.)

(b) It will clarify the position of assistant professors in re-sabbatical leave. The prerequisites will be "six consecutive years of service within the University and continuing appointment," rather than "six consecutive years of service within the University from the date of their appointment to such continuing appointment." (Comment: This is good news for assistant professors.)

(5) Under the program of State Health Insurance, a staff member may be admitted at any time with evidence of insurability. It is proposed also

to have a new "open period" when staff members not now covered may be admitted without evidence of insurability.

(6) The call for agenda items for the fall meeting of the Faculty Senate will be issued about September 15th. (Comment: Your suggestions for agenda items should reach Joe Hubler this spring.)

\*\*\*\*\*

The annual Installation Dinner of Tri Gamma will be held at the Lobster House in Kenmore on Tuesday, May 26 at 5:30. Reservations should be made through Marilyn Jones in Ad. 123.

\*\*\*\*\*

The last Faculty Family Swim of the Spring semester will be on Tuesday, May 26 at 7:30 p.m. They will be resumed in September.

\*\*\*\*\*

To facilitate the preparation of final examination materials, the Office of the Dean asks that you observe the following procedure:

All General Studies and Arts and Science faculty, except those in Science, submit their materials to the secretarial pool. All others submit their materials to their respective divisional or departmental secretaries.

Where additional help is needed, each member of the secretarial staff may have to be called upon. In such cases where help is needed, the Director of Examinations will distribute the materials.

Those materials already submitted will be redistributed. Each secretary involved will be contacted by Miss Polder. All examination copy to be run off, after typing, is to be submitted to the pool.

For those members of the faculty who have final examinations scheduled for the College Auditorium, a supply of detailed seat charts has been prepared and is available in the Office of the Dean. You are welcome to use these in planning the seating of your sections of mass examinations.

REPORT OF  
RICHARD  
BROWN,  
BUFFALO  
DIRECTOR,  
FACULTIES  
ASSOCIATION  
STATE  
UNIVERSITY  
OF NEW  
YORK  
TEACHERS  
COLLEGES

"At our Faculty Meeting of May 14, I announced that the report of the FASUNYTC Salary Committee would soon be forthcoming. I have received five copies of this report from Professor Roswell Fairbank of Albany. The report runs to seventeen pages, including supporting data. I will retain the copies I have temporarily in my office (Ad 2) and interested parties may borrow a copy for perusal.

"All of you are no doubt interested in the salary schedule FASUNYTC is proposing for the year April, 1960 to April 1961. It is shown below.

"A covering letter from Roswell Fairbank contains the information that thirty-five copies of the complete report were delivered to Dr. Cooper on May 4. Dr. Cooper is quoted as saying that 'it was a reasonable and well-supported proposal that should be helpful in the effort for increased salaries.' Dr. Cooper distributed copies of the FASUNYTC salary report to teachers college presidents and to representatives of the Budget Bureau at a meeting on May 5, 6, and 7, and is reported to have made several comments favorable to the report at that time. A copy of the FASUNYTC salary report has also been sent to Frank C. Moore, Chairman of the Trustees, with Dr. Cooper's knowledge and approval.

"The FASUNYTC Board of Directors has agreed to postpone any further action toward implementing this proposed salary schedule until the fall meeting of the Board of Directors. At that time, our local faculty may wish to advise me as to ways in which you feel the proposed salary schedule of FASUNYTC may be most effectively supported.

"I also wish to take this means of calling your attention to the FASUNYTC Newsletter which was distributed to you this week. This Newsletter describes the action taken by the Board of Directors of FASUNYTC on the resolutions passed by the membership of the Association at the October 1958 meeting in Syracuse. Perhaps you will wish to keep both the Newsletter and the attached salary proposal as reminders of FASUNYTC activity in your behalf."

Salary checks for the first two-week summer period should be received from Albany and distributed about August 1. The balance will follow shortly after that. Morton Lane explains that the reason for the lapse of time is that summer employees are handled on a special payroll. Since there are thousands of extra employees in the state during the summer and since some of the payroll auditing staff is on vacation, it takes more time than usual to get that first summer check.

OFFICIAL  
NOTICE

I

I. "Executive Dean Hermann Cooper has written regarding the change of name of our college. As you may know, the question of change of name for the eleven colleges preparing teachers has been under consideration since 1948 when the Trustees took over the administrative functions of the state-operated units of State University.

"At a recent meeting of the Board of Trustees of State University of New York a resolution was unanimously passed that the name of each of the colleges for teachers and teachers colleges be changed to State University College of Education. This is to be effective September 1, 1959. Dr. Cooper pointed out that '... a teachers college is primarily a teaching institution; that research, experimentation and service to the public schools in addition to teaching are included among the major functions of a college of education; that enrichment of course content resulting in the improvement of instruction depends upon research and experimentation and cooperative service to the public schools of the area; and that the title "College of Education" is a more appropriate name for these state operated units of State University... ."

"It seems to me that this is a positive move forward, since the new name more accurately reflects the purposes of our institution."

RUSSIAN  
GUESTS

Six Russian exchange students were the guests of the college yesterday from 9:30 to 2p.m. They had spent seven months in graduate science courses at the University of California before they began their month's tour of the country. While in town the students were the guests of the Buffalo World Hospitality Association; one of the students stayed at the home of the John Urbans. On our campus they held a press interview, lunched in the faculty dining room, toured the campus, and spent an hour with a group of our students in the Union lounge. Carolyn Heyman, recently returned from a month in Russia, tried out her newly acquired six-word Russian vocabulary on the guests.

