OFFICIAL NOTICES

FROM THE PRESIDENT

I. EVALUATION VISITS. A team representing the Commission on Institutions of Higher Education of the Middle States Association of Colleges and Secondary Schools is scheduled to visit our campus in the spring of 1972. This will be the regular ten-year visit as mentioned in the Staff Bulletin of March 27, 1969.

A separate team representing the National Council for Accreditation of Teacher Education will visit the campus in the fall of 1971.

Plans for faculty and student involvement in our preparation for these visits will be announced later.

II. The Grievance Committee has called to our attention what appears to be violation of the Trustees Policies (1968, revised) IX, Title C, 4. There may also have been violation of the statement in the Faculty Handbook (page 3, III, B. Faculty Responsibilities) which reads in part as follows:

"Scheduling Each instructor's teaching schedule is determined by his division or department cooperatively and in accordance with data supplied by the appropriate Dean."

The cooperative approach should be utilized in making course assignments for the regular session and the summer session. May I urge that each department comply.

III. APPROVED COURSE PROPOSALS. New course proposals as listed in the July 11th issue of this Bulletin are approved.

IV. FACULTY MEETINGS. For planning purposes, the following dates are reserved for faculty meetings in Upton Hall Auditorium at four o'clock.

V. ADDENDUM. A copy of the "Rules and Regulations for Maintenance of Public Order on Premises of State Operated Institutions of the State University of New York" is attached as an addendum to this Bulletin.

FROM THE VICE PRESIDENT FOR ACADEMIC AFFAIRS

I. FACULTY COUNCIL. Faculty Council, at its meeting on August 11, 1969, took the following recommending action: The proposed Experimental Program in Afro-American Studies be recommended for approval and that there be a sub-committee of three elected members of Faculty Council to work with the Sarasota team (Hawkes, Richards, LaHood, Nolley, Dean). This group to set, as a short range goal, criteria for the selection of students and, as a long range goal, establishment of criteria for evaluation of the program.

Drs. Fotion, Poleszak and Shoenberg were elected as Faculty Council representatives.

II. NEW COURSE PROPOSALS. The following new course proposals have been received in the Office of the Vice President for Academic Affairs: Psychology 265 - Industrial Psychology; Anthropology 306 - Peoples of the Carribbean; Economic Clothing Science 117 - Introduction to Retailing.

III. ADDENDUM TO MASTER SCHEDULE - FALL 1969. On the Master Schedule, some classrooms were indicated by the number 1, 2, 3, 4, 5 and letters t, u, v, x, y, z. Those numbers and letters now refer to the following classrooms.

1 -- Bacon Hall 214	t -- Bacon Hall 200
2 -- Bacon Hall 216	u -- Bacon Hall 202
3 -- Bacon Hall 217	v -- Bacon Hall 203
4 -- Bacon Hall 310	x -- Bacon Hall 205
5 -- Bacon Hall 209	y -- Bacon Hall 207
	z -- Bacon Hall 306

IV. CANCELLED SECTIONS. Just a reminder that sections which have been cancelled after students have registered for them should be met at the first time at which they are scheduled in order to inform students of the cancellation. These students should be instructed to add a course to replace the cancelled one during the Drop/Add period. If you have made provisions for these students in other sections and/or courses please make sure that they and the Registrar know about it by Tuesday, September 9. Students will still have to carry out the formal process of dropping and adding during the time allotted.

FROM THE VICE PRESIDENT FOR ADMINISTRATION

I. PAY DAY. During the past three months this office has tried to study the whole situation as to the distribution of pay checks. This study had as its ultimate goal to try to distribute checks to all employees as close to Wednesday as humanly possible. I am happy to say that effective September 11, 1969 pay day will be on Thursdays. To facilitate the early distribution of salary checks some of the services which have been performed by the Payroll Office will have to be discontinued.

Changes in check distribution are as follows:

- Checks will be available on Thursday at 6:15 a.m.
- There will be NO check releases before that time.
- No personal banking deposits will be made by the Payroll Office unless the employee is out of the state on pay day.
- Checks will not be mailed to homes unless the employee is out of the area and leaves a self addressed stamped envelope at least one week prior to the pay day(s).

(continued)

- There will be no "departmental" package or group of checks except for Instructional Resources, Butler Library and Campus School.
- A secretary or representative from a department may pick up a group of not more than 10 checks including her own if she presents an alphabetical listing of the checks desired.

The changes described above are subject to continued review and any changes which need to be made for more efficient release of pay checks will be made as necessary.

The possibility exists that the first payroll may be late because of the large increase in salary checks which have to be processed. If the first payroll this fall should be received too late to meet the Thursday pay day, then a notice will be posted outside the Payroll Office and departments will be notified.

II. MOTOR VEHICLE REGISTRATION. All faculty and staff driving motor vehicles on the campus must register with the Traffic Security Department on September 9, 10, and 11, in the Union Social Hall between the hours of 8:30 - 4:00. Bring your New York State registration and personal identification. Permits will be issued free for the first vehicle and \$1 will be charged for each additional vehicle. New York State registration is required for each vehicle.

III. ID CARDS. Faculty and staff are requested to go to RH 117 any time September 15-19 from 8:30 - 4:00 to have a picture taken for an ID card. Your ID card will be placed in your pay check envelope on September 25.

IV. STAFF CHANGES. On August 27, the positions of Personnel Administrator and Assistant Purchasing Agent were abolished. Therefore, the responsibilities formerly held by Mr. Chester Pulaski and Mr. Lawton Dickinson are assigned temporarily as follows:

- Purchasing: Direct supervision, Mr. James Caputi, Ext. 6919. The day to day operation will be handled by Miss Mary Ann DeKarz.
- Print Shop, Duplicating and Secretarial Services: Mr. Ray Burry.
- Telephones and Mail Service: Dr. Philip Bonner, Ext. 4701.
- Accounting, Payroll and Bursar: Direct supervision, Mr. James Caputi hereafter called the Controller. The day to day operation will be handled by Mr. David Burdette in Accounting, Mrs. Ceil Wood in Payroll and Mrs. Sally Nowocin in the Bursar's Office.
- The new Director of Institutional Research is Dr. Theodore Van Istendal, Ext. 4521.
- Budget: The new Budget Control Officer is Mr. Barry Solomon whose office is RH 118, Ext. 4401.

V. IMPROVED TELEPHONE SERVICE. As of September 1, the College now provides three (3) toll-free WATS telephone lines for New York State calls. In addition, the College has one (1) TIE line to Albany, New York.

To use the WATS line, Dial "0" and tell the operator who you are and where you are calling and she will dial the call for you.

To place a call to any Albany agency number on the TIE line dial "0" and ask the operator for instructions. Specific instructions will be carried in the new official directory. When this directory is available, you may ignore the above instructions.

(continued)

The increase in two toll-free lines will cost the College \$890 per month. Therefore, effective immediately, all New York State toll calls must be made on toll free lines (WATS or TIE). Departments will automatically be charged for New York State toll calls not made on the rental lines.

VI. FACULTY SECRETARIES AND LIBRARY STAFF. When the College received the supplemental budget, a decision was made to fund 23 new positions for the Butler Library and 16 secretarial positions for faculty support only. Around June 1, the College forwarded all necessary supporting documents to Central Personnel in Albany for these positions. At the moment, State University has not approved a single position in spite of the fact that we are prepared to fund all 39 positions. The College is doing everything in its power to get the University's support in these two key areas.

ITEMS OF INTEREST

TRANSFER PERIOD - HEALTH INSURANCE PROGRAM

The President of the Civil Service Commission has designated the period September 1, 1969 - November 30, 1969 as a transfer period, during which enrollees in the health insurance program may change from the coverage under which they are presently enrolled to any other option in the State program available to them in their area of residence. This period has been established solely for the purpose of waiving the usual requirements for transfer between options. In no way will it confer eligibility on any otherwise ineligible dependent or eliminate the necessity for satisfying late enrollment procedures for eligible dependents and enrollees who would otherwise be considered late enrollees. Nor will it in any way change an enrollee's right of two transfers during his employment. Applications for changes of coverage may be accepted by the Personnel Office, RH 114, during the period September 1, 1969 - November 30, 1969. Form PS-405 will be used as the application form. An employee must have two consecutive payroll deductions at the new rate before his new coverage can become effective. No special adjustment or payment may be taken in order to establish an earlier effective date. Under this procedure, the advance payments for the former coverage will be exhausted during the two payroll periods when the advance payments are being collected for the new coverage. The effective date of the new coverage will be the first day of the payroll period following the second deduction at the new rate.

DEPENDENT STUDENT COVERAGE

Parents and guardians are reminded that although they no longer are required to make direct payments for student dependent coverage, they will still be required to enroll eligible students (19-25 years of age) for this coverage before the student's nineteenth birthday or at any time he first acquires eligibility if this occurs after his nineteenth birthday.

NEW GHI GOVERNMENT RELATIONS UNIT

A special government subscriber relations unit has been established at Group Health Insurance, Inc. to handle inquiries from this group of GHI enrollees. Enrollees with questions may contact the specially trained representatives in this unit by calling New York City (Area 212)

GHI Government Unit, Subscriber Relations, Group Health Insurance, Inc., 227 West 40th Street, New York, New York 10018.

Unless the questions are of a general nature, enrollees should furnish their certificate and group numbers as they appear on their GHI cards.

RESEARCH FOUNDATION APPLICATIONS

Applications for Research Foundation/State University of New York Fellowships and Grants-in-Aid are available in the Office of Dr. John Fontana, Rockwell Hall 100 C. Complete instructions are enclosed in packet form which should be completed and returned to Rockwell Hall 100 C by Friday, October 10, so that appropriate signatures and mailing will assure arrival by the deadline date of October 15. No application will be reviewed or honored if deadline date (October 15) is not met.

PARENTS' RECEPTION

All faculty members are invited to attend the Parents' Reception for Fall Orientation on Saturday, September 6, from 2:00 - 4:00 PM in the Union Social Hall. Please contact the Student Activities Office, ext. 4631.

FACULTY DIGEST

Due to problems concerning mail distribution, the first issue of the Faculty Digest for the academic year will be published in late September. Items of interest should be sent to the Publications Office, RH 222, by Monday, September 22. The period covered in this issue will include June--September. Due to the large number of meetings and conferences attended by faculty during the summer, it is impossible to list these unless a member has presented a paper, served as a discussion leader or has actively participated in some other way.

BUILDING PERMITS

The old building permit forms used during the past year will no longer be valid. Any student in a building after hours without a permit will be asked to leave. These permits must be signed by the faculty member involved and his department chairman, who will be responsible for the student or students to whom the pass is issued. For this reason they must discriminate carefully in order to insure the safety and security of the people involved and the facility involved.

Those interested may obtain a supply of these forms from the Security Office, Chase Hall 110. The permits will be in triplicate and color coded (Security: white Student: yellow; Department Chairman: blue). They will also be serialized with a permit number appearing in the upper right hand corner. For complete instructions on the use of these new forms, please see the Chairman of your Department.

RULES AND REGULATIONS FOR MAINTENANCE OF PUBLIC ORDER ON PREMISES OF STATE-OPERATED INSTITUTIONS OF THE STATE UNIVERSITY OF NEW YORK ADOPTED BY THE BOARD OF TRUSTEES OF STATE UNIVERSITY ON JUNE 18, 1969 AND AMENDED BY THE EXECUTIVE COMMITTEE OF THE BOARD OF TRUSTEES ON JULY 10, 1969

1. Statement of Purpose. The following rules are adopted in compliance with Section 6450 of the Education Law and shall be filed with the Commissioner of Education and the Board of Regents on or before July 20, 1969, as required by that section. Said rules shall be subject to amendment or revision and any amendments or revisions thereof shall be filed with the Commissioner of Education and Board of Regents within ten days after adoption. Nothing herein is intended, nor shall it be construed, to limit or restrict the freedom of speech nor peaceful assembly. Free inquiry and free expression are indispensable to the objectives of a higher educational institution. Similarly, experience has demonstrated that the traditional autonomy of the educational institution (and the accompanying institutional responsibility for the maintenance of order) is best suited to achieve these objectives. These rules shall not be construed to prevent or limit communication between and among faculty, students and administration, or to relieve the institution of its special responsibility for self regulation in the preservation of public order. Their purpose is not to prevent or restrain controversy and dissent but to prevent abuse of the rights of others and to maintain that public order appropriate to a college or university campus without which there can be no intellectual freedom and they shall be interpreted and applied to that end.

2. Application of Rules. These rules shall apply to any state operated institution of the State University for which separate rules covering the same subjects have not been adopted by the institution, approved and adopted by the State University trustees and filed with the Commissioner of Education and Board of Regents. These rules shall further apply to any such institution for which separate rules have been or shall be so approved and filed as to any matter not expressly provided for in such separate rules; subject to this exception, these rules are not intended to repeal, supersede, amend or preclude any other rules relating to the same subject matter adopted, approved and filed as above specified. The rules hereby adopted shall govern the conduct of students, faculty and other staff, licensees, invitees, and all other persons, whether or not their presence is authorized, upon the campus of any institution to which such rules are applicable and also upon or with respect to any other premises or property, under the control of such institution, used in its teaching, research, administrative, service, cultural, recreational, athletic and other programs and activities.

3. Prohibited conduct. No person, either singly or in concert with others, shall:

(a) Wilfully cause physical injury to any other person, nor threaten to do so for the purpose of compelling or inducing such other person to refrain from any act which he has a lawful right to do or to do any act which he has a lawful right not to do.

(b) Physically restrain or detain any other person, nor remove such person from any place where he is authorized to remain.

(c) Wilfully damage or destroy property of the institution or under its jurisdiction, nor remove or use such property without authorization.

(d) Without permission, expressed or implied, enter into any private office of an administrative officer, member of the faculty or staff member.

(e) Enter upon and remain in any building or facility for any purpose other than its authorized uses or in such manner as to obstruct its authorized use by others.

(f) Without authorization, remain in any building or facility after it is normally closed.

(g) Refuse to leave any building or facility after being required to do so by an authorized administrative officer.

(h) Obstruct the free movement of persons and vehicles in any place to which these rules apply.

(i) Deliberately disrupt or prevent the peaceful and orderly conduct of classes, lectures and meetings or deliberately interfere with the freedom of any person to express his views, including invited speakers.

(j) Knowingly have in his possession upon any premises to which these rules apply, any rifle, shotgun, pistol, revolver, or other firearm or weapon without the written authorization of the chief administrative officer whether or not a license to possess the same has been issued to such person.

(k) Wilfully incite others to commit any of the acts herein prohibited with specific intent to procure them to do so.

4. Freedom of Speech and Assembly; Picketing and Demonstrations. No student, faculty or other staff member or authorized visitor shall be subject to any limitation or penalty solely for the expression of his views nor for having assembled with others for such purpose. Peaceful picketing and other orderly demonstrations in public areas of ground and building will not be interfered with. Those involved in picketing and demonstrations may not, however, engage in specific conduct in violation of the provisions of the preceding section.

5. Penalties. A person who shall violate any of the provisions of these rules shall:

(a) If he is a licensee or invitee, have his authorization to remain upon the campus or other property withdrawn and shall be directed to leave the premises. In the event of his failure or refusal to do so he shall be subject to ejection.

(b) If he is a trespasser or visitor without specific license or invitation, be subject to ejection.

(c) If he is a student, be subject to expulsion or such lesser disciplinary action as the facts of the case may warrant, including suspension, probation, loss of privileges, reprimand or warning.

(d) If he is a faculty member having a term or continuing appointment, be guilty of misconduct and be subject to dismissal or termination of his employment or such lesser disciplinary action as the facts may warrant including suspension without pay or censure.

(e) If he is a staff member in the classified service of the civil service described in Section 75 of the Civil Service Law, be guilty of misconduct, and be subject to the penalties prescribed in said section.

(f) If he is a staff member other than one described in paragraphs (d) and (e), be subject to dismissal, suspension without pay or censure.

6. Procedure. The chief administrative officer or his designee shall inform any licensee or invitee who shall violate any provisions of these rules that his license or invitation is withdrawn and shall direct him to leave the campus or other property of the institution. In the event of his failure or refusal to do so such officer shall cause his ejection from such campus or property.

In the case of any other violator, who is neither a student nor faculty or other staff member, the chief administrative officer or his designee shall inform him that he is not authorized to remain on the campus or other property of the institution and direct him to leave such premises. In the event of his failure or refusal to do so such officer shall cause his ejection from such campus or property. Nothing in this paragraph shall be construed to authorize the presence of any such person at any time prior to such violation nor to affect his liability to prosecution for trespass or loitering as prescribed in the Penal Law.

In the case of a student, charges for violation of any of these rules shall be presented and shall be heard and determined in the manner established at the campus where he is enrolled for the disposition of charges which may lead to expulsion.

In the case of a faculty member having a continuing or term appointment, charges of misconduct in violation of these rules shall be made, heard and determined in accordance with Title D of Article XIV of the Policies of the Board of Trustees.

In the case of any staff member who holds a position in the classified civil service, described in Section 75 of the Civil Service Law, charges of misconduct in violation of these rules shall be made, heard and determined as prescribed in that section.

Any other faculty or staff member who shall violate any provision of these rules shall be dismissed, suspended or censured by the appointing authority prescribed in the Policies of the Board of Trustees.

7. Enforcement Program. The chief administrative officer shall be responsible for the enforcement of these rules and he shall designate the other administrative officers who are authorized to take action in accordance with these rules when required or appropriate to carry them into effect.

It is not intended by any provision herein to curtail the right of students faculty or staff to be heard upon any matter affecting them in their relations with the institution. In the case of any apparent violation of these rules by such persons, which, in the judgment of the chief administrative officer or his designee, does not pose any immediate threat of injury to person or property, such officer may make reasonable effort to learn the cause of the conduct in question and to persuade those engaged therein to desist and to resort to permissible methods for the resolution of any issues which may be presented. In doing so such officer shall warn such persons of the consequences of persistence in the prohibited conduct, including their ejection from any premises of the institution where their continued presence and conduct is in violation of these rules.

