Reduced facsimile of page, showing how columns may be used.

EXPLANATION

NOT ALL PARISHES will have use for all the columns provided in this Register; but ample provision has been made for the varying requirements of all sizes of parishes, since it is easier to disregard some columns than to add others in a record of this sort. On the opposite page is a sample showing how the columns may be used.

The first section provides columns for the *date*, the *day*, the *service*, the *place* where the service was held, and the *hour* when it was held. These columns are self-explanatory.

The next sections provide columns for recording the *number present* at the service and for the *cumulated total attendance*; the *number of communions* made, and the *cumulated total of communions*. These two "total to date" columns are of particular importance. They will enable the clergyman to tell at a glance, at any time, the total number of persons attending all services to that date, as well as the number of communions made to date.

The fourth section provides for the *serial numbers of all services* on Sunday, as well as on other days than Sunday; and also provides separate columns for the *serial numbers of public celebrations of the Holy Communion* on Sundays and other days, and of *private celebrations*. Thus at any time, in making up a report, the clergyman can tell quickly just how many services have been held on Sundays or other days and how many times the Holy Communion has been celebrated in the parish.

Two columns have been provided for the *offering*, showing the amount received and the object of the offering. Even where a separate offering record is kept, these columns will be useful for recording offerings on special occasions for special objects.

The next three columns provide for recording the names of the *celebrant* or *officiant*, *preacher*, and *server*. The last column, *for memoranda*, may be used for recording the weather or other miscellaneous information.

If the columns of this Register are carefully used, anyone using it can, at the end of the year, or at the end of any period, secure quickly and easily any information necessary for making out a statistical report.

Attention is called to the blank lines provided on the title page, where the name of the parish or mission should be filled in and also the dates of this record.