The following conversation took place at the press interview:

Reporter: Will our two systems of government ever get along together?

Russian student: Yes, I believe they will. I think your country is moving in the direction of a socialistic form of operation. Social security and medical plans are part of this. In the years to come it will be very close to the kind of socialism we have in Russia.

Reporter: Doesn't socialism lead to communism?

Russian student: Yes.

In the newspaper yesterday, the report read: "We do not seek to dominate by force. Communism will just naturally take over the world."

Today's morning paper used one quotation from yesterday's evening paper; it was the one above.

OFFICIAL  
NOTICE

I. "Executive Dean Hermann Cooper has written regarding the change of name of our college. As you may know, the question of change of name for the eleven colleges preparing teachers has been under consideration since 1948 when the Trustees took over the administrative functions of the state-operated units of State University.

"At a recent meeting of the Board of Trustees of State University of New York a resolution was unanimously passed that the name of each of the colleges for teachers and teachers colleges be changed to State University College of Education. This is to be effective September 1, 1959. Dr. Cooper pointed out that '... a teachers college is primarily a teaching institution; that research, experimentation and service to the public schools in addition to teaching are included among the major functions of a college of education; that enrichment of course content resulting in the improvement of instruction depends upon research and experimentation and cooperative service to the public schools of the area; and that the title "College of Education" is a more appropriate name for these state operated units of State University... .'

"It seems to me that this is a positive move forward, since the new name more accurately reflects the purposes of our institution."

President

OR  
EQUIVALENT Branch President, Robert Redden, reminds us that all are welcome to the Branch Association meeting tomorrow at 4 P.M. in the College Union Activity Rooms. There will be a discussion of a very important aspect of promotion policy. The Promotions Committee has asked for faculty guidance on the interpretation of the term "equivalent" in the promotion policy statement. Several faculty members have agreed to speak briefly on the question. Refreshments will be served before the meeting. Adjournment will be at 5:30 P.M. or earlier.

CURB  
YOUR  
TEMPER An amendment to the Education Law indemnifying members of the faculty passed the legislature and was signed by the Governor. This act protects all members of faculties and other employees from financial loss in case of accidents arising during their regular line of duty at the college. On the other hand, should a physical education man lose his temper and knock some student down thereby placing him in the hospital, such a staff member would not be protected under this law because that would be a willful act on the part of the faculty member and he would be responsible for loss because of such conduct, even though it happened during the line of duty. Gross negligence is in the same category.

PROBLEMS  
ANYONE? The In-Service Education Committee is planning two professional faculty meetings for December 17, 1959, and January 21, 1960. The committee is interested in securing problem areas of interest to faculty and suggested speakers. There will be an opportunity to respond to this request soon. Please watch your mail box.

ANYONE

TEACHING? Applications are available in Ad. 100 for superior college seniors who wish to apply for a 1960 Regents College Teaching Fellowship. The Dean has asked the faculty to encourage superior seniors to apply.

Mt. Idy, Ohio  
October 27, 1959

Dear Winesap, (Mother always said I was the apple of her eye)...Things are fine here in Mt. Idy (she goes on)...Everybody is going to vote for you in the election. Leonard Box (you remember Leonard) is going to vote twice, once for each head.

People keep asking me why you use the name Norman instead of Charlie. I tell them it's to help you make a conquest.

I could get more people to vote for you if you told me who Clarence is. And this supervisor you're running for is probably old enough to run for himself. Has he got broke legs?

I must close now and go help your father. He's out campaigning, too. He just took Richmond.

Love, Mama

This political notice, which the editors fear will be paid for (by the editors), is presented in the interest of Norman Weaver, who solicits support of staff and friends on November 3 in the race for Supervisor in Clarence.

Richard Brown, our faculty's representative to the Board of Directors of FASUNYTC, must report on the total membership from Buffalo at the meeting in Syracuse November 6 and 7. He urges that we pay our dues to Dave Cappiello, Branch Association Treasurer, right away, using the form and membership cards distributed.

WAYS OF  
KNOWING

At a recent meeting the Cabinet Committee on Communication agreed that the faculty's acceptance of College procedures and policies would be facilitated if council chairmen, division directors, and others would use the Staff Bulletin to report any discussions or actions that are of college-wide interest and concern.

\* \* \* \* \*

FACULTY  
PUBLICITY

Distributed with the Staff Bulletin today are public information forms. Pat Lagomarcino hopes that when you attend a professional conference or fill a speaking engagement you will briefly note the details. If you allow sufficient time, she will see that the information goes to one of the local papers. Generally speaking, one day's notice is not enough, but newspapers will use such material if they receive it on time. Generally speaking also, the college rises in public esteem when you report your professional activities.

FACULTY  
ADVISER  
PROGRAM

Stanley Gross says it is not true that faculty must meet individually with student advisees. If the adviser wants to schedule a group meeting, he may make arrangements with his Division Director and the Office of Student Personnel and inform his advisees. He also reminds faculty that if they wish to keep a file on advisees, forms are available in Ad. 103. In addition, he says, admission test percentiles and information on high school averages are available upon request.

Charles Ball reported to the Cabinet on college development: missing doors for classrooms in the Albright Building will be installed when they become available from the vendor.

The new dining hall should be completed by February 1. The stage craft studio in the old boiler room is nearing completion. If money is available to renovate State room after April 1, the room will be used as a business office, registrar's office, evaluation office, maintenance office, and faculty lounge. Other rooms for faculty, instruction, and administration will be improved as a result.

The excavation in front of the men's dormitory is for a permanent steam line. The temporary cut in Union Road was to supply drainage to the steam tunnel. In the spring, the grounds around the new dorm and new dining hall will be landscaped.