In any case where violation of these rules does not cease after such warning and in other cases of wilful violation of these rules, the chief administrative officer or his designee shall cause the ejection of the violator from any premises which he occupies in such violation and shall initiate disciplinary action as hereinbefore provided.

The chief administrative officer or his designee may apply to the public authorities for any aid which he deems necessary in causing the ejection of any violator of these rules and he may request the State University Counsel to apply to any court of appropriate jurisdiction for an injunction to restrain the violation or threatened violation of these rules.

I. PRINTING. Effective immediately, College stationery is available from Central Stores in minimum quantities of 500 per \$2.15 on a recharge basis to your office supply account.

In order to re-evaluate priorities in the on-campus print shop, a moratorium has been declared on personalizing letterheads, memo pads, referral slips, telephone pads, etc. Beginning on or about November 1, the following items will be stocked in Central Stores, assigned a stationery catalog number, and will be available on an office supply recharge basis: 5½ x 8½ memo pads, 4¼ x 5½ referral slips, and 4¼ x 5½ telephone pads.

It is hoped that more rapid services for the more complicated printing orders may be realized by standardizing these items at the present time.

II. PARKING. For the benefit of new staff members and new students, may we remind you that the Albright-Knox Art Gallery and the State Hospital parking lots should not be used by the College community as over-flow parking areas. OFFICIAL NOTICES

FROM THE PRESIDENT

I. FACULTY LISTS. Attached to this issue of the Staff Bulletin is the Faculty and Staff Roster 1969-70.

The following members of the College staff were inadvertently omitted from the list of administrators published as an addendum to the Staff Bulletin of Sept. 11: Under Dean, Faculty of Arts and Sciences - Steven T. Dhondt and Joseph Oliva, Assistants to the Dean of Arts and Sciences; Robert A. Sweeney, Director, Great Lakes Laboratory.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. CORRECTION. Course title in September 4 issue of Staff Bulletin, Economic Clothing Science 117 - Introduction to Retailing, should be Environmental and Consumer Studies 117 - Introduction to Retailing.

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. PRINTING. Effective immediately, College stationery is available from Central Stores in minimum quantities of 500 per \$2.15 on a recharge basis to your office supply account.

In order to re-evaluate priorities in the on-campus print shop, a moratorium has been declared on personalizing letterheads, memo pads, referral slips, telephone pads, etc. Beginning on or about November 1, the following items will be stocked in Central Stores, assigned a stationery catalog number, and will be available on an office supply recharge basis: $5\frac{1}{2} \times 8\frac{1}{2}$ memo pads, $4\frac{1}{4} \times 5\frac{1}{2}$ referral slips, and $4\frac{1}{4} \times 5\frac{1}{2}$ telephone pads.

It is hoped that more rapid services for the more complicated printing orders may be realized by standardizing these items at the present time.

II. PARKING. For the benefit of new staff members and new students, may we remind you that the Albright-Knox Art Gallery and the State Hospital parking lots should not be used by the College community as over-flow parking areas. Both institutions have asked our cooperation in keeping their lots available for their use.

Faculty are reminded that it is necessary to submit a "Request for Approval to Serve with Another State Agency" (form UP6) for service to be rendered at another State agency. Forms are available in RH 208. The form should be transmitted by the Chairman through appropriate channels to the President.

The professional staff is invited to suggest items for the agenda of the next State University Faculty Senate meeting. Such suggestions must be forwarded in written form to John Urban, NS 268, to be received by him not later than Tuesday, September 30. REMINDER: November 30 is the deadline for transferring health insurance from the coverage under which you are presently enrolled to any other option in the State Program available in your area of residence. Applications for changes are being accepted in the Personnel Office, RH 114. For further information see the Staff Bulletin of September 4.

TEACHER RETIREMENT SYSTEM ELECTION. A recent amendment to the Education Law allows each unit of the SUNY to elect delegates to the Annual Meeting of the TRS. Our college is entitled to elect two TRS members. TRS rules and regulations governing this election and nominating petitions are available from Dr. Steven Gittler, RH 309. Completed nomination forms must contain the signatures of 10 TRS members and be returned to RH 309 no later than Friday, October 3. The election is scheduled for Thursday, October 9 (pay day) outside the Payroll Office, RH 110. The annual meeting is held in Albany on November 10.

Faculty and staff who play orchestral instruments are invited to join the College Orchestra. Don't miss this opportunity to have fun and play good music. The orchestra rehearses Wednesdays from 3:00 - 5:00 PM in AB 203. If you are interested please contact Dr. Wincenc, Ext. 6414, or Miss Grant, Ext. 6415.

Any faculty members interested in teaching a course in the experimental college should contact George Moss in the C.S.A. office.

All men on the staff interested in bowling in the Faculty Men's Bowling League are invited to attend the first meeting at Kenmore Lanes on Kenmore Avenue, Tuesday, September 30, at 4:00 PM. If you have any questions call Martin Fried, 5501, or Dick Brown, 5818.

The College Store requests instructors not to place orders for texts and supplies personally with the publishers and suppliers. The complications in such a procedure are very involved and concern such problems as payment of the account, return of unsold stock, return and credit of defective copies or merchandise. We prefer that all orders be made out on our forms; however, in an emergency we will take phone orders. If you are unable to come to the store an order can be sent through inter-office mail and we pick up such mail every few hours from the Mail Room. All orders are made the day we receive them. May we also remind you of the ruling that faculty are not to sell texts, etc. in the classroom.

EDITOR'S NOTE: Through an error, Staff Bulletins have been incorrectly identified by Volume Number. Will you please correct your file copies to read: September 4, 1969 - VOL. XIII, Number 1; September 11 - VOL. XIII, Number 2; September 18 - VOL. XIII, Number 3.

OFFICIAL NOTICES

FROM THE PRESIDENT

I. UNITED FUND DRIVE. The kick-off date for the 1969 United Fund Drive at our campus is Monday, October 13, and, as you know, the social needs of our community this year are greater than ever. Here is your opportunity to share in the only officially recognized drive at the College.

For the past five years our College has raised 100% of its quota; in 1968 we topped our record with contributions totaling more than 10% above the goal. This year our quota is \$22,300.

Mr. Thomas J. Peffer from the Office of Student Affairs has consented to serve as Coordinator of the College's United Fund Drive.

May we urge every member of our academic community to generously support this worthy cause?

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. PERSONNEL AND SPONSORED RESEARCH. Effective September 25, Mr. Thomas Davern joined our staff as Personnel Director. In addition to his responsibilities for all professional and non-professional personnel, fringe benefits and labor relations, Mr. Davern will coordinate the sponsored research program. Therefore, effective immediately all grant applications must be sent to Mr. Davern's office, RH 100C, Ext. 5724.

II. EMPLOYEE RELATIONS. It has been called to our attention that a private group is conducting a survey of State employees, off State property, asking questions concerning the recent PERB-conducted elections including a question asking how the employee voted. At the request of Mr. Harvey Randall, Director of Personnel, SUNY Central Personnel Office, the following is called to the attention of all classified service staff members and I quote:

"We have received reports that a private group is canvassing some state employees to determine how they voted in the recent employee representation elections conducted by the Public Employment Relations Board. **YOU ARE UNDER NO OBLIGATION WHATSOEVER TO ANSWER ANY QUESTIONS REGARDING YOUR VOTE IN THOSE ELECTIONS.** This survey is not authorized by any State Agency. In addition, any canvassing of employees on state property for any purpose related to the recent elections is prohibited."

III. ADMINISTRATORS COUNCIL. There will be no meeting of Administrators Council on Tuesday, October 7.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. FACULTY COUNCIL. Agenda for Faculty Council, Monday, October 6, at 3:10 PM in State Room, Moot Hall: (A) Brief report on budget hearing, (B) Distribution of salary adjustment or merit monies, (C) Revision of promotion procedures, (D) Observance of October 15 as Anti-War Day.

II. MASTER PLAN. Faculty members who did not pick up a copy of the Master Plan of 1968 when they were distributed this summer may obtain one from the Office of the Vice-President for Academic Affairs, RH 208.

OFF-CAMPUS HOUSING INFORMATION

The Housing Office, located in Perry Hall 118, maintains listings of apartments and rooms for rent, homes for rent and for sale. Any students, faculty or staff personnel interested in advertising a vacancy or finding housing are welcome to visit the office for further information. Hours: Monday-Friday, 8:30 AM to 4:30 PM.

SPONSORED RESEARCH

The Office of the Coordinator of Sponsored Research has received notice from the Research Foundation that a shortage of funds has eliminated the large awards (over \$3200) from the 1969-70 competition. Faculty who were contemplating the application for such an award (Programs 4, 5, 6 & 7) may wish to submit an application for the smaller program award fellowship from \$100 to \$3200.

A reminder to all faculty--deadline for receipt of applications to the University Awards Committee is October 15. Accordingly, all such applications should be submitted to the Coordinator of Sponsored Research by no later than October 10. Should you have any questions please call Ext. 5724.

WOODROW WILSON FELLOWSHIPS

Senior candidates for Woodrow Wilson Fellowships for September 1970 must be nominated by a professor by October 20. Any professor who has a candidate he wishes to nominate may contact Dr. Marvin LaHood, Ext. 6421, RH 216 for information.

ITEMS OF INTEREST

All departments interested in having a basketball team in the faculty league should send team rosters to Ray Eberle, RH 329, as soon as possible.

Newly elected officers of the Society of Sigma Xi, honorary scientific organization, are: President - Dr. Ralph Yalkovsky, Geosciences; Vice-President - Dr. Samuel Stern, Mathematics; Secretary-Treasurer - Dr. William Field, Psychology. First meeting will be held October 9 at 4:00 PM in NS 272. Open to the public.

During the past Summer Session an effort was made by students and faculty of this campus to make a substantial contribution to the SAVE THE PHILHARMONIC drive. A Philharmonic concert was presented on campus with Professors Kenwyn Boldt, Robert Cantrick, Frank Collura, Olaf Malmin and Anton Wolf participating as guest artists and Professor Joseph Wincenc directing. Our students did a magnificent job regarding arrangements for the program, including advertising, program presentation, refreshments and the like. The effort netted a total donation of \$826. No public announcement was made of this contribution. Now, since there are new inquiries about a College contribution to SAVE THE PHILHARMONIC, it is suggested that those wishing to contribute to this worthy cause do so by adding to the amount already given here on campus. Make checks payable to SAVE THE PHILHARMONIC and send to the Cultural Affairs Office, RH 304. Kindly make your contribution on or before October 16 so that the total check may be presented to the Philharmonic before their opening concert on Sunday the nineteenth. Thank you.

FOUND: Navy blue women's jacket was found in classroom, RH 302. It will be turned over to the owner, upon identification, at the Personnel Office, RH 114.

Faculty and staff who play orchestral instruments are invited to join the College Orchestra. Don't miss this opportunity to have fun and play good music. The orchestra rehearses Wednesdays from 3:00 - 5:00 PM in AB 203. If you are interested please contact Dr. Wincenc, Ext. 6414, or Miss Grant, Ext. 6415.

OFFICIAL NOTICES

FROM THE PRESIDENT

I. FACULTY MEETING. The next regularly scheduled Faculty Meeting will be held Thursday, October 23, at 4:00 PM in Upton Hall Auditorium.

II. OCTOBER 15. Many of us are deeply concerned over the effects of the continuing war in Vietnam on our society at home and abroad. A number of local and national groups have set October 15 as a day on which special attention will be focused on such matters.

University policy, as reaffirmed in Chancellor Gould's memorandum of September 30, 1969, indicates that "all campuses are expected to maintain classes as scheduled... In the absence of specific Trustee authorization to the contrary, each campus is obligated to provide educational instruction for each student enrolled for classes on each class day of the academic calendar." This statement was read and discussed at the Faculty Council meeting of October 6, 1969. In accordance with this policy, classes at Buffalo State University College will meet as scheduled on October 15. Class attendance is a responsibility of the individual teacher and student.

Many approaches are open for constructive and peaceful consideration of issues related to the Vietnam War on October 15. College meeting rooms and other locations not otherwise assigned are available, subject to the usual arrangements requiring advance reservations of space, for meetings and discussions concerned with issues of the day. These arrangements should permit the full expression of individual conscience.

II. INTER-DIVISIONAL TRANSFER REQUESTS. A request for inter-divisional transfer will not be considered until a student has completed at least one semester at this college and the grades for the semester have been recorded. FROM C.S.A. PRESIDENT

The College Student Association is now holding elections to fill a number of C.S.A. positions as well as voting on two referendums. Would you please remind students in your classes of this student election. It is being held in the lobby of the Student Union near the Information Desk and will be open daily from 9:00 AM to 5:00 PM through Wednesday, October 23.

INTERNATIONAL EDUCATION

The second college study abroad program in India is scheduled to begin June 1970. It will take approximately 15 students to study at the University of Mysore where the educational facilities and general environment seem to be ideal for such a program. Interviews are now being held with our college faculty members who wish to be considered for the position of faculty director to accompany the student group between June 1970 and May 1971. Interested faculty members should contact, immediately, Mr. Mehdi Kizilbash, Director of International Education, RH 100 D & E, Ext. 5331.

The Office of Education of the U.S. Department of Health, Education and Welfare has sent brochures which list teaching and seminar opportunities abroad. These are available for perusal in the International Education Office, RH 100E, Ext. 5331. The application deadlines are imminent, so please act soon.

BUTLER LIBRARY EXHIBIT CASES

During the late summer it became obvious that Butler Library would be completed and that the departments would be occupying permanent locations. Because of this we sealed off our temporary side entrance and commenced using our main entrance which, as you know, is on the west side. The design of the building included two large free-standing cases for exhibits and one large wall-mounted board with glass front. Believing these should be put into use with all possible speed, the college librarians were forced to book exhibits without benefit of circulating notice of their availability. This was especially the case since many departments had by that time closed for the interim session.

Some of you will have already noticed the exhibits in these cases. Once the current bookings have been exhausted other departments might be prepared to present some display. An exhibit should emphasize a theme of current interest, the work of a particular department, e.g. Design, or indeed, as is the case now, displays of cultural or art objects from foreign countries, especially where such displays reflect the culture of the country which is the source of many of our own Buffalo people.

Any group, department or society wishing to make a display should contact E. A. Brunelle, Head of Readers Services. The only stipulation is that all displays or exhibits have an air of professionalism much after the fashion of commercial or museum requirements.

FACULTY-STUDENT ASSOCIATION

The members of the Faculty-Student Association elected the following persons to the Board of Directors: Students - Chana Kagan, Carolyn Lamm, Robert Rothschild; Faculty - Monica Brinson, George Laug, Chester Palmer.

The Board of Directors of the F.S.A. elected the following to be officers of the Association: President - E. K. Fretwell Jr.; Vice-President - Sigmund A. Smith; Secretary - Carolyn Lamm; Treasurer - Steven Gittler.

The following were elected to F.S.A., October 15: Bookstore Committee - R. Rothschild, Chairman; G. Laug; D. Schading. Budget and Finance Committee - W. Bird, Chairman; R. Hart; C. Palmer. F.S.A. Services Committee - R. Kurland, Chairman; C. Iannaccone; B. Rudney. Food Services Committee - C. Lamm, Chairman; M. Brinson; C. Kagan; Pres., Freshman Class. (Article X, Section 4, page 13)

And whereas, programs have been initiated, developed, or implemented on this campus without significant participation of this faculty.

Therefore, be it resolved, that the Executive Board of Local #1733 of the American Federation of Teachers urges the faculty of this college to declare that it has no responsibility to support or to participate in such programs."

The office will be linked continuously to the campus security forces. In the absence of the Vice-President for Administration, the Associate Vice-President for Administration will be designated as responsible during the emergency.

2. In case of a civil emergency (demonstrations, parades, etc.), call Security, ext. 6332 and the Vice-President for Administration's office, Ext. 4701.

3. In case of fire, all you have to do is pull the fire alarm box nearest you. Note: when the building fire alarm box is pulled, our Security will respond immediately -- do not call the Buffalo Fire Department; Albright Hall should call Security, ext. 6332.

4. Campus Security telephone 6332. Call this number in any emergency situation. Buffalo Police. Except under the most extreme circumstances, our standing orders from the University are to call the Campus Security Office at 6332. This office is always covered and will make the final determination as to the use of the Buffalo Police.

5. Each department should have its own internal plan for security of its areas and personnel.

6. Every effort will be made to divert demonstrations and crowds of people from areas of the complex in which there are known dangers.

7. All external doors and fire doors in the corridors should remain unlocked unless specific orders are made to the contrary.

8. All rooms and department areas in which experiments are conducted involving animals, radioisotopes, and dangerous chemicals and biologics, should be kept closed at all times, even normally, and it is strongly urged that departments, especially those on the first floor or near elevators, lock the doors of all such areas under normal circumstances.

(continued)

I. EMERGENCY PROCEDURES (continued)

9. Cold rooms and environmental chambers which open on corridors and which must not be locked under any circumstances must carry warning labels permanently affixed to the doors.

10. During demonstrations, staff and students are urged to remain at their normal work posts with doors closed. The staff are specifically discouraged from standing in the hallways, primarily because this contributes significantly to the confusion and increases the chance of difficulty and injury.

11. The visible presence of faculty at or near their offices and laboratories is encouraged.

12. Isolated episodes, emergencies, single-person incidents, guerilla actions, etc. can be minimized by more careful control over access to offices, laboratories, storerooms and other areas in the building as well as by reporting the presence of strangers or observing the actions of strangers who seem suspicious. In any such situations, the wisest course of action is to notify the Campus Security Force (ext. 6332) without delay.

The Vice-President for Administration is working with a small staff in preparing an overall disaster plan.

II. CLOSING COLLEGE IN EVENT OF EMERGENCY CONDITIONS OR INCLEMENT WEATHER. The following is a change in policy effective immediately.

All appointments must be made by 5:00 PM, Jan. 14.