Money has been requested to rehabilitate the basement of the library. The "final" preliminary drawings for the new Home Ec. Building are due November 1. The Industrial and Fine Arts Building is in the final working drawing stage as is the Health and Physical Education Building.

The "program" for the proposed Science Building will be mailed to Albany today. The first demolition contract has been awarded relative to land acquisition west of Rees street.

#### FRED HOLLISTER'S REPORT ON HAMILTON'S PREINAUGURAL COMMENTS TO SENATE

On Thursday, October 29, Thomas Hale Hamilton, new President of the State University, met with the combined Faculty senate and administrative leaders of the colleges. In a brief and informal presentation President Hamilton referred to several problem areas that have come to his attention during his brief tenure of office. He promised to use his intelligence and diligence in an effort to resolve these matters as speedily as possible.

(1) Relationship between colleges and central staff. He hoped that the central staff would not be considered as something to be "overcome" but rather as a service designed to help in accomplishing the total mission of the university. (2) Salary. He feels that our salaries are much too low and that immediate remedies are needed. He feels that administrators' salaries are proportionately lower even than faculty salaries. (3) Need for university rationale. He said there is a need to explain and interpret State University to the man in the street. In Michigan every citizen feels the university is "his," but in New York the citizen knows, understands, and cares little about the State University. (4) Quantity of students. He believes that every young person with talent and diligence should be able to secure the higher education he desires and that no conditions should exist to deny him such opportunity. (5) Graduate work, research, and scholarship. He believes that graduate work, research, and scholarship are part of the "package" of State University. He believes faculty members should be encouraged to engage in research, that teaching and research can not be separated, and that a teacher can not exist indefinitely on "stored-up" knowledge. He realizes that research opportunity is associated with teaching load and promises to try to remedy the situation. "This is a hasty summary of our representative's interpretation of President Hamilton's remarks. We liked his look, his personality, and his ideas so far as we were able to observe them in the limited time available for observation at this meeting and at the formal installation. We are hopeful.

BULLETIN IS  
AGAINST  
NUTS

An Open Letter to Katheryne Whittemore.

The editors of the Bulletin, after consulting with the required committees and councils, regret to report that it is contrary to good Public Relations policy to give space in this periodical to your very commendable effort to help Vassar by selling Pecans. If you omitted the price (\$1.80 lb.) it would be non-commercial and hence acceptable. If you editorialized through direct quotation ("I think these nuts are wonderful" - signed, Sarah Blanding, Pres. or "These nuts are the nuts" - signed Executive Committee, Class of '62) we would be more sympathetic. If you were more explicit about where to buy them (Ad.102) there would be more hope of rapid sale and an end to this problem. For the reasons given, however, the Bulletin must omit any mention of your Thanksgiving idea. By the way, is Vassar that little old girls school in Poughkeepsie?

REPORT BY SENATOR JULIUS HUBLER  
OF STATE UNIVERSITY OF NEW YORK  
SENATE MEETING OF NOVEMBER 23.

The following specific actions of the Senate should be noted by the faculty:

- A. I expect to have a somewhat detailed exposition of the retirement system from Mr. Crary in the near future. This will deal with transfer of funds, change from one retirement system to another, vested retirement rights, initial determination of plan and sabbatical leave provisions.

I suggest that we have a faculty meeting or AAUP meeting to discuss the above with representatives of the CSEA and the Teachers Retirement System. Brochures are available in Albany on details such as loan provisions, determination of 5 year final average salary, sabbatic leave with salary, etc. Central staff has no plan as yet regarding sabbatic leave and retirement (legislation).

- B. Waiver or partial waiver of tuition for faculty families: Mr. Crary says that this desirable end can only be met by drawing up legislation. For example, he raised the question as to whether this would be additional compensation.
- C. The budget has been discussed with the officers of the Budget Office. There is no indication as yet as to what its final form will be. Dr. Hamilton and the Trustees have requested 16% more money than last year.
- D. The question of summer session salaries was discussed. President Hamilton noted that a formula does not exist. The Senate voted to have Central Staff investigate and report to the Senate. Much criticism was voiced regarding the level of salaries.
- E. Dr. Hamilton expressed the desire to have faculty vacancies in the various units of SUNY listed for faculty study in each institution.
- F. The Advance Placement testing program at Albany State was discussed. Students are given full credit for beginning courses in certain areas.
- G. The Research and Scholarship Committee is to be continued, re-vitalized and re-constituted. The Medical Colleges felt there was no research problem of great magnitude. I think the Senate cleared up this rosy view.

(Side 3 of 4 sides)

H. A committee will be appointed to work with the SUNY Trustees on tuition policies. This is a critical problem.

I suggest that each of us write the Trustees and Mr. Moore expressing support for a no increase policy. Each raise no matter how small, eliminates someone from chances for an education.

I. The feasibility of establishing a Senate Academic Freedom Committee was discussed. The 1940 AAUP statement was discussed and will be forwarded to the Trustees. Academic freedom cases were discussed by the Long Island College and others. Your representative mentioned the local situation.

J. The Senate will meet next at New Paltz in the Spring. My term of office expires with the Spring meeting so our faculty should meet and elect a new senator before April. Elections Committee please note (faculty, not Branch Association.)

Finally, I would like to convey my feeling that Dr. Hamilton is a man willing to take positive action on faculty concerns. The Senate still remains an advisory body and I feel that faculty, to quote a proverb, should prefer to see once than hear a hundred times. I also want to thank the faculty for their confidence and support at all times. I thank you for the opportunity to serve faculty interests.

\*\*\*\*\*

TO THE FACULTY AND STAFF,

Although it has been only five months since we came to Buffalo, the warmth of your welcome and your generous friendship has made the Bulger family feel that their new home is a fine and happy one. We are using this bulletin to let you know that our thoughts lie with you and your families in this happy season.

As we approach a New Year we realize that a critical change in our lives has been made because a great many wonderful people spared themselves no effort to make our first months comfortable and pleasant.

May the laughter ring loud, the song be harmonious, the days full of cheer, and the season one of happiness for you all.

DIVISION

The Committee on Committees, having received memoranda from almost half the faculty (either as groups or individuals) concerning the revision of the college's by-laws, is encouraged in its work by the show of interest and concern. It hopes that further discussions can take place and that familiarity with alternative solutions to various problems can grow so that an informed consensus can be reached. The committee also hopes that discussion and consideration of the committee's recommendation, which it expects to produce early in the second semester, will be carried forward on the same level of dignity and deliberation.

This makes it possible to put the exams through more quickly during this period when the load is exceedingly heavy and the need for speedy service is urgent. By means of longer hours and extra operators, it is planned to continue the 24-hour-or-less service normally provided. The E.S.C., Ad 13, will be open until 5:45 each night of Examination Week.

THREE FOR  
THE MONEY

1. In order to offer an upward salary adjustment for state employees (translation: to give us more money) and still stay on a pay-as-you-go basis (translation: to keep the state in the black), the state legislature is considering a bill to have the state pay part of the amount which we now pay for retirement. If the bill passes, state employees will find more take-home pay in their envelopes effective April 20, 1960 (translation: this is good).
2. On April 7 all ten-month employees will have salaries adjusted so that they will get twenty-one equal checks. Further details will appear in your April 20 pay envelope.
3. Clarification: In order to apply years of employment elsewhere to the New York State retirement plan, applicants must have taught in a public school or in an institution of higher education whose sole purpose is teacher education. The law does not allow us to apply to our retirement plan those years of employment in state-supported colleges which are not exclusively teachers colleges.

II. "The middle of our semester is during the week of April 1, 1960 to April 8, 1960. It has been our policy to mail to the students' homes Notices of Deficiencies as reported by faculty. This particular practice and the procedures are now under discussion in Educational Policies Council. It is hoped that we can reach some conclusion at our next meeting which will indicate how we will handle this for the Spring of 1960. Therefore, will you please do nothing about preparing deficiency notices until you receive further instructions from the Office of the Dean of the College.

III. "Faculty members whose advisees do not contact them for the purpose of indicating their course needs for the fall semester of 1960 should attempt to make contact with the students who have not reported. It is imperative that we have a more accurate indication of student course needs in order for us to be able to plan for the fall semester.

ALL THE NEWS  
WE GET TO  
PRINT

Many things happen to faculty and staff that the bulletin never hears of, and we hear of some things but never get a note on them. We will be pleased to edit and print whatever we get, but we are not a news-gathering agency. It is up to you, then, to share the responsibility of letting your colleagues know what is happening on campus. The next issue of the bulletin will come out on April 27, which will begin our third year of publication. Send news for the anniversary issue.

HOLD THE PHONE, SEE?

The troubles that guy Alex Bell has gotten us into! It's this way, see? The telephone operators called Morton Lane, see? And they told him...well, anyway one of them told him...that some of us have either been letting students make personal telephone calls or we have left our offices open so that students could, as Morton puts it, "make unauthorized use of College telephones." Well, this costs money, see? And it goes without saying that we don't have any extra money. So, Morton suggests we lock our offices when we aren't there. This will save money. And if you don't have a key, you can have one made on campus. This will cost money. But over the long pull it will save money, see? Just fill out a form called a maintenance service requisition, see? Some say to fill it out in duplicate or triplicate. It isn't quite clear. Anyway, send it to Charles Ball. If he approves it will go to Joe Dewine and he will send it to John Metzger. And Metzger is the one who makes the key, see? Any questions, see Morton Lane. He started all this.

As Mayor LaGuardia used to say, "Patience and fortitude." Here is the problem: When our regular switchboard operator, Betty Moyer, wants to eat lunch or wash her hands, then students, who are, in fact, trying to learn how to be teachers and not professional telephone operators, take over. Well, Morton Lane, a patient and understanding man himself, asks us to be patient with them when they take messages or when we give them information about calls.

All students who are on Final, Second Final, or Special Probation, as well as freshmen now on Probation, must have their permit approved by the Dean prior to June 14, 1960. Each student must bring a list of his or her grades for the spring semester on the green grade report card, along with the student copy of the Summer Session permit to the Dean. Grade report cards may be obtained in the Registrar's Office after Monday, June 1.

GRADUATE  
NOW!  
AVOID  
THE  
JUNE  
RUSH

Dorothy Eells offers the following to clarify questions raised about who will be participating in commencement exercises June 12, 1960. The following classes will graduate: August 1959 M.S. and B.S. (those who indicated their intentions during the summer); January 1960 M.S. and B.S.; June 1960 M.S. and B.S.; August 1960 B.S. At the first mid-year commencement to be held on February 22, 1961, the following will be graduated: August 1960 M.S.; January 1961 M.S. and B.S. Also included will be any B.S. candidates for August 1960 who did not previously signify their intention to complete requirements for the degree. All mid-year commencements after 1961 will include also the B.S. class of the previous August. This means that beginning with June 1961 commencement, only the June candidates for the B.S. and M.S. degrees will be graduating at that time.