I. FINANCIAL CONDITION. At the December 9, 1969 meeting of the F.S.A. Board of Directors, the Executive Director reported that the financial condition of the Corporation is near bankruptcy. Should bankruptcy occur, Buffalo State would lose control of food service, the bookstore and other F.S.A. services. The control of the price of food would be determined through competitive bidding by off-campus vendors. To avoid these consequences and to prevent bankruptcy, the Board of Directors will consider certain actions at its next meeting on WEDNESDAY, DECEMBER 17, 1969 in Moot Hall at 7:30 PM. Among the recommendations the Board will consider are the following:

FOOD SERVICE

1. An increase in the meal contract for resident students from \$255 to \$275 in the spring semester.
2. Other factors such as: Shorter hours in Moot Hall, closing the State Room for faculty luncheons, and consolidating residence hall food service to the dining rooms in Scajaquada and Moot Hall.

COLLEGE STORE

Eliminating the five per cent discount on Textbooks.

INTERNATIONAL STUDENT CHRISTMAS FUND

In accordance with the custom of previous years, faculty and staff members who wish to do so are cordially invited to make a contribution to the International Student Christmas Fund instead of sending personal greeting cards to colleagues. In past years support of this fund has been generous. We now have 60 international students on campus and more than ever funds are needed to help make their stay with us as profitable and enjoyable as possible. Your contribution will be welcomed and may be left at, or sent to, the International Education Office, RH 100E. A supplement to the Staff Bulletin will contain the names of those who prefer to send their greetings in this way.

Number 16

December 17, 1969

OFFICIAL NOTICES

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. FACULTY COUNCIL. Faculty Council, at its meeting of December 15, 1969, took the following action: (1) Approval of the Proposed Revision of the B.A. in Geography. (2) Recommendation that the following policy be adopted: All undergraduate students in the College are required to have achieved a cumulative grade point average of 2.0 in their major field to be recommended for graduation. Departments may not establish a minimum requirement higher than 2.0. (3) Approval of a recommendation from the Graduate Committee to amend the Criteria for Graduate Faculty by adding the statement "The minimum experience requirement would be three years of college experience." This minimum experience requirement (three years of course experience) may be waived if the faculty member holds an earned doctorate in his field. (4) Endorsement of the resolution from Brockport Senate regarding increases in salaries for academic personnel.

II. FINAL GRADES. All final grades should be turned in by each faculty member to his Department Chairman within 48 hours of the final examination. Each Department Chairman should turn grades in to the Registrar daily. The process of recording and reporting grades can be expedited and final grades mailed to the students promptly if this procedure is followed.

III. POSTING FINAL GRADES. Faculty members should post their final grades in each course. Students in each course should be informed of where and when grades will be posted. This is important since students on probation must have knowledge of their grades for probation appeal purposes.

So that more staff members may become acquainted with the Printing/Duplicating Services of the College, this material is being distributed with the Staff Bulletin by the Office of Publications. We hope that it will be read and retained by each office. Supplements will be issued as necessary.

The September 11, 1969 Staff Bulletin stated that the Director of Publications has the responsibility of reviewing all on-campus and off-campus printing requests which involve State funds. The determination as to whether a job will be done on or off campus will be made by the Director.

This was done in order to ascertain adherence to New York State purchasing laws with minimum effort and expense and to insure that all printed work meets certain College printing standards. Since many people have never visited the campus, the College is often judged by the publication they hold in their hands.

The Office of Publications can advise and be responsible for the following elements of a publication: (1) Editorial - which would include organization of material, style and level of writing. (2) Design - which includes determination of the most desirable format from the standpoint of effective communication, photography and art work. (3) Production - determination of whether it will be printed on or off campus, writing of specifications and availability of area State contracts.

ON-CAMPUS PRINTING/DUPLICATING SERVICEDuplicating

For the convenience of faculty and staff, there are two centers (Rockwell Hall 123A and Perry Hall 108) which contain Xerox 2400 machines for short-run duplicating needs under 25 copies. Both machines are currently controlled and before copies are made a slip requesting the number of pages and number of copies, with a signature, must be completed by each person submitting work so that the proper departmental budget is charged.

Quick Copy

In Rockwell Hall 123A there is also another copy process for 26-250 copies of camera-ready material, i.e., nothing which needs reducing or photos, on offset paper, 8 $\frac{1}{2}$ " x 11" or 11" x 17". This is processed on a first-come, first-served basis and up to one week is necessary for delivery of printing jobs totaling 1,000 printed impressions or less. This work may be submitted directly to the operator at the window after a proper form has been completed similar to the Xerox form.

Note on Copyrighted Materials

The College generally operates under the "fair use" doctrine. It is this doctrine that justifies a limited amount of copying for school use under the present law. The duplicating center is not authorized to duplicate large portions or entire works which would be construed as avoidance of purchase, which is definitely against the law. We begin to infringe on the law when numerous copies of a work or large portions of the work are duplicated for distribution to students when the material may be purchased or found in the library.

Offset Printing

Brochures, flyers, booklets or other printing that necessitate type composition, art work, editing, photograph reproduction and special stock will require more time to process whether they are printed on or off campus.

For the convenience of area State agencies there are a number of contracts with local vendors which eliminate the necessity of sending out bid specifications. Orders may be placed directly with the printer provided it meets the specifications of the State Contract.

Items which do not fit area contracts and would exceed \$300 will require eight to ten weeks from the time a publication is requested to delivery. It is obvious why it is to the advantage of staff members to consult with the Publications Office before the planning of the final format.

Limited, one-color work may be varityped and run in the Duplicating Center in Rockwell Hall. These orders must be processed through the Publications Office. Since the College's printing facilities are never without a backlog of work, your restraint in making inquiries at the print shop window and exerting pressure will be appreciated in that it permits an uninterrupted attempt for completion of the jobs on hand. Special offset work will take at least one month to complete.

PROCEDURAL GUIDELINES

When using internal duplicating/printing facilities, your attention is drawn to the following:

- (1) Ascertain if your re-charge duplicating budget has the necessary funds before beginning to process a job.
- (2) If your job necessitates paper other than the standard offset paper stocked on campus or photo-negative work, folding or cutting, please see that your general office account has funds to cover the costs.
- (3) All copy must be typed, double spaced, on 8 $\frac{1}{2}$ " x 11" paper.
- (4) That the quantity you order will cover one year's needs.

Staff members should remember that it is imperative that a signed purchase requisition be submitted to Purchasing, RH 112, for any printing done by an outside vendor. The Publications Office cannot direct a vendor to undertake work unless a purchase order has been issued. Funds must be available before expenditure is authorized.

OFFICE SUPPLY PRINTING NEEDS

College stationery, envelopes, memo pads, referral slips and telephone pads have been standardized and are listed in the new Stationery Catalog and are available from Central Stores on a re-charge basis. At the present time a moratorium is in effect concerning the personalization of such items.

HUMAN OPPORTUNITIES OFFICE

A. Need. As the number of people who make up the College Community becomes larger and more diverse and as the College seeks to become of service to more people and to work effectively in various ways with off-campus people and groups, it is essential that more effective communications and human relationships be encouraged. The existing educational structure has this as one of its major functions. The need is apparent, however, for a special office whose sole function is to positively encourage human opportunities.

B. Typical daily functions of the office.

1. To expedite:

- referrals through existing offices when any individual from the college, especially a student, seeks its services in order to solve a problem.
- solutions to problems which are of an immediate nature.
- communications aimed at greater student awareness of services available at the college.

2. To serve as a clearing house to provide accurate information and answers to questions in regard to matters involving human relations.

3. To find ways wherever possible of correcting or alleviating problems which may have produced complaints.

4. To serve as a campus office to which off-campus organizations or individuals can communicate directly if they have suggestions for improvement of human relations matters related to the College.

5. To meet with, and to assist upon request, such organized campus groups as Faculty Council, Administrators Council, Student Personnel Council, President's Advisory Group, College Student Association, and Black Liberation Board, as well as others.

6. To serve generally as an innovator and change agent regarding human opportunities at this College.

(Note: While the Human Opportunities Office will be encouraged to share its observations with other parts of the College, its role is not to duplicate such existing agencies as the Faculty Grievance Committee.)

C. Director.

1. The office will be headed by a director appointed by the President and responsible directly to him.

2. This individual should be skilled in human relations, aware of the complexities of the College, sympathetic to the needs of the students, and effective at communicating with students, faculty, staff, community, and the College administration.

3. He shall serve as chairman of the Task Force described below.

D. Presidential Task Force on Human Opportunities.

1. The Task Force will be directly responsible to the President for identifying, analyzing and making concrete recommendations to insure that each college constituent is afforded opportunity to "...become all he is capable of being."
2. The Task Force's charge will include making suggestions regarding such matters as:
 - a. broadening the recruitment and hiring practices for college staff and faculty
 - b. admission procedures
 - c. evaluating college communication procedures
 - d. other similar matters dealing with human opportunities
3. The President in consultation with the Director will appoint members drawn from the faculty, student body, administration and the urban community. (See E-3 and E-4, below.)
4. The Task Force will establish working committees as needed to deal with student concerns in problem areas such as recruitment of faculty and staff, and admissions.
5. The Task Force will be action oriented to expedite situations that will insure full opportunities for all.
6. By the end of the Spring term 1970 it will present findings as to the state of human opportunity on the campus, cite whatever strengths are found, and identify problem areas and their solutions. These findings will be widely circulated.

E. Implementation procedures.

1. The office will open for business in early January 1970.
2. Members of the College--students, faculty, staff--are invited to submit names of candidates for service on the Task Force. (In each case the particular capabilities of those recommended should be indicated.)
3. As announced in the Staff Bulletin for January 7, 1970, possible names were to be submitted to the Office of the President by January 15, 1970. A number of names have already been received. We will be glad to consider others. (From time to time the Task Force may ask persons with special skills or qualifications to meet with it for advisory purposes.)

President

MESSAGE FROM C.S.E.A. PRESIDENT

The following announcement was received from Theodore C. Wenzl, President, Civil Service Employees Association, and is presented for your information:

"TO: STATE UNIVERSITY CHAPTER AND UNIT PRESIDENTS. SUBJECT: PROFESSIONAL STAFF (TEACHING AND NON-TEACHING)

As you may know, the Public Employment Relations Board is still in the process of determining the Collective Bargaining Representative for Professional Staff of the State University. This determination is complicated by the fact that the American Federation of Teachers has taken the initial PERB decision regarding bargaining agents to court.

The lawsuit will hold up negotiations for this group of employees with the State well beyond April 1st, when the budget must have final approval. This means that these people (many of whom are CSEA members) are disenfranchised from negotiating for their salaries and working conditions for the coming fiscal year.

With this in mind, I would ask you to contact several members of professional staff (both teaching and non-teaching) to get input as to what they feel they need in the way of salaries and working conditions for the coming year. We invite these people to write us or call us at our Albany Headquarters to let us know what they think.

At the moment, we have some isolated demands that we have no way of knowing whether or not they represent the majority of opinion for this group of employees. When we get enough information and can put the information together to determine majority opinion, our staff will be able to formulate legislation in an attempt to get relief for this year or until the collective bargaining elections are held and bargaining agents elected."

As another firm now has our old number, there is much confusion. Therefore, if you have a supply of this stationery, please refrain from using it.

INCOMPLETES: The date before which an "incomplete" may be converted to a letter grade is April 1, 1970 for "incomplete" given at the end of the fall semester.

FROM THE VICE-PRESIDENT FOR STUDENT AFFAIRS

I. STUDENT PERSONNEL COUNCIL. The next meeting of Student Personnel Council will be held Wednesday, February 25 at 4:00 PM in Moot Hall, Room A.

ELMWOOD SOCIETY TO MEET

Goldberg, Associate Director of Instructional Resources, will discuss "The High Price We Pay for Keeping Women Down" at the next dinner meeting of the Elmwood Society to be held Tuesday, February 24 at 6:00 PM in the faculty dining area, second floor of Moot Hall. Everyone is welcome. The price is \$4.00 per person and may be paid in advance to Dr. Marvin J. LaHood, RH 216, 6421.

TIAA - CREF

The Executive Committee of the State University Faculty Senate urges persons who have interests in TIAA - CREF to give attention to an editorial entitled "Threatened Faculty Pensions" in Science, February 6, 1970. The editorial indicates that recent judicial decision jeopardizes the advantageous position of TIAA - CREF. Interested persons may obtain additional information including instructions for suggested actions from John Urban, Faculty Senate Executive Committee, NS 268, 4609.

TAXES AND EDUCATION

The NEA booklet, Taxes and Education, has been placed in reserve in Butler Library. The new IRS regulations, revised through the efforts of the National Education Association over a ten-year period, clarifies deductions for teachers' education expenses.

SPECIAL REPORT CONCERNING PRINTING/DUPLICATING SERVICES

For the convenience of Faculty and Staff members who did not read the addendum to the January 7 Staff Bulletin entitled "Printing/Duplicating Services," we would like to repeat some pertinent points. (1) The Duplicating Center in RH 123A contains Xerox facilities and also accepts camera-ready material, 8 1/2" x 11" or 11" x 17" for up to 250 copies. This is a quick copy service and may be submitted directly to the operator at the window. (2) Other items which need vari-typing or which are camera-ready but necessitate over 250 copies must be processed through the Vari-type Office, RH 122D. Miss Julie Herbeck will discuss the jobs and the necessary forms which have to be completed. Special brochures and other offset work completed on campus should be planned and started at least one month before the necessary due date. (3) In order to ascertain adherence to New York State purchasing laws, faculty and staff are requested to have off-campus printing involving State funds reviewed by the Office of Publications, RH 222.

ANNOUNCEMENT FROM THE STATE UNIVERSITY FEDERATION OF TEACHERS LOCAL 1733 (S.U.C.B.)

The Supreme Court (N.Y.) hearing on the S.U.F.T.-obtained injunction has yet to begin. However, the issues are clear: (1) Should the SUNY Faculty Senate (created by, subject to and financed by the SUNY Board of Trustees) be accepted as a legitimate, independent employees' organization for the purposes of collective bargaining? S.U.F.T. SAYS NO! (2) Should local campus autonomy be completely overlooked in favor of negotiating everything at the Central Office level? S.U.F.T. SAYS NO! (3) Should Assistant and Associate Deans in administrative positions be considered as part of the bargaining unit? The S.U.F.T. position is that no administrator above the level of department chairman should be included in the bargaining unit.

Mr. Wenzl asks what we would like in salary increases. NOT what he got for the C.S.E.A. employees he represents. In his latest deal with the Governor Mr. Wenzl settled for a two-year contract averaging about 7% per year increase. Since the cost of living increase in the Buffalo area was 6.9% for 1969 this leaves the C.S.E.A. employee walking a treadmill. Compare this with the contract negotiated by the N.Y.S. A.F.T. College Council with the Westchester Community College which provides for salary increases averaging about 25% over a period of 16 months.

We note with interest that Mr. Wenzl's announcement does not mention the Faculty Senate. Has the marriage (more properly "merger of financial interests") been annulled? Negotiations between Faculty Senate and C.S.E.A. have been in progress for approximately one year. Isn't it time that C.S.E.A. and our Faculty Senators informed the faculty the state of their negotiations?

Samuel J. Wakshull
President, Local #1733, S.U.C.B.

STATEMENT BY DR. CARLTON E. BAUER, VICE-PRESIDENT FOR ACADEMIC AFFAIRS STATE UNIVERSITY COLLEGE AT BUFFALO

The SEEK Program at this College was singled out for special newspaper coverage growing out of the report of The Temporary State Commission to Study the Causes of Campus Unrest, released to the papers yesterday.

We have not seen the full report, but the material in the newspapers calls for comment. We are proud of the progress of our students who entered this College because of the SEEK Program. It is a good program with good people in it. It has brought to this campus a new dimension of contemporary life which is requiring faculty and students alike to face the realities of this decade. It would be wholly unreasonable to assume that this or any other campus can or should remain aloof from the pressures of social change. Our students and faculty quite naturally feel the tensions that grow from such change and they are attempting to respond to them in effective and meaningful ways.

Perhaps in no other time during the 100-year history of this College has there been such an opportunity to make a significant contribution to the future of life in the City of Buffalo. The generation of SEEK students going through this College at this time is the first generation of students from the inner city who have begun a highly valuable educational opportunity which was denied their predecessors. They and those who work with them are pioneers and share both the risks and the rewards of this first-time venture. It would be tragic to see it curtailed even before its first fruits have come to harvest.

SEEK is an educationally sound program for disadvantaged students. It is not based on color. 16% of the students are not black. Approximately 10% of our undergraduate student body is made up of students who were brought into the College under SEEK which was created by the state legislature in 1967. More than 300 of these students have become fully matriculated and are regular members of the student body and are fully involved in all aspects of College life. Five of our students who transferred to community colleges will receive their Associate degrees this June. At the end of this academic year there will be 141 advanced freshmen, 110 sophomores, 46 juniors and 4 seniors enrolled in the program.

As a result of SEEK, significant educational changes have been brought to the College. SEEK's reading teachers work with the faculty of the College's Professional Studies Division and have developed a unique tutorial program which enables SEEK students with reading problems to tutor inner-city children with similar reading difficulties. This provides an individual tutorial remedial program for these inner-city children while at the same time improving the reading skills and techniques of the SEEK tutors. Since it began, nearly 125 SEEK students and 130 inner-city children have been involved in this endeavor.

In the areas of the natural and social sciences the SEEK faculty have developed curricular patterns and teaching techniques which have relevance and have generated enthusiasm in today's youth while still meeting the academic rigors of professional standards.

The Gospel Chorus which was developed through the SEEK Program has for the past two years added considerable prestige to this College. SEEK students are involved in the Freshman basketball team, varsity crew, varsity wrestling, varsity soccer, college orchestra, Glee Club, A Cappella Choir and the Black Arts Festival. Additional examples of our students' involvement include: past vice-president of Freshman Class, president of the Ski Club, resident assistants in the Residence Halls, membership on the College newspaper staff, the drama club, and various other clubs and student governing bodies.