## SOCIAL SECURITY RETIREMENT BENEFITS

An amendment to the Federal Social Security Act now makes it easier for some State employees to qualify for social security retirement benefits.

Until recently an employee covered by social security could qualify for retirement benefits if he contributed to the system for 40 calendar quarters or for a period which equals one-half the number of quarters from January 1, 1951 to the year in which he reaches retirement age. The new Federal law makes it possible for a public employee to qualify if he was covered for one-third of the number of quarters in that period.

Many State employees who were first covered under social security within the past few years will now be eligible for retirement benefits at an earlier date.

Further information may be obtained in the Business Office.

I. The Steering Committee of the college's self-evaluation study in preparation for the NACTE-MSA visitation in February has completed its plan of action. In addition to the eleven-person Steering Committee, approximately sixty-five professional personnel of our college will be invited to serve as members of the seven committees. As the seven committees develop a plan of action, more faculty necessarily will become involved. This is a large undertaking, and possibly one of the most significant activities in which our college has engaged in several years. The results of the subsequent written report will be used to decide our accreditation, but beyond this it will attempt to indicate where we are as an institution, and what shall be our direction in the immediate future.

I hope that those of you who are invited to join the working committees will do so! You will be contacted within the next day or two.

STATE STUDENTS COMMENDED BY GERALD LEIGHBODY

President Bulger recently received the following letter from Gerald B. Leighbody, deputy superintendent of the Board of Education, about the excellent work done by Buffalo State student teachers:

"Dear Dr. Bulger:

During my visits to our schools I find that more and more frequently I encounter young people from the college carrying on their student teaching activities. In every case the veteran teacher with whom they are working speaks highly of them and I have observed that much excellent work is being done by these young people. In several cases principals have praised the fine contribution of these student teachers and especially the alert and professional attitudes which they display. In this connection a letter has just come to my desk from one of our principals expressing her feelings about the student teachers who have been assigned to her school. I quote from her letter which I think will be of interest to you:

'Particularly, we feel that these pre-service teachers are coming to us with a good foundation for teaching. We notice also that skill in using art, music, audio-visual aids in their classroom work is well done. The departments at the college responsible for this work deserve special mention. Those who have had study in the teaching of foreign languages are also proving to be of great value to us.'

"We feel that the college is serving these young people well and that the quality of the student teachers and of their preparation is steadily improving. We continue to appreciate the fine cooperation accorded us by you and the other members of the college staff." Sincerely yours, Gerald B. Leighbody, Deputy Superintendent

#### MEMORANDUM TO ALL FACULTY

It has been slightly more than a month since we offered our services in the matter of the collection of dues for membership in Professional Associations, including the Faculty Branch Association of this College.

It is gratifying to report at this time that dues have been received from more than 50 per cent of our Staff. Of course, this creditable achievement, itself, defines the magnitude of the task which is yet to be accomplished, namely, collection of dues from the remainder.

Because we, in the Faculty Branch Association, are refined souls, eschewing the vulgar collection procedures of the huckster, we are sending this gentle reminder to our colleagues, to notify again that we remain ever ready to accept dues payments for Branch Assn., State Faculties Assn., N.Y.S. Teachers Assn. and N.E.A.

If membership forms sent initially are no longer available to you, a note of request to the undersigned will get them to you with unimaginable dispatch.

Murray Bloustein, Treasurer, Branch Association

WE HAVE TRAVELED A LONG WAY -- ONLY A SHORT DISTANCE TO GO!!

The United Fund Drive officially ends tomorrow. So far the College community has pledged or contributed \$5,303.28 which is 88 per cent of our \$6,000 goal. This is an outstanding record when compared with our previous efforts and perhaps can give us cause for being satisfied.

#### HOWEVER

We are so close to our goal now that perhaps we can make one last attempt to reach our goal by THURSDAY, NOV. 17 at 4 PM. You may wish to review your contribution and if you so decide, you can add to it. Others who have not taken the opportunity to get with this "big" drive may now wish to reverse their stand and make a pledge (in any amount).

We only need \$696.72 to make our quota. This is not a great deal when considering that approximately one-fourth of our staff and faculty has not taken advantage of joining this important activity. A CHANGE OF HEART RIGHT NOW WILL MAKE IT POSSIBLE FOR YOU TO BRING OUR COLLEGE TO ITS RIGHTFUL POSITION. (Please see Mrs. Dawson in the Summer Session office, Ad 115. She will than receipt your contributions and notify your committee member.)

RECONSIDER YOUR POSITION AND HELP CHANGE THE COLLEGE'S POSITION!!

Robert W. MacVittie, Dean of the College

III. The Faculty Council, at its meeting on December 5, 1960, approved for presentation to the President a proposal for the mechanics of scheduling final examinations for the semester ending January 1961 as follows:

1. Use the present scheduled periods of calendar time for examinations as stated in the college catalog.
2. Each instructor will meet his students for their exams in two hour blocks in their regularly scheduled rooms as per the following schedule:

Exam Period	Days of Exam Week				
	Mon.	Tues.	Wed.	Thurs.	Fri.
8:00-10:00	8 M*	9 M	10 M	11 M	12 M
10:30-12:30	1 M	2 M	3 M	4 M	5 M
1:00- 3:00	8 T	9 T	10 T	11 T	1 T
3:30- 5:30	2 T	3 T	4 T	5 T	all others

\*Example: All classes which meet in normal instructional schedule for their first class meeting of the week at 8 Monday will meet from 8:00-10:00 on Monday of exam week in their regular room. Each class which normally meets for its first class meeting at 9 on Monday will meet from 8:00-10:00 on Tuesday of exam week in their regular rooms and so on until the exam week is exhausted and all classes have been accommodated.

Advantages: (1) no proctoring needed; (2) no artificial room setup needed; (3) no student conflicts; (4) no more than four exams in a day for any student; (5) no maintenance service needed; (6) no master schedule of exams needed beyond a short memo to faculty; (7) if an exam is not to be given, the time can be used by the respective faculty in whatever manner he wishes; (8) opportunity exists for flexibility in scheduling for special consideration.

Robert W. MacVittie, Chm. Faculty Council

#### NEW T.V. PROGRAM

A new television series, "The Great Issues," is now being shown on WNED-TV. The series was planned by the Suburban Educational Television Group which is composed of the members of the staff of the College's social studies department and representatives of 18 high school districts outside the City of Buffalo.

The series introduces a new concept in educational television programming--follow-up discussion by small groups of advanced high school students meeting in their schools in the evening with faculty leaders. The programs are designed to present background material on the issue involved, indicate the varied points of view pertaining to the topic, and raise questions which become the basis for the follow-up discussions.

Telecast at 8 PM, the dates, program topics and participants are as follows:

January 25	"Causes and Cures of the Current Recession" Dr. Robert Albright, Dr. Norman Weaver, Gerhard Falk, and Moses Stambler
February 8	"A Fresh Look at Underdeveloped Countries" Dr. Harold Peterson, Dr. Houston Robison, Mrs. Mary Matossian, and James H. Jacobs
February 22	"Human Rights in America" Dr. Frederick Hollister, Dr. Eric Brunger, Dr. Sania Hamady, and Irving Foladare
March 8	"New State Department and the Communist Powers" Dr. Edmund Brown, Dr. Mildred Roesser, Raymond Stone, and John Palmer

Each program is repeated the following week on the same day at the same time on video tape.

Caryl Hedden is serving as coordinator for the series.

III. On Monday, Jan. 31, 1961, through Friday, Feb. 3, 1961, it will be necessary for me to review the academic status of a large number of students who are now, or will be, on a probation status for referral to the Probation Appeals Committee for hearings. Therefore, I will appreciate your complete cooperation in posting your final grades as soon as possible after the completion of your examinations.

You will recall that our Senior Registrar has requested that all grades be submitted to her office by 4:30 PM on Monday; however, the need for students to be aware of their academic status as soon as possible after completion of their last examination makes my request necessary and somewhat urgent. I will rely on your good judgment and your full realization that it is not my intention to ask you to do the impossible.

If you have not informed your students where and when their final grades will be posted, please do this prior to administering your final examination.

COOPERATION SOUGHT ON PARKING SITUATION

Construction begins today on Stage IV Dormitory at Union and Rockwell Roads. We will lose a great portion of the parking lot south of Men's Hall. General conditions for parking on campus will be critical for about 12 weeks. To alleviate this as much as possible, we are providing a temporary area north of the red maintenance barn at the rear of the campus. Students may also park on the Rockwell Road extension between Hospital Road and Rees St. and on Rees St. Your fullest cooperation is requested to avoid less satisfactory alternatives such as banning vehicles from campus parking.

We have decided to run the field trips from April 26 through May 5. The overnight at college camp, in which Dr. Theodore Eckert and Dr. George Laug cooperate, would take place May 4-5.

The normal procedure of utilizing field trip clearance slips will be followed well in advance of the trips. Both Dr. Laug and Dr. Eckert will excuse their General Biology classes for this period of time, thus allowing these students time for work in other classes which they might miss as a result of the trips. If any faculty member has specific problems or questions, please contact either Dr. Laug or Dr. Eckert.

The participating science faculty are grateful to you for your splendid cooperation in the past in providing our students with this action experience.

George M. Laug and Theodore E. Eckert

## NEW SUNDAY LIBRARY HOURS

Dean Robert MacVittie has announced that the Edward H. Butler Library will be open on three Sundays in April in response to student and faculty interest. The Sundays will be April 16, 23, and 30, 1961.

A great deal of interest in the Sunday hours was found as a result of a student survey conducted by Edward Sontag with the support of Student Congress. The Faculty Council discussed the idea of a trial period of Sunday hours and recommended the implementation. Dr. Taisto J. Niemi and the Library Staff have suggested the following plan which Dean MacVittie has approved:

1. The library will be open for the return of library materials, and the use of materials for study in the library.
2. No books or other materials may be taken out for circulation on Sundays.

The days chosen are approximately in mid-semester, and will be used to ascertain the need for the library to be open on Sunday. The library is open, now, for a total of 72 hours per week.

# CIVIL WAR PHOTOGRAPHS TO BE DISPLAYED IN CAMPUS SCHOOL LIBRARY

A display of enlarged photographs made from original Mathew Brady glass plates will be on display in the Campus School Library, March 6 - 10. This exhibit is being arranged by Helen Thielking and Marguerite Scott.

The pictures, part of a traveling gallery prepared by the Ansco Camera Services Department, Binghamton, N.Y., include portraits of such famous dignitaries as Presidents Lincoln and Grant as well as Generals Custer and Sheridan.

Also on display will be a rare group of Civil War pictures. These on-the-spot scenes, made by Mathew Brady and his associates, provide an intimate view of actual war-time conditions in the trenches, on the battlefields and in the camps.

Mathew Brady, known to everyone as the "Civil War Photographer," was one of the pioneers in American photography. His contributions in the field of art are overshadowed in part by his outstanding work as a photographic historian. The public is invited to come and see the historical picture records made possible by this famous photographer.