SPECIAL ISSUE

FROM THE PRESIDENT

During the past few days Campus Security and other members of the College staff have been advised that a few students have been roughed up, and in some cases struck, by other individuals also identified as students. Further, it has been reported that verbal intimidation and threats have been made to students by other students.

These incidents have involved only a relatively small percentage of the thousands of students enrolled on this campus, but they are a cause of serious concern to the College. Where anyone may be intimidated by the threat of physical force or by actual assault, the proper business of a college as an educational and intellectual institution is in jeopardy.

Rules adopted by the Trustees of the State University of New York (as distributed on campus last fall included within the booklet Rights, Freedoms and Responsibilities of Students) specifically state that no person shall "willfully cause physical injury to any other person, nor threaten to do so for the purpose of compelling or inducing such other person to refrain from any act which he has a lawful right to do."

Further the Rules state that no one shall "physically restrain or detain any other person..."

The justice system of the College is intended to protect the rights of all and appropriate procedures to enforce the Trustees' policies are being undertaken.

The great majority of students on the Buffalo State campus are desirous of continuing their regular work and activities without harrassment. Any individual who believes that his civil rights are being violated may request that a warrant be issued by the civil authorities for the arrest of alleged violators. Individuals who believe that their rights are being infringed by illegal acts should file reports with the Security Office in Chase Hall, Ext. 6332 or 6921.

The individuals affected in the incidents reported above have requested arrest warrants and these have been issued by the Warrant Clerk of Buffalo City Court.

E. K. Fretwell Jr.

OFFICIAL NOTICES

FROM THE PRESIDENT

I. INTEGRATED WORK FORCE FOR SUNY CONSTRUCTION. Chancellor Gould has advised Governor Rockefeller of the resolutions of the Faculty of this College favoring an integrated work force on SUNY construction projects. In his March 11, 1970 letter to the Governor, the Chancellor reminded the Governor of the March 6, 1969 action of our Faculty and also transmitted the recent resolution adopted at our February 12, 1970 Faculty Meeting.

The Presidential Task Force on Human Opportunities (see College Bulletin of March 5, 1970) held its first meeting on March 13, 1970 and made the following recommendation:

"PRESIDENTIAL TASK FORCE ON HUMAN OPPORTUNITIES declares itself in support of the Minority Coalition's demands concerning the role of minority workers in the construction of the new Amherst Campus and other branches of SUNY;

"IT FURTHER urges Governor Rockefeller either to accept the Coalition's position on hiring or to re-impose the moratorium on construction unjustly lifted last February 13;

"THE TASK FORCE RECOMMENDS that President Fretwell urge the College community to support the position of the Minority Coalition concerning ALL construction in Western New York."

I have advised Chancellor Gould that until such time as a more satisfactory plan for minority hiring and training is agreed to by all parties concerned, no new construction should be started on our campus on Elmwood Avenue. Each member of the College is urged to study the issues involved in the Task Force recommendations. Although outcomes are not yet announced, conversations including the Governor, the Minority Coalition, and others are currently underway.

II. STAFFING RESOLUTION. A second resolution of the Task Force on Human Opportunities concerns minority group hiring for professional, Civil Service, and other categories of employment on this campus:

"RESOLUTION: That special effort be made by each department head to encourage the hiring of staff from the minority/non-white population. Also all department heads and heads of administrative units are to send a report to President Fretwell by the end of this semester which would include available positions, efforts made to hire minority individuals, as well as the progress made."

I have advised vice-presidents, deans, and other administrative officers that they should share this resolution with their respective faculties and/or staffs. Reports from each unit should be transmitted through the usual channels and be in the President's office by May 15, 1970.

COLLEGE BULLETIN

Volume XIII Number 30

April 6, 1970

OFFICIAL NOTICES

FROM THE PRESIDENT

I. CHARLES P. LA MORTE, HOWARD B. MACADAM TAKE ON NEW CAMPUS RESPONSIBILITIES

A new master's degree program in Student Personnel Administration was approved by the Faculty Council on May 19, 1969 and transmitted some months ago to Albany for final approval. Visiting consultants, who will report their findings shortly to the SUNY Central Office, have indicated the need for early appointment of a qualified full-time staff member to develop the program.

Dr. Charles P. La Morte has indicated his desire to head up the new program. As a result, following discussion with various college personnel, including Dean Robert Simpson of the Faculty of Professional Studies in which the program will be based, I have assigned Dr. La Morte to a full-time professorship for the stated purpose, effective April 9, 1970.

Professor Howard B. MacAdam will serve as Vice-President for Student Affairs on an interim basis beginning April 9. He will continue to serve also as Director of Intercollegiate Athletics. Mr. MacAdam came to the College in 1961 from Grosse Pointe High. He has just completed his ninth season as varsity basketball coach and currently holds the rank of Associate Professor of Health, Physical Education and Recreation.

A search committee consisting of students, faculty and staff will be appointed shortly by me to develop a job description and screen candidates for the position of Vice-President for Student Affairs. A nationwide search is contemplated.

I take this opportunity to thank Dr. La Morte for his long service as Vice-President and to extend good wishes on his important new work, and to congratulate Professor MacAdam as he takes up his new and challenging assignment.

II. DISCIPLINARY PROCEDURES. All members of the College Community are reminded that the Rules and Regulations Governing Student Conduct are in full force and effect. These are based on the By-Laws of the College which require the Student Conduct Committee to review disciplinary cases of students and to recommend appropriate actions, as described on page 7 of the Rights, Freedoms and Responsibilities of Students.

STUDENT CONDUCT COMMITTEE: Students - Douglas Schading (70), Ruth Saletsky (71), Richard Pictor (72), Charles Henry (73), Carolyn Lamm (70). Staff - Jack Brueckman (Chairman), Fred Hartrick, Lebanon Arrington, Ted Youn, (one to be appointed).

Any violation of the established rules and regulations other than academic rules, may be referred to this body by any individual student, faculty, or administrative member of the Community.

The regulations are intended to reflect the basic concepts of procedural fairness and make certain that no student shall be subjected to any disciplinary action for any offense, without being given a judicial hearing by an impartial body consisting of faculty, students and administrators.

The College recognizes that students have, within the law, the right of free expression and advocacy and that the institution seeks to encourage and preserve freedom of expression and inquiry within the Community. The College also recognizes the obligation of each student to conduct himself lawfully and responsibly.

I. IMPROVEMENT OF COMMUNICATION. The Commission on Student Rights, Freedoms and Responsibilities, chaired by Professor Julius Hubler, has made the following recommendations which have been endorsed by the Faculty Council and approved by the President. I have transmitted as of March 27, 1970 the following to the deans for their action: Recommendation. Whereas communication seems to be a problem in the college community, it is recommended that: (1) Each Division or Faculty of the college establish a procedure for the calling of meetings of the entire body (administration, faculty, students) of that unit; (2) Establish meetings of the body (administration, faculty, students) for at least a minimum of twice a semester; (3) Each Department or Division encourage the development of an organized student body which should be used to provide student participants in Departmental and Divisional meetings; and to serve on committees with the faculty; as well as to afford opportunity for student participation in any matters of mutual concern. The purposes of such meetings to be the exploration and exchange of views and information (routine, elections, registration, advisement, curriculum, etc.).

Please see to it that your Department Chairmen, Division Directors and others who may be concerned are made aware of these recommendations. I would like to be informed of any actions taken in support of the spirit and purpose of the recommendations.

II. FACULTY COUNCIL. Agenda for Faculty Council, Monday, April 6 at 3:10 PM in the Burchfield Center: (1) Senator's Report, (2) Instruction, Research and Library Committee, (3) Reconsideration of Minimum Grade Requirements, (4) Question concerning Grading and Withdrawal Policy, (5) Curriculum Committee.

III. MOVING-UP-DAY. On Moving-Up-Day, May 8, classes will be cancelled beginning at 12 Noon.

IV. CHANGE OF TITLE. The Police Science Program at the College has been redesignated the Criminal Justice Program.

V. ACADEMIC FREEDOM. It has been suggested by the Committee on Academic Freedom and Professional Welfare of Faculty Council that the interest of the College would be well served if policies concerning Academic Freedom were better known. We are, therefore, publishing statements dealing with this question from the "Policies of the Board of Trustees" of the State University of New York, the American Association of University Professors, and "Rights, Freedoms and Responsibilities of Students."

From the "Policies of the Board of Trustees": Title H. Academic Freedom. It is the policy of the University to maintain and encourage full freedom, within the law, of inquiry, teaching and research. In the exercise of this freedom the faculty member may, without limitation, discuss his own subject in the classroom; he may not, however, claim as his right the privilege of discussing in his classroom controversial matter which has no relation to his subject. In his role as citizen, the faculty member has the same freedoms as other citizens. However, in his extramural utterances he has an obligation to indicate that he is not an institutional spokesman.

From the American Association of University Professors: Academic Freedom. (a) The teacher is entitled to full freedom in research and in the publication of the results, subject to the adequate performance of his other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution. (b) The teacher is entitled to freedom in the classroom in discussing his subject, but he should be careful not to introduce into his teaching controversial matter which has no relation to his subject. Limitations of academic freedom because of religious or other aims of the institution should be clearly stated in writing at the time of the appointment. (c) The college or university teacher is a citizen, a member of a learned profession, and an officer of an educational institution. When he speaks or writes as a citizen, he should be free from institutional censorship or discipline, but his special position in the community imposes special obligations. As a man of learning and an educational officer, he should remember that the public may judge his profession and his institution by his utterances. Hence he should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should make every effort to indicate that he is not an institutional spokesman.

From "Rights, Freedoms and Responsibilities of Students": Preamble. Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth. Institutional procedures for achieving these purposes may vary from campus to campus, but the minimal standards of academic freedom of students outlined below are essential to any community of scholars. (continued)

"Rights, Freedoms and Responsibilities of Students" (continued)

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility.

The responsibility to secure and to respect general conditions conducive to the freedom to learn is shared by all members of the academic community. Each college and university has a duty to develop policies and procedures which provide and safeguard this freedom. Such policies and procedures should be developed at each institution within the framework of general standards and with the broadest possible participation of the members of the academic community. The purpose of this statement is to enumerate the essential provisions for student freedom to learn.

RETIREMENT BOARD ACHIEVES IMPROVED RETIREMENT PLAN

Governor Rockefeller signed into law a measure proposed by the Retirement Board which achieves marked improvements in all of the System's major retirement benefits for teachers, and reduces current employer contribution rates by approximately one percentage point. The plan establishes a career-oriented program resulting in substantial increases in allowances for service, disability and vesting retirements, as well as improved death benefits, more annual interest credited to members' contributions and an increase in the amount of annuity benefits payable during retirement. The plan also improves retirement eligibility requirements for service and disability.

OFFICIAL NOTICES

FROM THE PRESIDENT

I. NEW RULES OF THE TRUSTEES. Amendments by State University Trustees of Rules and Regulations for Maintenance of Public Order on Premises of State-Operated Institutions of the State University of New York, dated April 10, 1970, have been received by the College. Their effect is to make the Trustees' rules on public order uniformly applicable to all state-operated campuses. In addition, new provisions are provided for a procedure to make charges of violations in the case of students and to hear and determine such charges. The new rules require the establishment of a Hearing Committee composed of three administrative officers and an alternate, and three faculty members and an alternate, appointed by the President. In addition, the six regular administrative and faculty members will designate three students and an alternate. The committee will be constituted immediately and be a standing committee to hear all charges hereafter submitted to it. Committee members will be announced in the next College Bulletin.

Copies of the complete amendments are available in the President's Office.

II. AD HOC FACT FINDING COMMITTEE. In the College Bulletin of April 6, 1970, announcement was made of the Ad Hoc Fact Finding Committee whose role was to: (1) gather facts related to recent incidents on campus, (2) hold hearings and in other appropriate ways gather information regarding the events, (3) prepare a report to the President not later than April 12, which will be made public.

This committee has now completed its report. I wish to thank the chairman, John Bruno and the members for their dedication and hard work. They heard testimony from a broad section of the campus community. Hearings were held at which any interested person could appear.

As indicated when the Fact Finding Committee was announced, their report will be made public.

Attached are the recommendations of the committee contained in part III of the report. Interested members of the campus community can obtain copies of the full report from the Public Information Office, RH 222, ext. 4201.

III. FACULTY MEETING. The last Faculty Meeting of the academic year will be held on Thursday, May 7. Included in the agenda will be the annual elections. Nominations will be distributed as an addendum to this week's College Bulletin.

IV. SUNY POLICIES OF THE BOARD OF TRUSTEES 1970. Distribution of copies of the 1970 Policies of the Board of Trustees has been made on the campus. A limited number are still available in the President's Office.

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. USE OF COLLEGE VEHICLES. This College presently has available 7 sedans and 5 station wagons for use by faculty and staff when on official college business. These vehicles are in heavy demand and most are in constant use by various departments. When you submit your travel estimate be sure to include a college car request because it is no longer possible to make reservations by telephone. We can tell you if a car is available at the time your trip is planned if you call ext. 6231, but we cannot guarantee the use of a car without a written car request submitted and signed by the appropriate department chairman. All car requests and travel estimates should go to Mrs. Pat Stahl, RH 112. Permission to use your personal vehicle and receive mileage reimbursement will not be granted when a college car is available.

II. MOTORCYCLE PARKING. All motorcycles must be parked in the area marked and provided in back of the Old Gym. Violators will be subject to a fine. Secondly, all operators of motorcycles must obtain parking permits from the Security Office. There will be no exceptions to this policy.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. FINAL GRADES. All final grades should be turned in by each faculty member to his department chairman within 48 hours of the final examination. Each department chairman should turn grades in to the Registrar daily. The process of recording and reporting grades can be expedited and final grades mailed to the students promptly if this procedure is followed.

II. POSTING FINAL GRADES. Faculty members should post their final grades in each course. Students in each course should be informed where and when grades will be posted. This is important.

PART III

RECOMMENDATIONS

1. The College must make a clear pronouncement concerning the types of offenses that should be referred to civil authorities. This policy statement should be applied without partiality to all students, faculty, and staff in the College community. All acts of violence and harassment on campus cannot be condoned, they should be investigated and reports sent to the proper authorities.
2. There should be no double standards on campus. All members of the College community are entitled to equal justice.
3. Since the walls between College and community are coming down in academic matters, they are just as emphatically coming down in police and legal matters. This development will make readily available rapid legal advice a necessity. The whole situation of warrants, summonses, and counter summonses, plus other matters gives support to the idea that the College should have full-time legal service, not merely someone in a downtown office on retainer.
4. Efforts to publicize activities of the Student Conduct Committee should be increased and its functions more

clearly defined. Specifically the College should review the concept and procedures of the Student Conduct Committee. The following points should be considered:

- a. How charges can be brought into the Committee
 - b. Adequate representation of College community
 - c. Restriction of the Conduct Committee to judiciary rather than counselling
 - d. Separate channels for counselling and guidance should be opened in a different avenue
5. The Office of Human Opportunities should be used more extensively to reconcile student differences in a non-adversary situation.
 6. There should be fresh encouragement of faculty and staff involvement in student activities. There should be further avenues whereby advice and guidance are available to students.
 7. More effort should be made to synthesize special programs into the main stream of campus life. There is a need for a better understanding of new and existing programs by the entire College community. All students should be given equal recognition regardless of the source of financial aid.
 8. There should be a variety of types of residence hall communities to meet the diverse needs of the students.
 9. Money other than activity fees put into co-curricular activities should be appropriated with the consultation of the student government.

10. There appears to be an urgent need for constitution revision. We recommend that CSA review the machinery and procedures dealing with budget preparation. Further, CSA should continue to broaden participation from all segments of student population. The student constitutional convention should be rescheduled and an effort made to have a representative body participating.
11. The Black Liberation Front Board should continue and increase its efforts to work within the framework of student government.
12. The College should foster avenues of amicable student interaction, such as the Coffee House and the Rathskellar.

SPECIAL EDITION*****COLLEGE BULLETIN

May 6, 1970

FROM THE PRESIDENT

This is a time when many of us at this College and at other colleges and universities all over America have been stunned over the death of four students at Kent State University and by national and international events which preceded this tragic action.

I have strongly urged faculty that class time be used on Wednesday and Thursday, May 6 and 7, for teach-ins to discuss the issues that many students have informed me they feel deeply about as they relate to their future: the war in Indo-China and other concerns we all have. In addition, there will be discussion groups in the Student Union dealing with the issues of the day.

A memorial service for the four Kent State students will be held today in the Old Quadrangle at 12 noon, weather permitting, or in the Social Hall of the Union in case of rain.

We commend those who have used restraint and reason in this difficult time and ask all members of the College Community to find constructive remedies for their concerns. Violent tactics are deplored; they breed backlash, not understanding.

Later today I expect to release a copy of my personal telegram to President Nixon, Senator Goodell, and Senator Javits.

Portions of the auditorium of Rockwell Hall were severely damaged by a fire at about 8:00 p.m. last night at a time when classes were in session in the building. The Fire Department reports that the apparent cause of the fire was arson. Other fires of similar origin have also been reported on campus. Appropriate investigations are being continued.

I have today sent the following telegram to President Nixon, Senator Goodell, and Senator Javits:

"The consequences of the decision to expand the war into Cambodia have been tragic on the college and university campuses of the United States. The subsequent deaths of four young students of Kent State University involve another act which has galvanized the deep feelings of hundreds of thousands of youth all over our country.

My personal conviction is that our nation's policies in Indo China must be reevaluated and every immediate effort taken to bring to a swift conclusion this devastating war.

I strongly urge you to listen to and heed what young Americans are trying to tell you and other national leaders."