### SPECIAL NOTICE

In observing attendance at convocations over the years, those of us who work with the convocations board are convinced that student interest and attendance are in direct ratio to the interpretation presented by the teaching faculty as to the program's educational value and its contribution to the enrichment of instructional program. With this in mind, I would like to make a request that special attention be given to encouraging students to attend the Jose Limon dance program. The program will be of particular interest and significance to classes in dance, recreation and physical education, music, art, communication, "Arts in Modern Living," and literature. Mr. Limon's troupe is rated as one of the best modern dance groups in the United States and has performed frequently abroad. This program is one of our two major convocations of the year and the most expensive. The group, itself, is coming at considerable sacrifice in terms of inconvenient travel arrangements and schedule. Your encouragement of student attendance will be greatly appreciated by the Convocations Board.

Wilton Pruitt, for the Convocations Board

### CHANGES IN HEALTH INSURANCE BENEFITS

Contribution rates for coverage under the State health insurance program will be increased on June 1. The rate changes reflect the rising cost of medical care and an extension of benefits.

Blue Cross and the Metropolitan Life Insurance Company are raising their rates by 8.5% and 20%, respectively. The Blue Cross and Metropolitan rate increases became effective April 1. For April and May, however, the increases will be paid from dividend monies now in the Health Insurance Fund.

Changes in payroll deductions to reflect the new rate will start with the May 10th paycheck for State institution employees and the May 17th paycheck for other State employees.

Also on June 1, the State will assume a greater share of the premium charges for those who retired prior to the start of the health insurance program.

As of April 1, full contract benefits will be provided under the Statewide Plan in maternity and obstetrical cases involving other than normal deliveries. Amendments to the Blue Shield schedule showing allowances for Caesarean sections, ectopic pregnancies and miscarriages will be distributed soon. The allowances for normal delivery, hospital and medical services - \$75 each - remain the same.

Full hospitalization coverage under Part I of the program (Blue Cross) will be provided in maternity and obstetrical cases involving other than normal deliveries.

Health Insurance coverage will be extended on June 1 to dependent children under 23 years of age who are unmarried, full-time students not otherwise eligible for employer-group coverage. The full cost of this insurance is to be paid by the employee concerned. Descriptive

### ORIENTATION PROCESSION

The Student Faculty Orientation Committee in evaluating the success of last year's academic procession felt that the concept behind the program was a worthy one and that the idea carried with it the proper note of solemnity and dignity appropriate to a college dedicated to the teaching profession.

The convocation, beginning with an academic procession, will take place in Rockwell Hall Auditorium on Monday, September 11, 1961, from 9 - 10:45 AM. Dr. Virgil Rogers, Dean of the School of Education, Syracuse University and author of the book, "Can America Lose Her Free Public Schools," will speak. His remarks will be challenging to freshmen as well as appropriate and stimulating to faculty members. Many freshmen and upperclassmen commented on the value of last year's program, saying that the opportunity to see their faculty in academic garb lent a most impressive tone to the program. We certainly hope that you will want to participate in the procession, but if you are unable to be a part of the procession itself, the committee hopes you will attend the program as a member of the audience.

Filling out and returning the form which will be placed in your mailbox will help us to make arrangements and you will then be notified at a later date of the final arrangements for the program.

**LEAVE OF ABSENCE:** Section 242 of the New York State Military Law provides that an employee ordered to military service with State or Federal Reserve Units shall be carried on the payroll for a period not to exceed 30 calendar days in any one calendar year and not exceeding 30 calendar days in any one continuous period of absence. Unliquidated vacation, personal or sick leave or overtime credit may not be used on or after the effective date of order to active service. Credits remaining unliquidated will be recredited to the employee upon his return to State service.

**EMPLOYMENT RIGHTS:** Time during which employees are on authorized military leave shall not constitute an interruption of continuous State employment. Employees shall be reinstated to their permanent position provided they make application for such reinstatement within 90 days of termination of their ordered military service.

**RETIREMENT:** Employees in the New York State Employees Retirement System or the New York State Teachers Retirement System may elect to contribute to such retirement systems the amount which he would have contributed had his employment been continuous.

**NEW YORK HEALTH INSURANCE PROGRAM:** Those employees who are members of the New York State Health Insurance Plan may elect to continue such coverage by making direct contributions to the Health Insurance Unit of the Civil Service Department. Dropping of the insurance while on military leave will not jeopardize eligibility to continue health insurance into retirement if all other requirements are met.

**CSEA DUES AND GROUP LIFE INSURANCE:** Membership and participation may be continued by making direct contributions. An employee who does not elect to continue life insurance coverage while in military service may have such plan reinstated without physical examination upon request within 60 days of discharge and if premiums from the date of end of military service are paid.

**CSEA HEALTH AND ACCIDENT INSURANCE:** This coverage is not offered to persons ordered to military service. Coverage will be restored upon return to State service, at prevailing rates, if so desired.

**U.S. SAVINGS BONDS:** Deductions will cease upon removal from payroll. Any amount which cannot be applied to complete the elected bond amount will be refunded. Bond deductions may be resumed upon return to State service.

**FEDERAL AND STATE INCOME TAX:** Employees are not exempt from such taxes while on military leave, and must file appropriate tax returns. The Federal Government does not withhold for New York State Income Tax from payments made to military personnel.

**SOCIAL SECURITY:** Social Security deductions will be taken from pay received while in military service.

**PROMOTION EXAMINATIONS:** Employees eligible for promotion examinations may file and take such tests while on military leave. In the event that satisfactory arrangements cannot be made to administer such tests, the employee may request a comparable examination upon his return to State service. Such requests must be made within 60 days of his reinstatement to State Service.