REPORT OF THE PRESIDENT'S CALENDAR COMMITTEE, 1969-70

1. The questionnaire on academic calendar preference circulated by the committee was completed and returned by 309 faculty members and administrators. Some of the major results are summarized below.

a. Calendar Preference

Semester	- 48.7%
Winter Term	- 26.0%
Trimester	- 16.2%
Quarter	- 4.9%
Other	- 4.2%

b. Calendar Preference by Faculties (%ages)

	Trimester	Winter Term	Quarter	Semester	Other
Arts & Sciences (139)	18.0	22.3	5.0	49.6	5.0
Arts (34)	17.6	32.4	0.0	41.2	8.8
Professional Studies (49)	24.5	30.6	4.1	36.7	4.1
Applied Sci. & Tech. (50)	0.0	22.0	8.0	68.0	2.0
Other (12)	25.0	41.7	8.3	25.0	0.0
Administration (24)	16.7	29.2	4.2	50.0	0.0

- c. Calendar Preference by Academic Rank - Preference for the semester calendar showed an increase with increasing rank. Preference for the trimester and winter term calendars showed a corresponding decrease.

- d. Calendar Preference by Years of Service at SUCB - Preferences showed generally the same pattern as for increasing faculty rank - the longer the faculty member has been at the College, the more likely he is to prefer the semester calendar.

2. Too small a response was received from students to whom questionnaires were sent to arrive at any meaningful conclusion.
3. The Committee does not feel that there is sufficient mandate for change in any one direction to justify a major modification of the academic calendar at this time. While more than half of the faculty favored some kind of change, the calendar choice receiving by far the largest vote was the semester plan. Approval of a modification of the semester calendar to go into effect next fall should eliminate those features of the present calendar that are most widely considered objectionable.
4. Had the choice of calendar been left entirely to the Committee, the recommendation would have been for some form of the Winter Term arrangement. However, rather than make this recommendation for a major change in the face of inconclusive faculty response, the Committee would like to recommend for the consideration of the College in the fall that there be established a term of three weeks running from the day after spring Commencement (May 17) to the end of the first week in June (June 4). During this period faculty members would conduct experimental and off-campus types of courses. Student and faculty participation would be on a voluntary basis.

Such an academic term would allow the College to experiment with winter term kinds of programs and to test their feasibility for this institution.

FACULTY COUNCIL ACTION

Faculty Council, at its meeting of May 18, 1970, approved the following recommendations for change of policy, as amended, submitted by the Subcommittee on Instruction:

I. Recommendation regarding the readmission of students dismissed from the College for academic reasons:

1. A student dismissed from the College for academic reasons may not be readmitted until one calendar year has elapsed from the time of his dismissal.
2. When readmitted, a student must pass a total of 120 hours (in addition to the Physical Education activity courses) with a cumulative average of 2.0 to be graduated. This must be accomplished in a maximum of 138 hours attempted, including all those courses taken before academic dismissal. Those who do not meet this requirement may petition the appropriate Dean for a hearing by a faculty appeals committee.

In any subsequent semester when it becomes mathematically impossible for the student to attain a cumulative average of 2.0 by maintaining a B average in the hours remaining, the student shall be dismissed permanently.

II. Recommendation regarding course offering frequency:

Because the College Catalog should indicate the active curriculum of the College, and each student should expect to be able to take any listed course for which he is eligible, the Committee recommends that:

Courses listed in the undergraduate catalog shall not be offered less frequently than once in each two successive academic years. Those courses listed as strictly graduate courses shall be offered at least once every three academic years.

The Office of Academic Affairs shall maintain a record of those courses actually offered (excluding independent study, project, and thesis courses) and delete from the next catalog(s) those courses not meeting the above criteria. These courses shall be maintained in an inactive file, subject to reactivation at the request of the appropriate department.

III. Recommendation regarding a change in the requirements for graduation as stated on page 57 of the 1969-70 General Catalog:

Each student must complete the prescribed curriculum for his major with a minimum cumulative quality point average of 2.00 in all courses successfully completed (D or better). The student must complete this requirement in not more than 138 hours of attempted work, not including physical education activity courses. Those who do not meet this requirement may petition the appropriate Dean for a hearing by a faculty appeals committee.

SPECIAL ISSUE

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

Dr. Meisler has asked me to publish the following statement about the summer orientation for freshmen:

"The summer orientation program will attempt to provide an integrated introduction to college life. It will provide opportunities for new students to begin to explore the academic, social, cultural and recreational potential of our campus. The format emphasizes small group activities and the ability of the individual student to choose from an array of activities those which interest him most.

"A new medium for the communication of academic information is a series of videotaped interviews with department or division chairmen. The academic advising staff as well as the new students will have extensive access to these tapes. Another new contact with the academic program results from the arrangement we have made with a large number of summer session instructors to accept the visits of new students to their classes. We hope to arrange occasions for a large number of department chairmen to meet informally with students. Finally we hope to strengthen the academic dimension of the program by having freshmen spend longer periods of time with their faculty advisors, and by supplying a complete and up-to-date manual of information bearing upon course choices available to freshmen.

"The program will include seminars or workshops offered by a wide variety of the college's agencies and associated organizations. These include the health office, financial aids office, CSA and other student organizations, the residence staff, the Newman Center and others.

"Staff members from the counseling center and SEEK Program are offering a psychodramatic workshop on race relations. This is an instance of our general approach of planning and implementing the orientation program in very close collaboration with the SEEK staff. We feel that we are likely to have a unified program that better serves the needs of both matriculating freshmen and new SEEK students.

"The social program includes films, a coffee house sponsored by a fraternity, Black Arts mini-festival, possibly a performance by a local theater group, a coffee hour with the President and midnight snacks. There is also a barbeque lunch scheduled for Noon of the second day of each session, probably in the Rockwell Quadrangle. All members of the college community are invited to join the freshmen at that time. We especially hope that faculty members and administrators will plan to reserve the noon hours of the following dates to meet new freshmen:

July 10, 14, 21, 24, 31 - August 2, 11 and 14

"I would be happy to talk with anyone desiring more complete information about the plans for this program.

Director, Freshmen Programs"

Another new contact with the academic program results from the arrangement we have made with a large number of summer session instructors to accept the visits of new students to their classes. We hope to arrange occasions for a large number of department chairmen to meet informally with students. Finally we hope to strengthen the academic dimension of the program by having freshmen spend longer periods of time with their faculty advisors, and by supplying a complete and up-to-date manual of information bearing upon course choices available to freshmen."

"The program will include seminars or workshops offered by a wide variety of the college's agencies and associated organizations. These include the health office, financial aid office, CEA and other student organizations, the residence staff, the Newman Center and others."

"Staff members from the counseling center and SEEK Program are offering a psychodrama workshop on race relations. This is an instance of our general approach of planning and implementing the orientation program in very close collaboration with the SEEK staff. We feel that we are likely to have a unified program that better serves the needs of both matriculating freshmen and new SEEK students."

"The social program includes films, a coffee house sponsored by a fraternity, Black Arts Mini-Festival, possibly a performance by a local theater group, a coffee hour with the President and midnight snacks. There is also a barbeque lunch scheduled for noon of the second day of each session, probably in the Rockwell Quad. All members of the college community are invited to join the freshmen at that time. We especially hope that faculty members and administrators will plan to reserve the noon hours of the following dates to meet new freshmen:

July 10, 14, 21, 28, 31 - August 2, 11 and 14

"I would be happy to talk with anyone desiring more complete information about the plans for this program."

The Personnel Office, RH 131, has a supply of forms which employees may request a cost estimate for World War II service credit. TO: The Faculty

FROM: Commission on the Joint Statement on Rights, Freedoms and Responsibilities of Students

DATE: May 27, 1970

SUBJECT: Synopsis Outline of Final Report for the Year 1969-1970
(As presented to President E. K. Fretwell)

The Commission on Student Rights, Freedoms and Responsibilities herewith submits its report for the year 1969-1970.

We have met consistently throughout the year and have identified, in our estimation, a series of actions which would lead eventually, when consummated, to achievement of the goals listed in the Joint Statement.

It is our hope that this year's recommendations will be realized and that our local "family" becomes more of what it is capable of being because of our work.

The Commission has made its report to Dr. Fretwell on May 14. The Commission requested that the entire report be published for the campus community. At the request of President Fretwell, we have made a synopsis or outline of the report which you will find attached. It is the feeling of the Commission that every member of the College should have access to the completed report.

We anticipate that the full report will be made available by the President's Office.

I. USE OF DUPLICATING FACILITIES. It has come to my attention that some faculty and staff members have been using college duplicating facilities to reproduce materials not directly related to work in the classroom or at the College. Duplicating facilities are State funded and exist for official College business on a Department re-charge basis. Procedures involving duplicating and equipment copy work were outlined in an addendum attached to the College Bulletin dated January 7, 1970. (Copies available from the Public Information Office, RH 222, ext. 4201.) Under no circumstances is State-owned equipment to be used for purposes of influencing elections or engaging in other partisan causes. Faculty and staff are also reminded of existing policies that any printed materials posted or circulated on campus must clearly show individual or organizational sponsorship before being placed on college bulletin boards or circulated through the college mail.

II. I.D. CARDS. Faculty and staff identification cards will be distributed in pay envelopes for the pay period ending September 10. Identification photos will be taken in the Student Union, Room 415, from 9:00 AM to 4:30 PM on September 8 - 11 and 14 - 17. Any faculty or staff member who so desires may have their photo taken during this period.

All undergraduate identification cards will be distributed in the Union, Room 415, in accordance with the aforementioned schedule. A photograph is required. A service charge of \$2.00 will be assessed for any cards distributed beyond the deadline.

Graduate identification cards will be distributed at the Student Union Information Desk during building hours.

Identification cards for those enrolled in Continuing Education will be distributed at registration, September 14. Vocational Technical students will receive their cards through the department chairman.

No parking permits will be issued this year without a valid college identification card. You must also present your driver's license and registration. UNIVERSITY AWARDS PROGRAM

According to an announcement released by the Research Foundation of the State University of New York, Chancellor Gould has accepted the recommendation of the Joint Awards Council that the "Large" Programs (Programs 4-7) be suspended for the Fall 1970 Series of the University Awards Committee.

Also, the Chancellor has accepted the recommendation of the Joint Awards Council that the Fall 1970 Series of the University Awards Committee will encompass support to the extent of its resources and through its regular fellowships and grants-in-aid, studies aimed at improvement of teaching and other programs for the disadvantaged, provided they fall within the definition of "research" as defined by the programs of the Joint Awards Council/University Awards Committee. The Council also urged that proposals seeking support for projects requiring more substantial resources than that offered by the aforementioned UAC programs should be considered for possible funding through the Chancellor's Innovation Fund.

Applications for the University Award Programs are available in RH 223. Deadline dates for applications to be accepted in the Sponsored Research Office are October 5 if a program requires human subjects review, and October 12 for all other applications. HELP WITH PARENT-CHILD PROBLEMS

Is your elementary school age child having problems--with discipline, with school, with friends, with himself? Would you like an opportunity to participate in an innovative venture in family understanding aimed at helping you to get in better touch with the way your child feels, at opening up communication between you and your child so that your child feels really understood?

The Parent-Child Communication Workshop is a new approach to helping parents and children who are experiencing problems in their relationship to deal with each other respectfully and openly, to develop a better sense of mutual trust and closeness, to develop a true family intimacy so that family members can be a direct source of help to one another in working out problems.

Assistant Professor Muriel Santilli of SUNYAB School of Social Welfare and Director of Social Work Service at the Child Study Center here at Buffalo State is now in the process of organizing several workshop groups which will be starting soon. Children of parents in the groups will be directly involved in the treatment process. If you are interested in participating, contact Professor Santilli at ext. 6315, 831-2526, or 884-4960, now. No fee is involved.

OFFICIAL NOTICES

FROM THE PRESIDENT

I. RESOLUTION. The following Resolution was adopted by the Board of Trustees of the State University at a Special Meeting held on July 16, 1970:

Resolved that the following policy be, and hereby is, approved:

In order to fulfill the University's educational obligations and meet calendar commitments, the State University of New York will during 1970-71 hold to its regular academic schedule and remain open during the pre-election period.

While the separate campuses of the University may work out arrangements to accommodate those students wishing to participate in political campaigns on other public affairs, it is understood that teaching responsibilities will be met and that withdrawal from academic work by students is to be an individual and not an institutional decision.

Action implementing this policy was recommended to the faculty by the Faculty Council at its regular meeting on September 14. I am pleased to endorse the recommendations as stated in another section of this Bulletin.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

FACULTY COUNCIL ACTION. Faculty Council, at its meeting of September 14, 1970, took the following action:

ELECTED: Faculty Council Chairman pro tem - W. Drzewieniecki; Advisory Committee - R. Bradley, A. Pitts; Chairman, Academic Freedom, Tenure, Professional Welfare - P. Beaudet; Chairman, Appointments, Elections, By-Laws - H. Collins; Chairman, Instruction, Research, Library - J. McDonnell; Chairman, Curriculum Committee - S. Sherwin; President's Advisory Group - M. Brinson, M. Lewis, B. Frey, R. Stone, J. Cherkauer (alternate), H. Collins (alternate).

RECOMMENDED APPROVAL: It is urged by Faculty Council that faculty members excuse from class attendance during the period of October 19 through November 3, 1970 those students who wish to work actively for candidates in the November 3, 1970 elections. Such absences should be subject to the following conditions: (1) Students must declare their intention on or before October 1 by submitting it in writing to the individual instructor. (2) Students must accept full responsibility for all academic work done during this period. This responsibility includes making arrangements with instructors for submitting papers, projects, etc. due during this period, and for making up scheduled examinations.

II. FACULTY COUNCIL. Faculty Council agenda for Monday, September 21 at 3:10 PM in the Burchfield Center: Reports of ad hoc committees.

III. ORIENTATION FOR NEW FACULTY. Orientation for new faculty members will continue Thursday afternoon, September 24, at 4:00 PM in New Science 213 with an information session presented by a number of academic service units. All new faculty members are urged to attend.

IV. LEEP PROGRAM. Our College is again participating in the LEEP Program of the U.S. Department of Justice. The 1970-71 award is \$391,800 which is not exclusively reserved for policemen, correctional officers or students majoring in Criminal Justice. All qualifying students are eligible to participate through the Loan program (up to \$1,800 per academic year). Those interested should contact Dan Hunter in Financial Aids or Edward Morgan, PH 323.

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. PARKING PERMITS. All College personnel, both staff and student, are reminded of their obligation to obtain parking permits as quickly as possible for cars they intend using on campus. Beginning at 7:00 AM, September 21, 1970 enforcement of parking rules and regulations will be extended to include the various lots. The parking brochures distributed at vehicle registration will indicate the proper parking area. The parking permit will indicate eligibility to park in a particular area. Vehicles not displaying permits will be tagged.

No parking permits will be issued this year without a valid college identification card. You must present your driver's license and registration to obtain a permit. Stickers will be issued in the Student Union, Room 415, from 9:00 AM to 3:30 PM on September 14-17 and in the Security Office, Chase Hall 110, after 3:30 PM. Also, after September 17 permits can be obtained at any time in the Security Office.

II. FACULTY ON 26-PAY BASIS. (1) The State of New York has converted to a payment system whereby you are compensated for 1/10 of your bi-weekly salary for each of ten work days in each bi-weekly period. This is in contrast to the previous system whereby you received 1/14 of your bi-weekly salary for each calendar day in the two-week period. (2) Your first pay in September covered the period from 9/1 - 9/9 which included seven work days. Hence, your paycheck reflected 7/10 of your normal bi-weekly gross salary and not 9/14. (3) The next paycheck will cover a full two-week period (10 work days) and will, therefore, reflect your full bi-weekly gross pay. You will continue to receive a full check for each pay period for as long as you continue in service. (4) The last check in August 1971 will be issued on August 26. The remaining days in August will be paid on the check issued on August 26. The remaining days in August will be paid on the check issued September 9 which will also cover the first eight days of the new academic year (September 1-8). Thus, the first check in September 1971 will be a full pay, unlike the first pay in September 1970. (5) Those terminating their service in June 1971 may elect to receive a lump sum payment in June which would pay them in full up to August 31, 1971 or may continue to receive their normal pay through the month of August. In the latter case a check would be issued in September to cover the unpaid days in August (August 26-31). (6) All adjustments to salary due to retirements, terminations, etc. will be made on the basis of your obligation (10 month or 12 month) not on the basis of payment (21 or 26 pays). The mode of payment does not affect the amount of remuneration you will receive for a given period of service. (7) Summer Session payments will continue to be made for those who are so employed. In the case of 26-pay faculty, the additional payments are merely added to the normal bi-weekly payments. The mode of payment does not affect summer employment in any way.

N.B. If you were on 26-pay status during the previous academic year (1969-70) you received your final check on August 27, 1970. This check paid you in full for your obligation even though there were several calendar days remaining. Your new obligation began September 1, 1970, hence the reduced first pay was mandatory for this year only.

III. MOTORCYCLE PARKING. The practice of riding and parking motorcycles on College walkways and lawns is expressly forbidden because of the danger to pedestrians and possible damage to College property. Those who use cycles are reminded that these constitute violations of the Vehicle and Traffic Law.

IV. I.D. CARDS. Faculty or staff members who wish to have their photo taken may do so in the Student Union, Room 415, from 9:00 AM to 4:30 PM on September 14-17.

Due to an error in the reporting of staff and faculty to the Addressograph Corporation for the embossing of I.D. cards some cards were incorrectly embossed. Any faculty member who wishes to have the code number on his I.D. card changed from 2 (staff) to 1 (faculty), please bring your cards to Room 415 in the Student Union on September 16-17 between 9:30 AM and 4:30 PM. If these times and dates are inconvenient for you, please leave cards in Mr. Brado's office, UN 400D, and the change will be made. You may pick up your I.D. card within 24 hours or elect to have it returned by campus mail.

V. TELEPHONES. The College now provides three toll-free WATS telephone lines for New York State calls. In addition, the College has one TIE line to Albany.

To use the WATS line, Dial "0" and tell the operator who you are and where you are calling and she will dial the call for you.

To place a call to any Albany agency number on the TIE line, dial "0" and ask the operator for instructions. Specific instructions will be carried in the new official directory. When this directory is available, you may ignore the above instructions.

All New York State toll calls must be made on toll free lines (WATS or TIE). Departments will automatically be charged for New York State toll calls not made on the rental lines.

VI. SMOKING REGULATIONS. Faculty, staff and students are reminded that smoking in auditoriums and classrooms creates an extremely serious fire hazard. Any groups using the halls are cautioned that the no smoking rule should be strictly observed.

VII. PARKING. For the benefit of new staff members and new students, may we remind you that the Albright-Knox Art Gallery and the State Hospital operated parking lots should not be used by the College community as overflow parking areas. Both institutions have asked our cooperation in keeping their lots available for their use.

The exhibition ART IN THE BUFFALO AREA: 1920-1930 is currently on view in the Burchfield Center (third floor, Rockwell Hall) through September 27. RECOMMENDATIONS FROM FACULTY COUNCIL COMMITTEE ON CAMPUS CONCERNS:

(3) Faculty Council should publish its minutes and distribute an adequate number of copies to the Chairmen of the departments. ACCEPTED BY FACULTY COUNCIL, 9/14/70. (4) All departments should form a social committee to arrange for informal meetings between faculty and students (enrolled in the department, or merely interested in the area). Meetings should include refreshments and be held on a frequent and regular basis. Where departments are large, plans should allow for relatively small groups. ACCEPTED BY FACULTY COUNCIL, 9/21/70. (5) Student organizations should be encouraged to invite more faculty to their meetings and activities. Faculty should be encouraged to accept these invitations, and to attend to listen and participate when asked. ACCEPTED BY FACULTY COUNCIL, 9/21/70. (6) The Rathskeller should be utilized as a gathering place for students and faculty who care to drink together and discuss matters of concern. REJECTED BY FACULTY COUNCIL, 9/21/70. SPECIAL ISSUEFROM THE PRESIDENT

To secure action on the proposed revision of the College by-laws I am calling a faculty meeting on Thursday, October 1, at 4:00 p.m. in Upton Hall Auditorium.

The particular purpose is to allow the faculty to consider two amendments to the document already approved by the faculty. The proposed amendments would increase student membership on the proposed College Senate from six to twelve and more precisely define student membership on the standing committees.

These amendments were approved by the Faculty Council last spring. According to the procedures established in the existing by-laws, amendments must be presented to the faculty for consideration at a faculty meeting but may not be voted upon before seven days have passed.

I realize that October 1 is a day of religious observance for some faculty members and regret that a meeting is being called on that day. I feel, however, that the issue is of such importance that delay is undesirable.

I hope there will be good attendance and participation. Copies of the current by-laws and the already accepted amendments were given to each new faculty member. There are additional copies in my office.

OFFICIAL NOTICES

FROM THE PRESIDENT

I. SPECIAL FACULTY MEETING POSTPONED. The special faculty meeting scheduled for Thursday, October 1 has been postponed to Thursday, October 8 at 4:00 PM in Upton Hall auditorium.

Under the present By-laws, Article VII, Amendments, the By-laws must be amended by circulation in written form among the faculty at least seven days before a vote can be taken.

The following amendments have been proposed by the Faculty Council and will be the subject of discussion at the October 8 meeting. Vote on the proposed amendments will be by secret written ballot sometime after October 8.

Proposal, Part One

That Art. III, Sect. E, Sub-Section e be amended to read:

Each committee, as specified in Art. III, Section E, shall have at least one student member. The number of student members, the number of faculty members, and the total membership of each committee shall be determined by the chairman of the Senate prior to September 30 of each year in consultation with members of the Senate. The Senate shall determine the method of consultation.

Proposal, Part Two

That Art. III, Sect. B, Sub-Section g be amended to read:

Twelve students elected by the student body by a method to be determined by a vote of the student body.

II. SCRANTON COMMISSION REPORT. Attached to this Bulletin is a copy of the complete report of the Scranton Commission as it appeared in the New York Times, Sunday, September 27, 1970.

III. RIGHTS, FREEDOMS AND RESPONSIBILITIES OF STUDENTS. The recently published document, Rights, Freedoms and Responsibilities of Students, has been distributed to all members of the student body, faculty and staff on this campus. The document includes: The Joint Statement on the Rights and Freedoms of Students, The Trustees' Rules and Regulations for the Maintenance of Public Order on State University Campuses, and Rules and Regulations Governing Student Conduct at Buffalo State University College. Anyone who has not received a copy of this orange booklet may contact either the Union Information Desk or the Office of Student Affairs.

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. ADMINISTRATORS COUNCIL. There will be a meeting of Administrators Council on Tuesday, October 6 at 9:00 AM in the Burchfield Center.

II. PARKING PERMITS. Faculty, staff and students who have not done so are asked to obtain parking permits for the vehicles that they use on campus. These may be obtained in the Security Office, CS 110, at any time. Failure to do so may result in a parking ticket.

III. PARKING. All College personnel are requested to park in areas assigned them. These are set forth in the brochure describing traffic and parking regulations obtained when a permit is issued. Extra copies are available in the Security Office. Parking on Rockwell Road from Elmwood Avenue to the Power House has been assigned as a faculty and staff area; students parking in this area will be tagged.

IV. MOTORCYCLE PARKING/BICYCLE PARKING. Owners of motorcycles are reminded to obtain parking permits. Failure to do so can result in a traffic tag. Cycle parking has been designated for the blacktopped area adjacent to the northeast corner of the Gym. Cyclists are reminded that parking on lawns and sidewalks constitute violations for which tags will be issued. Cyclists are also warned that riding on a sidewalk constitutes a violation of the Vehicle and Traffic Law. Consideration is presently being given for arrangements for bicycle parking. Results will be announced in the Bulletin and Record.

Jack Smolik, representing the Temporary State Commission to Study the Causes of Campus Unrest, will be at the College on Thursday afternoon, October 1 from 2:00 to 5:00 PM in RH 217 to interview persons interested in testifying before the committee. Mr. Smolik's visit, originally scheduled for Monday, September 28 was postponed to Thursday, October 1. The committee also plans to hold hearings at the Erie County Public Library on October 6.

COLLEGE HEARING COMMITTEE

Dr. Jack C. Brueckman, Jr., Chairman of the College Hearing Committee, issued the following report on September 24, 1970.

Geoffrey L. Smith and Gregory A. Smith, at the advice and consent of their legal counsel, requested postponement of the hearing which was scheduled for Wednesday, September 23. As they had made application for admissions to other colleges, Geoffrey Smith and Gregory Smith submitted their resignations from the College effective no later than the end of the first semester of 1970.

The administration of State University College at Buffalo, responding to this request, which was at the initiative of counsel for the Smiths, agreed to the postponement and subsequently lifted the suspension of Geoffrey Smith and Gregory Smith contingent upon their agreement to comply with the rules and regulations of the College during the balance of the present semester.

UNITED FUND CAMPAIGN UNDERWAY

The first report submitted to United Fund headquarters totaled \$1,928.62 toward the campus goal of \$22,300. By next week each faculty and staff member should be personally contacted by a fellow staff member with appropriate pledge cards. If you are not contacted, kindly call ext. 4201 to ascertain who is your departmental solicitor.

STATE UNIVERSITY FEDERATION OF TEACHERS

To all professional staff: It seems probable that there will be an election for the bargaining agent for SUNY before Thanksgiving. I am on leave this semester (without pay) and am working full-time for the State University Federation of Teachers. I have already arranged times to meet with several different departments to discuss the Union position. If any department or other professional group is interested in such a discussion (at a regular or a special meeting) please contact me at home, 877-6423. Gene S. Welborn, Sociology.

There will be a meeting of Local #1733 State University Federation of Teachers (AFT) on Thursday, October 8 at 7:30 PM in the Faculty Lounge of Upton Hall (next to Room 229). Gene Welborn will report on the status and direction of organization in Western New York.

NEW YORK STATE TEACHERS' RETIREMENT SYSTEM

Members of the N.Y.S. Teachers' Retirement System may have their questions on retirement answered in a confidential interview at Amherst Central High School, 4301 Main St., Snyder, N.Y. Appointments may be made only by telephoning 836-3000. (Note: Appointments may not be made by mail.) Appointments fall between the hours of 1:30 and 6:30 PM on the following dates: October 5, 7; November 4; December 7, 9; January 4, 6; February 1, 3; March 1, 3; April 5, 7; May 3, 5; and June 7, 9. At every interview members are asked to bring their most recent Retirement System Annual Statement and salary information for their last three years.

LIBRARY XEROX HOURS LIMITED

The Butler Library Xerox will be closed promptly at 5:00 PM when the regular staff goes off duty, and over the weekend, since no key operator will be on hand to service the machine at those times. This means that a person using the machine at 5:00 PM will have to complete the job at some other time. Because of the increased use of the Xerox, student assistants will be expected each time to show a signed note from the department authorizing the copying and to allow for the possible need to complete the job the following day on a first-come, first-served basis.

FOOD SERVICE

For the convenience of people arriving early on campus, effective Monday, September 28, the State Room Snack Bar in Moot Hall will be open for coffee and donuts at 8:30 AM (on a trial basis). A full line of grill and luncheon items will remain available from 9:00 AM - 3:00 PM.

Texts of a 'Call to the People' and Recommendations of the Campus Unrest Panel

Special to The New York Times

WASHINGTON, Sept. 26—Following are the texts of a call "To the American People" and the recommendations of the President's Commission on Campus Unrest as presented in its report to President Nixon today:

To the American People

The crisis on American campuses has no parallel in the history of the nation. This crisis has roots in divisions of American society as deep as any since the Civil War. The divisions are reflected in violent acts and harsh rhetoric, and in the enmity of those Americans who see themselves as occupying opposing camps. Campus unrest, reflects and increases a more profound crisis in the nation as a whole.

This crisis has two components: A crisis of violence and a crisis of understanding. We fear new violence and growing enmity.

Crisis of Violence

On the nation's campuses, and in their neighboring communities, the level of violence has been steadily rising. Students have been killed and injured; civil authorities have been killed and injured; bystanders have been killed and injured. Valuable public and private property, and scholarly products have been burned.

Too many Americans have begun to justify violence as a means of effecting change or safeguarding traditions. Too many have forgotten the values and sense of shared humanity that unite us. Campus violence reflects this national condition.

Much of the nation is so polarized that on many campuses a major domestic conflict or an unpopular initiative in foreign policy could trigger further violent protest and, in its wake, counter-violence and repression.

The Constitution protects the freedom of all citizens to dissent and to engage in non-violent protest. Dissent is a healthy sign of freedom and a protection against stagnation. But the right to dissent is not the right to resort to violence.

Equally, to respond to peaceful protest with repression and brutal tactics is dangerously unwise. It makes extremists of moderates, deepens the divisions in the nation, and increases the chances that future protest will be violent.

We believe it urgent that Americans of all convictions draw back from the brink. We must recognize even our bitter opponents as fellow Americans with rights upon which we cannot morally or legally encroach and as fellow human beings whom we must not club, stone, shoot, or bomb.

National Cease-Fire Urged

We utterly condemn violence. Students who bomb and burn are criminals. Police and national guardsmen who needlessly shoot or assault students are criminals. All who applaud these criminal acts share in their evil. We must declare a national cease-fire.

There can be no more "trashing," no more rock throwing, no more arson, no more bombing by protesters. No grievance, philosophy, or political idea can justify the destruction and killing we have witnessed. There can be no sanctuary or immunity from prosecution on the campus. If our society is to survive, criminal acts by students must be treated as such wherever they occur and whatever their purpose.

Crimes committed by one do not justify crimes committed by another. We condemn brutality and excessive force by officers and troops called to maintain order. The use of force by police is sometimes necessary and legal, but every unnecessary resort to violence is wrong, criminal, and feeds the hostility of the disaffected.

Our universities as centers of free inquiry are particularly vulnerable to violence. We condemn those groups which are openly seeking to destroy them.

We especially condemn bombing and political terrorism. The full resources of society must be employed to bring to justice those who commit terroristic acts. Anyone who aids or protects terrorists, on or off campus, must share the moral and legal responsibilities for the crimes they commit.

We find ominous and shocking reports that students are laying in supplies of weapons and that others are preparing to take the law into their hands against protesters and minorities they dislike. There can be no place in our society for vigilantes, night-riders, or militants who would bring destruction and death upon their opponents. No one serves the law by breaking it.

Violence must stop because it is wrong. It destroys human effort. It undermines the foundations of a just social order. No progress is possible in a society where lawlessness prevails.

Violence must stop because the sounds of violence drown out all words of reason. When students and officials resort to force and violence, no one can hear. The nation is denied a vital call to conscience. It must stop because no nation will long tolerate violence without repression. History offers grim proof that repression once started is almost impossible to contain.

Crisis of Understanding

Campus protest has been focused on three major questions: war, racial injustice, and the university itself.

The first issue is the unfulfilled promise of full justice and dignity for blacks and other minorities.

Blacks, like many others of different races and ethnic origins, are demanding today that the pledges of the Declaration of Independence and the Emancipation Proclamation be fulfilled now. Full social justice and dignity—an end to racism, in all its human, social and cultural forms—is a central demand of today's students, black, brown and white.

A great majority of students and a majority of their elders oppose the Indochina war. Many believe it entirely immoral. And if the war is wrong, students insist, then so are all policies and practices that support it, from the draft to military research, from R.O.T.C. to recruiting for defense industry. This opposition has led to an ever-widening wave of student protests.

A third target of student protest is the shortcomings of the American university. The goals, values, administration and curriculum have been sharply criticized by many students. Students complain that their studies are irrelevant to the social problems that concern them.

They want to shape their own personal and common lives, but find the university restrictive. They seek a community of companions and scholars but find an impersonal multiversity. And they denounce the university's relationship to the war and to discriminatory racial practices.

No Single Culture
Behind the student pro-

test on these issues and the crises of violence to which they have contributed lies the more basic crisis of understanding.

Americans have never shared a single culture, a single philosophy or a single religion. But in most periods in our history, we have shared many common values, common sympathies and a common dedication to a system of government which protects our diversity.

We are now in grave danger of losing what is common among us through growing intolerance of opposing views on issues and of diversity itself.

A "new" culture is emerging primarily among students. Membership is often manifested by differences in dress and life style. Most of its members have high ideals and great fears. They stress the need for humanity, equality and the sacredness of life. They fear that nuclear war will make them the last generation in history.

They see their elders as entrapped by materialism and competition and prisoners of outdated social forms. They believe their own country has lost its sense of human purpose. They see the Indochina war as an onslaught by a technological giant upon the peasant people of a small, harmless and backward nation.

The war is seen as draining resources from the urgent needs of social and racial justice. They argue that we are the first nation with sufficient resources to create not only decent lives for some, but a decent society for all and that we are failing to do so. They feel they must remake America in its own image.

But among the members of this new student culture, there is a growing lack of tolerance, a growing insistence that their own views must govern, an impatience with the slow procedures of liberal democracy, a growing denial of the humanity and goodwill of those who urge patience and restraint, and particularly of those whose duty it is to enforce the law.

A small number of students have turned to violence; an increasing number, not terrorists themselves, would not turn even arsonists and bombers over to law enforcement officials.

Intolerance of the Old
At the same time, many Americans have reacted to

this emerging culture with an intolerance of their own. They reject not only that which is impatient, unrestrained, and intolerant in the new culture of the young, but even that which is good. Worse, they reject the individual members of the student culture themselves.

Distinctive dress alone is enough to draw insult and abuse. Increasing numbers of citizens believe that students who dissent or protest, even those who protest peacefully deserve to be treated harshly. Some even say that when dissenters are killed, they have brought death upon themselves. Less and less do students and the larger community seek to understand or respect the viewpoint and motivations of the other.

If this trend continues, if this crisis of understanding endures, the very survival of the nation will be threatened. A nation driven to use the weapons of war upon its youth is a nation on the edge of chaos. A nation that has lost the allegiance of part of its youth is a nation that has lost part of its future. A nation whose young have become intolerant of diversity, intolerant of the rest of its citizenry, and intolerant of all traditional values simply because they are traditional, has no generation worthy or capable of assuming leadership in the years to come.

We urgently call for reconciliation. Tolerance and understanding on all sides must re-emerge from the fundamental decency of Americans, from our shared aspirations as Americans, from our traditional tolerance of diversity, and from our common humanity. We must regain our compassion for one another and our mutual respect.

There is a deep continuity between all Americans, young and old, a continuity that is being obscured in our growing polarization. Most dissenting youth are striving toward the ultimate values and dreams of their elders and their forefathers. In all Americans there has always been latent respect for the idealism of the young.

The whole object of a free government is to allow the nation to redefine its purposes in the light of new needs without sacrificing the accumulated wisdom of its living traditions. We cannot do this without each other.

Despite the differences among us, powerful values and sympathies unite us. The very motto of our nation calls for both unity and diversity: from many, one. Out of our divisions, we must now re-create understanding and respect for those different from ourselves.

Violence must end. Understanding must be renewed.

All Americans must come to

Members of Campus Unrest Panel

Special to The New York Times

WASHINGTON, Sept. 26—Following is a list of the members of the President's Commission on Campus Unrest:

William W. Scranton, chairman, 52, former Governor of Pennsylvania.

James Ahern, 38, police chief of New Haven.

Erwin D. Canham, 66, editor in chief, The Christian Science Monitor.

Dr. James E. Cheek, 37, president of Howard University.

Benjamin O. Davis Jr., 57, Director of Civil Aviation Security, Department of Transportation.

Martha A. Derthick, associate professor of political science, Boston College.

Joseph Rhodes Jr., 22, a Junior Fellow at Harvard University.

see each other not as symbols or stereotypes but as human beings.

Reconciliation must begin.

We share the impatience of those who call for change.

We believe there is still time and opportunity to achieve change. We believe we can still fulfill our shared national commitment to peace, justice, decency, equality and the celebration of human life.

We must start. All of us.

Our recommendations are directed toward this end.

MAJOR

RECOMMENDATIONS

Far more important than the particular recommendations of this commission are the underlying themes that are common to all:

Most student protesters are neither violent nor extremist. But a small minority of politically extreme students and faculty members and a small group of dedicated agitators are bent on destruction of the university through violence in order to gain their own political ends.