This information is of a general nature only. If you have any specific problem, please see me personally.

Morton R. Lane, Sr. Financial Secretary

## PRE-REGISTRATION

The Office of the Dean of the College has listed October 27 through November 3 as the dates for pre-registration of course needs. Students will be instructed that it is their obligation to have a conference with their adviser during this period.

The dates of October 27 and October 31 have been reserved for group meetings for those advisers desiring to meet with their advisees in this manner. Group meetings have been scheduled for 12 Noon. All advisers wishing to hold groups meetings should contact Mrs. Pauli in the Office of the Dean of Students to arrange for room assignments. These arrangements must be made prior to 4:30 PM, October 6. Those advisers not scheduling group meetings will be expected to see their advisees in individual conferences. Students who have advisers not holding group meetings will be instructed to make appointments during the period October 27 through November 3.

Faculty advisers will receive rosters of their advisees within the next two weeks. If the faculty member teaches a required freshman course for Elementary Education or Exceptional Education, his advisees will be students enrolled in his classes. These faculty members are requested to inform their advisees, who will be members of their classes of this assignment. Your cooperation in this respect will be deeply appreciated. All faculty in this category may assume they will have student advisees.

Information regarding specific responsibilities for pre-registration may be obtained from the Office of the Dean of the College and Division Directors. New faculty advisers should also consult the Faculty Adviser's Handbook. During this period there will be inconsistencies with existing policy and assignments might not follow desirable procedures in all instances; however, your patience and understanding during this period of transition would be deeply appreciated. We shall endeavor to rectify these inconsistencies as soon as possible. It is our desire to coordinate the program so as to meet the needs of advisers and students.

We would be very happy to receive any suggestions which faculty members feel would be helpful to us in developing the adviser program.

Jerome E. Bartow, Associate Dean of Students

ATTENTION: CLERICAL AND MAINTENANCE STAFF

The College will be in session on Election Day, November 7, 1961. All clerical and maintenance employees are expected to be on duty unless they are excused by their supervisor. It has been the custom for the College not to be in session on the Friday following Thanksgiving and all but a few clerical and maintenance have been off on that Friday in lieu of Election Day. This year Thanksgiving Day is Nov. 23.

The interpretation of this section of the law means that time off for voting will not be granted unless an employee can show that he does not have four consecutive hours of time off before or after his regular hours of duty during which time the polls in his election district are open for voting. A complete copy of Section No. 226 of the New York State Election Law is posted in the Mail and Supply Room, RH 6.

III. OFFICIAL NOTICE. Sabbatical Leaves--One Semester at Full Pay. You are aware that the Trustees Policies permit approval of faculty requests for a one-semester sabbatical leave at full pay. This is not mandatory. Dr. Cooper has apprised President Bulger that SUNY Central Office will approve our recommendations for implementing this part of the policy if we can assure him that (1) the instructional load of the faculty member can be absorbed by existing faculty, or (2) that funds are available for the employment of fully qualified substitutes. This is a change of viewpoint by the Central Office. It is not now possible for our college to approve, locally, the one-semester-at-full-pay requests, since we cannot meet the two stipulations mentioned above. We will still continue to investigate possibilities for effecting the implementation so that this may be possible in the near future.

### DR. REDDEN REPORTS ON FALL ADMISSIONS

Dr. Robert Redden, Director of Admissions, has reported that the College has accepted over 1000 candidates for admission next Fall and that at the current rate of acknowledgements, about 1400 acceptances most likely will be required to reach the anticipated final enrollment of 1100 freshmen students. At present over 1600 applicants have been interviewed.

This is the best acceptance level for this time of the year the College has ever had, Dr. Redden said. He also commented that the caliber of students accepted compares very favorably with those accepted during the past two years.

II. REMINDER -- Faculty Council, at its meeting on Monday, April 30, 1962, took the following action:

1. Changing Article 6, Paragraph C., Item 4 to read:

"No provision is made in these By-laws for alternate membership on any committee or council. The Appointment and Elections Committee shall nominate candidates for the unexpired term and conduct an election by a 'mailbox vote'."

2. Adding to Appendages (page 10) of the By-laws:

"The Grievance Committee is an independent investigatory committee of the faculty and is not a committee of any council.

A. Function. This committee shall investigate grievances that are referred to it. It shall report its findings to the President of the College and to the parties involved. It shall make such recommendations as it deems appropriate to its findings.

B. Membership. There shall be seven members elected by the faculty from the full-time teaching faculty for a term of two years as follows: three professors, two associate professors, and two assistant professors. Alternates shall be elected by the faculty within each rank above to serve in place of any member who may leave the committee. A chairman shall be elected by the members of the committee from its membership to serve the same term as his term as a committee member."

#### INFORMATION REGARDING MILITARY CREDIT

Chapter 291 of the Laws of 1962 affords members of the New York State Teachers Retirement System, who had not done so, an opportunity to secure credit for service rendered in World War II and/or the Korean Conflict by meeting certain requirements and making the required payment.

A member must have left teaching in the public schools of this State to enter the Armed Forces and after discharge or furtherance of study under the Servicemen's Readjustment Act returned to teaching in such schools.

If he had been granted a leave of absence or held an unexpired contract, the cost would be at the rate of deduction in effect at that time based on salaries he would have received if teaching and not thus absent.

If he had resigned his position or his contract had expired, he would be liable for his own contribution plus the employer's contribution based on last annual contract salary.