Perpetrators of violence must be identified, removed from the university as swiftly as possible, and prosecuted vigorously by the appropriate agencies of law enforcement.

Dissent and peaceful protest are a valued part of this nation's way of governing itself. Violence and disorder are the antithesis of democratic processes and cannot be tolerated either on the nation's campuses or anywhere else.

The roots of student activism lie in unresolved conflicts in our national life, but the many defects of the universities have also fueled campus unrest.

Universities have not adequately prepared themselves to respond to disruption. They have been without suitable plans, rules or sanctions. Some administrators and faculty members have responded irresolutely. Frequently, announced sanctions have not been applied. Even more frequently, the lack of appropriate organization within

the university has rendered its response ineffective. The university's own house must be placed in order.

Too many students have acted irresponsibly and even dangerously in pursuing their stated goals and expressing their dissent. Too many law enforcement officers have responded with unwarranted harshness and force in seeking to control disorder.

Action—inactions—of government at all levels have contributed to campus unrest. The words of some political leaders have helped to inflame it. Law enforcement officers have too often reacted ineptly or overreacted. At times, their response has degenerated into uncontrolled violence.

The nation has been slow to resolve the issues of war and race, which exacerbate divisions within American society and which have contributed to the escalation of student protest and disorder.

All of us must act to prevent violence, to create understanding and to reduce the bitterness and hostility that divide both the campus and the country. We must establish respect for the processes of law and tolerance for the exercise of dissent on our campus and in the nation.

No Cure-alls Offered

We advance our recommendations not as cure-alls but as rational and responsive steps that should be taken. We summarize here our major recommendations, addressed to those who have the power to carry them out.

Just as the President must offer reconciling leadership to reunite the nation, so all government officials—at all levels—must work to bring our hostile factions together.

Like the President, the Governors of the states should hold meetings and develop contacts throughout the school year to further the cause of reconciliation. Like the President, other Federal, state and local officials must be sensitive to the charge of repression and fashion their

words and deeds in a manner designed to refute it.

We urge state and local officials to make plans for handling campus disorders in full cooperation with one another and with the universities. We urge the states to establish guidelines setting forth more precisely the circumstances that justify ordering the guard to intervene in a campus disorder.

We recommend that the Federal Government review all its current policies affecting students and universities to assure that neither the policies nor administration of them threatens the independence or quality of American higher education. At the same time Government should increase its financial support of higher education.

We urge public officials to reject demands that entire universities be punished because of the ideas or excesses of some members and to honor their responsibility to help preserve academic freedom.

We recommend that the Department of Defense establish alternatives to R.O.T.C. so that officer education is available to students whose universities choose to terminate on-campus R.O.T.C. programs.

We recommend greatly increased financial aid to black colleges and universities. All agencies of Government that support such institutions should massively increase their grants to enable these colleges to overcome past shortcomings.

We support the continuing efforts of formerly all-white universities to recruit black Mexican-American, Puerto Rican, and other minority students, and we urge the adequate Government-sponsored student aid be made available to them. We recommend that in the process of becoming more representative of the society at large universities make the adjustments necessary to permit those from minority backgrounds to take maximum advantage of their university experience.

Bombing and arson pose an increasing threat to life and property on campus. We urge prompt enactment of strict controls over the sale, transfer and possession of explosive materials. Such statutes are needed at both the Federal and state levels.

For Law Enforcement

We have deep sympathy for peace officers—local and state police, national guardsmen and campus security officers—who must deal with all types of campus disorder. Much depends on their judgments, courage and professionalism.

We commend those thousands of law enforcement officers who have endured

taunts and assaults without reacting violently and whose careful conduct has prevented violence and saved lives.

At the same time, we recognize that there have been dangerous and sometimes fatal instances of unnecessary harshness and illegal violence by law enforcement officers.

We therefore urge that peace officers be trained and equipped to deal with campus disorders, firmly, justly and humanely. They must avoid both uncontrolled and excessive response.

Too frequently, local police forces have been undermanned, improperly equipped, poorly trained and unprepared for campus disturbances. We therefore urge police forces, especially those in smaller communities, to improve their capacity to respond to civil disorders.

We recommend the development of joint contingency plans among law enforcement agencies. They should specify which law enforcement official is to be in command when several forces are operating together.

Sending civil authorities to a college campus armed as if for war—armed only to kill—has brought tragedy in the past. If this practice is not changed, tragedy will come again. Shoulder weapons (except for tear gas launchers) are very rarely needed on the college campus; they should not be used except as emergency equipment in the face of sniper fire or armed resistance justifying them.

We recommend that national guardsmen receive much more training in controlling civil disturbances. During the last three years, the guard has played almost no role in Southeast Asia but has been called to intervene in civil disorders at home more than 20 times.

We urge that the National Guard be issued special protection equipment appropriate for use in controlling civil disorders. We urge that it have sufficient tactical capability and nonlethal weaponry so that it will use deadly force only as the absolute last resort.

For the President

We urge that the President exercise his reconciling moral leadership as the first step to prevent violence and create understanding. It is imperative that the President bring us together before more lives are lost and more property destroyed and more universities disrupted.

We recommend that the President seek to convince public officials and protesters alike that divisive and insulting rhetoric is dangerous.

In the current political campaign and throughout the years ahead, the President should insist that no one play irresponsible politics with the issue of "campus unrest."

We recommend that the President take the lead in explaining to the American people the underlying causes of campus unrest and the urgency of our present situation. We recommend that he articulate and emphasize those values all Americans hold in common. At the same time we urge him to point out the importance of diversity and co-existence to the nation's health.

To this end, nothing is more important than an end to the war in Indochina. Disaffected students see the war as a symbol of moral crisis in the nation which, in their eyes, deprives even law of its legitimacy. Their dramatic reaction to the Cambodian invasion was a measure of the intensity of their moral recoil.

We urge the President to renew the national commitment to full social justice and to be aware of increasing changes of repression. We recommend that he take steps to see to it that the words and deeds of Government do not encourage belief in those charges.

We recommend that the President lend his personal support and assistance to American universities to accomplish the changes and reforms suggested in this report.

We recommend that the President take steps to assure that he is continuously informed of the views of students and blacks, important constituencies in this nation.

We recommend that the President call a series of national meetings designed to foster understanding among those who are now divided. He should meet with the Governors of the states, with university leaders, with law enforcement officers and with black and student leaders. Each participant in these meetings should be urged to bring with him practical suggestions for restoring trust and responsibility among those whom he represents and commit himself to continue this process of national reconciliation in frequent meetings throughout the school year.

For Government

We strongly urge public officials at all levels of government to recognize that their public statements can either heal or divide. Harsh and bitter rhetoric can set citizen against citizen, exacerbate tension and encourage violence.

For the University

Every university must improve its capability for responding effectively to disorder. Students, faculty, and

trustees must support these efforts. Universities must pull themselves together.

The university should be an open forum where speakers of every point of view can be heard. The area of permitted speech and conduct should be at least as broad as that protected by the First Amendment.

The university should promulgate a code making clear the limits of permissible conduct and announce in advance what measures it is willing to employ in response to impermissible conduct. It should strengthen its disciplinary process. It should assess the capabilities of its security force and determine what role, if any, that force should play in responding to disorder.

When criminal violence occurs on the campus, university officials should promptly call for the assistance of law enforcement agencies. When faced with disruptive but nonviolent conduct, the university should be prepared to respond initially with internal measures. It must clearly understand the options available to it and be prepared to move from one to another if it is reasonably obvious that an earlier tactic has failed.

Faculty members who engage in or lead disruptive conduct have no place in the university community.

The university, and particularly the faculty, must recognize that the expansion of higher education and the emergence of the new youth culture have changed the makeup and concerns of today's student population. The university should adapt itself to these new conditions. We urge that the university make its teaching programs, degree structure, and transfer and leave policies more flexible and more varied in order to enhance the quality and vitality of university study.

We call upon all members of the university to reaffirm that the proper functions of the university are teaching and learning, research and scholarship. An academic community best serves itself, the country, and every principle to which it is devoted by concentrating on these tasks.

Academic institutions must be free—from outside interference and free from internal intimidation. Far too many people who should know better—both within university communities and outside them—have forgotten this first principle of academic freedom. The pursuit of knowledge cannot continue without the free exchange of ideas.

Obviously, all members of the academic community, as individuals, should be free to participate actively in whatever campaigns or causes they choose. But universities

as institutions must remain politically neutral, except in those rare cases in which their own integrity, educational purpose or preservation are at stake.

One of the most valid criticisms of many universities is that their faculties have become so involved in outside research that their commitment to teaching seems compromised. We urge universities and faculty members to reduce their outside service commitments. We recognize that alternative sources of university funding will have to be developed to take the place of the money attached to these outside commitments. Realistically, this will mean more unrestricted government aid to higher education.

Large universities should take steps to decentralize or reorganize to make possible a more human scale.

University governance systems should be reformed to increase participation of students and faculty in the formulation of university policies that affect them. But universities cannot be run on a one-man, one-vote basis with participation of all members on all issues.

Universities must become true communities whose members share a sense of respect, tolerance, and responsibility for one another.

For Students

Students must accept the responsibility of presenting their ideas in a reasonable and persuasive manner. They must recognize that they are citizens of a nation which was founded on tolerance and diversity, and they must become more understanding of those with whom they differ.

Students must protect the right of all speakers to be heard even when they disagree with the point of view expressed. Heckling speakers is not only bad manners but is inimical to all the values that a university stands for.

Students must face the fact that giving moral support to those who are planning violent action is morally despicable.

Students should be reminded that language that offends will seldom persuade. Their words have sometimes been as offensive to many Americans as the words of some public officials have been to them.

Students should not expect their own views, even if held with great moral intensity, automatically and immediately to determine national policy. The rhetorical commitment to democracy by students must be matched by an awareness of the central role of majority rule in a democratic society and by an equal commitment to techniques of persuasion within the political process.

The commission has been impressed and moved by the idealism and commitment of American youth. But this extraordinary commitment brings with it extraordinary obligations: to learn from our nation's past experience, to recognize the humanity of those with whom they disagree and to maintain their respect for the rule of law.

The fight for change and justice is the good fight: to drop out or strike out at the first sign of failure is to insure that change will never come.

This commission is only too aware of America's shortcomings. Yet we are almost a nation of enduring strength. Millions of Americans—generations past and present—have given their vision, their energy, and their patient labor to make us a more just nation and a more humane people.

We who seek to change America today build on their accomplishments and enjoy the freedoms they won for us. It is a considerable inheritance. We must not squander or destroy it.

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. POLICY FOR NIGHT EMERGENCIES. Effective immediately, the following policy will be followed for night maintenance emergencies: (1) The Security Department will be provided with a list of personnel who can be contacted on weekends and nights to take quick action on all maintenance emergencies. (2) All emergencies in residence halls should be reported to the resident director or his assistant. Upon notification, he will call Security for action after he has checked the problem and deemed it necessary for a maintenance call in. (3) For all emergencies in non-resident halls or buildings that are not normally occupied at night or weekends, calls to Security may be made by the supervising janitor, department chairman, any faculty member or person in charge of an activity in that building. (4) Security, in making rounds throughout our campus complex, is requested to report any abnormal conditions that may exist; for example, smoke, fumes, or loud noises coming from any of our mechanical rooms. When necessary, Security will call appropriate maintenance men for action.

II. SECURITY. Beginning October 12, 1970 at 11:00 PM, the recently installed gates on our campus will be placed in use and will be closed at 11:30 PM and opened at 7:00 AM. All vehicular traffic entering or leaving the campus will do so at the Elmwood Avenue Rockwell Road location. III. PARKING TICKETS. Shortly after October 9, 1970 the Security Department will be using the new Buffalo Police Department parking ticket. The new ticket differs from the old in that if not paid within 10 days, the recording fee or fine goes from \$5.00 to \$10.00.

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. ADMINISTRATORS COUNCIL. There will be a meeting of Administrators Council on Tuesday, October 27 at 9:00 AM in the Burchfield Center.

II. RESEARCH INVOLVING HUMAN SUBJECTS. Faculty conducting or planning to conduct research involving human subjects, whether or not federal monies are involved, are reminded that such investigations are subject to the policies of the State University and the U.S. Public Health Service.

A review committee comprised of Dr. Richard McCowan, Dr. Herbert Aurbach, Dr. Richard Towne and Thomas Davern has been designated as the Social Science Review Committee concerned with use of human subjects in investigations who might be exposed to the possibility of harm whether it be physically, psychological, sociological, or other. There is a wide range of social and behavioral research in which no physical risk to the subject may be involved; yet, their investigations may impose varying degrees of discomfort, irritation and harassment. There may also be substantial potential injury to the subject's rights if attention is not given to maintenance of confidentiality of information obtained from the subject and the protection of the subject from misuse of findings.

The review by the committee is to insure that (a) the rights and welfare of the individuals involved are adequately protected; (b) the methods used to obtain informed consent are adequate and appropriate; and (c) the risks to the individual are outweighed by potential benefit to him or by the importance of the knowledge to be gained.

Any questions concerning the policies and procedures for research programs involving human subjects should be directed to the Coordinator of Sponsored Research Office, Ext. 4522.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. FACULTY COUNCIL. Agenda for meeting to be held Monday, November 9, at 3:10 PM in the Burchfield Center: (1) Academic Freedom, Tenure and Professional Welfare, (2) Curriculum Committee.

II. EXAMINATION SCHEDULE CHANGE. Item 4 on page 1 of the Final Examination Schedule should be changed to read: All examinations except the "block" examinations (10:30-12:30 daily and 3:30-5:30 PM on December 17) will be held in the classroom for the FIRST class meeting of the week of each course. Thus, there can be no room conflicts with day classes. However, some regular classrooms may be too small for adequate examination security. If this is so, please request Dr. Licata to provide a more adequate room before December 4, 1970.

III. STATEMENT OF COLLEGE POLICY ON STUDENT CONDUCT AND THE CIVIL PROCESS.

The State University College at Buffalo recognizes the supremacy of the civil law in all cases of duplication or conflict with the regulations of the College. Where individuals, although members of the college community, suffer loss or injury from the perpetration of misdeeds, the College recognizes their right of access to

III. (continued)

to the civil process if they so choose.

This is not to be construed as precluding the invoking of college discipline procedures as described in the document "Students' Rights, Freedoms and Responsibilities," whether or not civil remedies have been sought.

As the American Bar Association Commission on Campus Government and Student Dissent stated:

"The fact that a student has been subject to university disciplinary proceedings does not in any way preclude a subsequent trial of the student for the same conduct by public authorities if his conduct violated the laws of the jurisdiction. Likewise, the fact that a student has been tried in the criminal courts does not preclude the assertion of an appropriate disciplinary sanction against him by the university. There is no legal basis for the claim of 'double jeopardy' in either case.

"The institution should recognize the possibility, however, of injustice resulting from the imposition of multiple sanctions for the same conduct. In cases where the university proceeds after state action has taken place, consideration should be given by the university to any prior state punishment in determining the appropriateness of a university sanction. A criminal court should properly consider the sanction already imposed by a university tribunal in determining what penalty it should impose. Prosecutors or university officials, as the case may be, should carefully consider whether it is desirable to proceed where a defendant has been acquitted in prior proceedings in court or before a university tribunal. These matters are, however, addressed to the discretion of responsible officials and do not give rise to any right of immunity from a different or additional finding or sanction made by the body that has initially delayed its exercises of jurisdiction."

In no instance is a member of the faculty, staff or administration of this College, acting in his official capacity, to render advice in a manner in conflict with this policy.

ENDORSED AND RECOMMENDED FOR ADOPTION AS A
STATEMENT OF COLLEGE POLICY BY FACULTY COUNCIL

FROM THE DEAN OF DEVELOPMENTAL STUDIES

I. SEEK FACULTY MEETINGS. SEEK Faculty Meetings will be held at 4:00 PM in RH 217 on the following dates: November 9, 30, December 17, January 25, February 15, March 8, 29, April 26. Mrs. Martin, Associate Dean of Developmental Studies, chairs all SEEK Faculty Meetings.

FROM THE CENTENNIAL STEERING COMMITTEE

I. "NO COLLEGE IS AN ISLAND." The College plans to celebrate its hundredth anniversary during the academic year 1971-72. Then known as the State Normal School, the College opened its doors for the first time in September 1871. It is our intention to celebrate the centennial with appropriate ceremonies, but, more importantly, with a series of events developing the single broad theme and focusing on the present and the future role of the College while using the past as a fundamental frame of reference.

The College has grown enormously in the past one hundred years--in sheer size--but the Centennial will not linger nostalgically very long to celebrate this growth. Rather, it will attempt to discover means of improving the College by examining what it is and what it ought to be.

The College is unique in many ways. It is the largest four-year College and the third largest unit in the State University of New York. It has one of the largest state programs for economically and educationally disadvantaged students, the largest undergraduate program for the preparation of teachers of exceptional children, and the largest program in the country for the preparation of teachers of art. It prepares more certified teachers each year than any other upstate institu-

tion. It is a truly urban College, with a student body and a faculty representative of the rich variety of American society.

The theme of the Centennial, "No College is an Island," is an indication of the College's concern for the quality of life in and around it and its search for solutions to the problems of city life: pollution, social disorganization and social conflict.

The College is conscious of the difficulty of celebrating a centennial at a time when other matters demand its attention. It is aware of the need at the moment for relevance and hopes to utilize the occasion for a review of the priorities of higher education and, specifically, the priorities of this College. The College can celebrate its centennial by noting in broad terms the changes that have occurred in recent times and by demonstrating its openness to change in the future. A normal school that became a teachers college and then a multi-purpose college must now become an instrument for constructive social change. The Centennial, it is hoped, will be an occasion for the expression of the College's interest in human and humane values.

"The old order changeth, yielding place to new."

SPECIAL ISSUE

FROM THE PRESIDENT

I. RESULTS OF VOTING ON AMENDMENTS TO BY-LAWS. The President reported at the November 12 Faculty Meeting the results of voting on the By-Laws Amendments, as submitted to him by the Chairman of the Faculty Council. Questions were raised from the floor regarding the interpretation of the present By-Laws which led to a determination of the number of votes necessary to approve an amendment.

Following discussion, the President requested suggestions for procedures in recasting ballots. Motion was made and seconded that new ballots be presented through department chairmen and that the chairmen distribute and receive returned ballots from members of their departments. Motion was carried.

The President has requested the By-Laws Committee to proceed with a new vote on the amendments in the manner prescribed above.

II. EXTENSION OF GUIDELINES. On November 6, 1969, a recommendation from Faculty Council proposing the use of Article VI of the new by-laws as guidelines for appointment and reappointment of department chairmen, directors and deans was approved for the 1969-70 academic year. Experience with those guidelines leads me now to approve the use of Article VI for the academic year 1970-71.

III. APPROVAL OF FACULTY COUNCIL ACTION. The following actions of Faculty Council are approved: (1) All undergraduate students in the College are required to have achieved a cumulative grade point average of 2.0 in their major field to be recommended for graduation. Departments may not establish a minimum requirement higher than 2.0 (Staff Bulletin--December 17, 1969; (2) Recommendation concerning the calling of faculty meetings in a crisis situation (College Bulletin--October 1, 1970); (3) Recommendation requiring that "all departments and/or divisions (except Campus School) should establish significant student participation on appropriate standing committees." In view of the delay in approving this recommendation, the deadline for filing departmental plans for implementing this recommendation is extended to December 15 (College Bulletin--October 1, 1970). In regard to this requirement, academic units should take note of Faculty Council action of September 21, 1970 (College Bulletin--September 24, 1970) urging departments to "implement measures that will enable students and faculty to undertake meaningful curriculum and course content re-evaluation on a regular basis." (4) Policy and Procedure for faculty endorsement of resolutions on public issues (College Bulletin--October 1, 1970).

IV. PUB OPENING. The faculty, administration and staff are encouraged to stop by the College Pub to check out the tap system Friday afternoon, November 13, between the hours of 3:00 and 5:30 PM. - Violate the campus security regulations or policies.

4. Assignment of Space for Employee Organization Pre-Election Activities

Space at a campus should not hereafter be reserved or assigned for the exclusive use of an employee organization or its representatives. If such exclusive use of space has already been assigned, its continuation should be allowed only if equivalent space can be made available to competing organizations that request it.

If space is available, permission may be granted to employee organizations upon request for meetings and conferences subject to the following conditions:

- The use of such space does not interfere with the educational program or the operations of the University;
- Sufficient advance notice is given to permit orderly and impartial scheduling of available space; and
- Reimbursement is required of employee organizations for significant additional costs incurred in making the facilities available.

5. Use of Bulletin Boards

Where bulletin boards are available, the campus should make space available in such manner as to insure neutrality among the organizations requesting such space.

Where an employee organization is now using a bulletin board on an exclusive basis with respect to employees in this unit, similar privileges must be granted to competing employee organizations if requested. The location of such bulletin boards should be determined by the campus in consultation with the employee organizations concerned.

6. Use of State University Facilities

The University's internal mail distribution facilities may be used by employee organizations for the purpose of disseminating information to members of the State University Professional Service, provided that University mailroom employees will distribute only material which gives the name and address of the addressee. Employee organizations may deposit unaddressed campaign material in campus mail boxes where accessible.

Reproduction facilities (e.g., mimeograph machines) and related services (e.g., secretarial services) may not be used for employee organization activities.

7. Requests for Names and Addresses of Employees in the Professional Service

The State has prepared an official list of the names and addresses of its professional service employees on the basis of the representation unit adjudged to be appropriate by PERB. An official list has been made available to each employee organization.

Requests for information should be directed to Dr. Caesar J. Naples of the Office of Employee Relations.

OFFICIAL NOTICES

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. **DUPLICATING FACILITIES.** For the convenience of faculty and staff additional duplicating facilities have been added and enlarged upon during this academic year. So that staff may know what machines are convenient for their use, the following locations should be noted. Those with an asterisk indicate the installation is for restricted use (i.e., only for those personnel as listed within parentheses). Recharge slips must be completed by staff members using any machine so that proper budgetary charges can be made.

*Bishop Hall - 118 (Facilities Planning); Butler Library - 212A Periodicals; *Campus House (Placement Personnel); *Caudell Hall - 114C (Caudell and Vocational Technical Personnel); Chase Hall - opposite Room 104; *Ketchum Hall - 112 (English, Foreign Language, Exceptional Education Personnel); *Old Gym (RSEMIC Personnel); Perry Hall - 108; New Science - 313; Rockwell Hall 123A; *Rockwell Hall - 312 (Records Room - Registrar and Admissions Personnel); *Rockwell Hall - 329 (SEEK Personnel); Upton Hall - 218.

The physical placement of machines is based upon the needs emanating from particular departments and offices on the campus. Periodically these needs will be reviewed and some changes made. Notification of such changes will appear in the Bulletin. In most cases duplicating facilities are not operable after 4:30 PM.

Comments concerning management and/or operation should be directed to Joyce E. Fink, ext. 4201.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. **FACULTY COUNCIL.** Agenda for Faculty Council meeting on December 14 at 3:10 PM in the Burchfield Center: (1) Academic Freedom, Tenure, and Professional Welfare, (2) Curriculum Committee, (3) ad hoc Committee on Campus Concerns.

II. **EXAMINATIONS.** All faculty should check the exam schedule very carefully. Classes that meet for the first time Mondays at 5:00 PM, Tuesdays at 4:00 PM, or Tuesdays at 5:00 PM may be in conflict with graduate classes, which have priority.

Please determine whether or not your particular exam is in conflict with a graduate course by contacting the Office of Academic Affairs or the graduate professor with whom the conflict may occur so we may find another room in which you may hold your exam. Arrangements may be made by calling Academic Affairs, 5901.

III. **TEXTBOOKS.** Through no fault of theirs some of our students experienced a delay in being able to purchase textbooks in September and may have been, as a result, handicapped in reaching their highest level of performance. When these students report such a condition to their instructors, the faculty members should give appropriate consideration to the circumstances, just as they would to any student who has faced a peculiar difficulty in the course of his academic work.

IV. GRADUATION REQUIREMENTS. A number of questions raised in the course of the current semester suggest the need to clarify the new graduation requirements approved last spring (General Catalog, p. 58). (1) These requirements, including the method for computing grade point averages, apply only to students who first enrolled at the College in September 1970, and who will enroll thereafter. Other students will continue under the regulations in force at the time of their enrollment. (2) Transfer students will be permitted a number of hours of "E" grades proportional to the number of credit hours they must take at the College in order to meet the 120-hour minimum required for graduation. For example, students needing 60 hours will be allowed 9 hours of "E," those needing 100 hours will be allowed 15 hours of "E," etc. Allowances will be rounded off to the closest multiple of 3 hours. (3) The probations appeal mechanism will be open to students who have exceeded their allotted number of "E" hours. (4) All grades, including grades of "E," will be recorded on the student's transcript.

The need to meet catalog deadlines resulted in certain inconsistencies between the statement of graduation requirements and the description of the quality-point system (p. 54). The latter should be corrected to read as follows:

The following quality-point system is used in determining averages: For each hour of A--four quality points; B--three quality points; C--two quality points; D--one quality point. No other grades have quality-point value. No point value for advanced credit work completed at other institutions is included in the computation of the academic standing at this College. The quality-point average is determined by dividing the total number of quality points earned in courses passed at this College by the total number of semester hours completed in these courses. The grades of E, P, S and U and semester hours credit earned in student teaching will not be included in determining a student's quality-point average, since they have no quality-point value.

COLLEGE BULLETIN

Volume XIV Number 19

December 11, 1970

SPECIAL ISSUE

FROM THE PRESIDENT

A recent press report regarding the Campus School appears to be disturbing people. The article contained certain assertions which appear to be attributed to unknown "spokesmen" or "officials" of the College.

My office has not issued any statement to date regarding the future of the Campus School simply because no decision of any kind has been reached regarding future enrollments or other plans. We have been informed, however, that the State budget is unusually tight both at the moment and for the next fiscal year. Therefore, the College has been advised to take a look at all of its expenditures as well as future commitments. Consideration has been given for many years to various possible functions and roles of the Campus School. We would all be derelict in our duties if we did not evaluate all programs in the College constantly. The Campus School is no different from other responsibilities we assume at the College.

Let me repeat that we have made no decision at this time about any revisions in the distribution of resources for next year. The amount requested in the 1971-72 fiscal year for the support of the Campus School, for example, is essentially the same as the amount requested in the 1970-71 budget. The College must accommodate itself and use its resources in the most effective manner for the greatest good for the various populations it serves.

Rumors and confusion make the achievement of a reasonable consensus more difficult. I hope I can count on your interest in the welfare of the College and our whole school to minimize any anxieties which may have been aroused by unofficial statements. My office pledges itself to do everything possible to share appropriate information when it is available.

SEASON'S GREETINGS

With the approach of the Holiday Season, I hope that all of us at the College will have opportunity, however short it may be, to be with our families and loved ones and enjoy some respite from the demands of today's crowded life.

Dorrie and our family join me in extending warmest greet-
to all -- students, faculty, staff, alumni, neighbors and
friends -- for Christmas, Hanukkah and 1971. May the New Year
bring us closer to an era of peace and human understanding.

E. K. Fretwell Jr.
President

FROM THE PRESIDENT

I. VICE-PRESIDENT FOR ACADEMIC AFFAIRS SEARCH COMMITTEE. With pleasure I announce the following committee members: Carlton Bauer, Stanley Brooks, Kerm Burley, Michael Fleice, Thomas Mott, Arthur Pitts, Sarah Sterrett, Mrs. Harlan Swift*, Patrick Timprone, James Young* and Japhet Zwana. Secretary (non-voting), Joyce Fink.

Faculty members have been elected by their respective faculties; student names suggested by C.S.A.; and two presidential appointments are indicated thus *. I am especially happy that Mrs. Swift, a member of the College Council, has accepted membership. She currently serves as chairman of the Council's Committee on Academic and Student Affairs.

The date of the first meeting, in mid-January, will be announced shortly. In the meantime, names of candidates as well as other pertinent suggestions will be gladly received in the President's Office.

II. EXPENDITURE CUT-PACKS. Attached as an addendum to this Bulletin is a copy of a memorandum from T. Norman Hurd, Director of the Budget, to department heads of all State governmental units. This memorandum has been forwarded to the College by Chancellor Boyer to use as a guide in expenditure cut-backs to help balance the 1970-71 budget.

In compliance with the request of the Division of the Budget, the following guidelines will apply to budget actions on this campus through March 31, 1971:

- (1) All unexpended travel funds are frozen effective December 14, 1970. All travel requests will require the approval of the appropriate Vice-President.
- (2) All unexpended equipment funds are frozen effective December 14. Equipment required under the "emergency" concept of the Hurd Memo will require written justification and approval by a Vice-President.
- (3) All unexpended Supply and Expense accounts have been reduced 50% as of December 14. This freeze means that no department can spend more than half of its remaining balance effective December 14.
- (4) No telephone change requests will be honored until after March 31, 1971. Please adhere

also to the other requirements as stated in item 8 of the Hurd memorandum. (5) The College postal meter will be used only for official College business. Only official materials contained in printed College envelopes will be accepted for mailing. (6) a. Civil Service employees will be prohibited from working any of the remaining holidays unless signed waivers are on file. b. Clerical overtime is prohibited. c. All maintenance and security overtime will be reduced to emergency situations only. (7) Office supplies from the Central Stores will be issued on a need basis. The ordering of minimum quantities as stated in the catalog will no longer be in effect.

Persons having questions should consult the appropriate chairman, director or dean. The above guidelines and the Hurd memorandum were presented and discussed at an Administrative Conference meeting December 15, 1970.

III. RESIGNATION OF DEPARTMENT CHAIRMAN. It is with regret that I accept the resignation of Professor Walter M. Drzewieniecki as Chairman of the History Department effective January 10, 1971. Dean Joseph Hichar will serve as my representative in consultation with the members of the History Department regarding the appointment of a new chairman.

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. TUITION WAIVERS FOR FACULTY AND STAFF. Tuition waivers may be obtained in the Deans' offices or in Rockwell Hall 100C. They should be initialed by the department chairman before sending them to the Dean's office for signature. Please have them in as soon as possible as they should reach Albany no later than one month after the beginning of the term for which the waiver is requested.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. FACULTY COUNCIL. Faculty Council will meet next on January 11, 1971 at 2:00 PM in the Burchfield Center.

II. FINAL EXAMINATIONS. The examination period extends from December 17-23, 1970 including Saturday, December 19. It is important that academic activities be pursued as scheduled during those days. Any significant variation proposed by a faculty member should have the concurrence of his Chairman.

III. PROBATION APPEALS. Probation appeals will be held under the auspices of the Deans, January 11 and 12. All students whose cumulative averages were below 2.0 at the end of the 1970 spring semester are subject to dismissal if the averages have not been brought up to 2.0 by the end of the current semester. Students who find themselves in this situation may make an appeal to be allowed to continue at the College. Appointments to appeal before a faculty committee should be made at the office of the dean in whose area the student's major lies as soon as the student is aware of his need to do so. All appointments must be made by 5:00 PM, January 8. Students must procure a Student Grade and Average Report from the Registrar's Office before making an appeal.

Uncommitted students may appeal to the Office of the Vice-President for Academic Affairs. Locations of relevant offices are as follows: Faculty of Arts and Sciences, Dean Hichar, RH 210; Faculty of Applied Science and Technology, Dean Dreyer, RH 226; Faculty of Professional Studies, Dean Simpson, RH 200; Faculty of The Arts, Dean Homer, RH 202; Vice-President for Academic Affairs, Dr. Licata, RH 208.

Further information regarding any student's probationary status and procedures for making appeals may be obtained from these offices.

IV. FINAL GRADES. All final grades should be turned in by each faculty member to his department chairman within 48 hours of the final examination. Each department chairman should turn grades in to the Registrar daily. The process of recording and reporting grades can be expedited and final grades mailed to the students promptly if this procedure is followed.

V. POSTING FINAL GRADES. Faculty members should post their final grades in each course. Students in each course should be informed where and when grades will be posted. This is important.

SUNY FACULTY SENATE

The Governance Committee of the SUNY Faculty Senate is considering proposal of a revision of Article VII of the Policies of the Board of Trustees. Copies of the proposed revision, together with an explanatory letter from the chairman of the Governance Committee, should have reached you by now or will very soon be in your mail. MEMORANDUM

December 4, 1970

TO: All Department Heads

FROM: T. N. Hurd

SUBJECT: Expenditure Cutbacks to Help Balance the 1970-71 Budget

Purpose

This is to ask for your cooperation--as a first step--in balancing the 1970-71 Budget.

Required Action

1970-71 State revenue collections are running below our estimates. Even though you have attempted to keep your expenditures within the ceilings previously announced, it is apparent that we shall have to do some further belt-tightening to help close a gap that may exceed \$100 million.

At the direction of the Governor, I am, therefore, requesting you, effective at once, to take the following actions immediately:

1. Freeze all existing and future personnel vacancies in your department. Promotions may be made only if required to provide necessary supervision and guidance in the minimum maintenance of essential services. If, after you have thoroughly reviewed your situation, you believe that to maintain essential services at minimum levels consistent with existing or future vacancies, please write me, stating your requested exceptions and explaining the probable consequences of making no exceptions. We will consider your request carefully and give you a prompt answer.
2. Postpone implementation of new programs--and the expansion of existing programs--even though they have been authorized and appropriations have been made, except where it is absolutely essential to maintain the minimum level of program performance.
3. Cut out--or cut back--your lowest priority programs.
4. Cut the use of overtime to an absolute minimum to hold overtime compensation payments to the lowest possible levels.
5. Drop as many provisional and temporary appointees (except provisional promotees) as possible, consistent with maintaining a necessary level of services.
6. Eliminate out-of-state travel except for that which is absolutely essential and has your specific written approval.
7. Cut down on regular in-state travel except for that which is absolutely essential to the proper conduct of State business at minimum levels.

8. Cut communication expenditures by (a) making maximum use of telephone tie lines, (b) eliminating extension telephones wherever possible, (c) using mail instead of the telephone wherever possible, and (d) using inter-office mail and messenger service wherever available.
9. Cut down on publications and printing costs. Please remember that OGS has excellent equipment and can provide good "in house" service on necessary materials, including annual reports.
10. Stop all equipment purchases except to meet emergencies.
11. Stop all repairs except to meet emergencies.
12. Reduce inventories to minimum levels.
13. Reduce (or eliminate) your 1970-71 deficiency requests.
14. Refrain from signing new contracts for consultants and other contractual services.
15. Review all local assistance programs to determine what savings can be made in 1970-71 under present law.
16. Avoid the making of capital project contracts for rehabilitation or new construction to the extent possible.

December 21st Report

Will you please submit to me by December 21, 1970 a written report on (a) steps you have taken to carry out the Governor's request, (b) other steps you plan to take, and (c) your estimate of the dollar savings these steps will produce by March 31, 1971. If these reports do not show satisfactory progress toward our goal, more drastic measures will then need to be considered.

In Conclusion

By way of further guidance, I would like to emphasize the following:

1. When we refer to "expenditures" we mean cash expenditures as reported by the State Comptroller before April 1, 1971.
2. Emphasis should be placed on genuine expenditure reductions in 1970-71 and not simply on deferring expenditures to 1971-72. It appears now that the fiscal situation in 1971-72 will be much tougher than this year so any postponing of expenditures--rather than reducing them--will only compound your problem next year.
3. The Administration needs the benefit of your full cooperation. We shall, thus, expect your exercise of maximum imagination and ingenuity in reducing expenditures to help meet this critically important situation.

If you have questions on any of the above, please call your Chief Budget Examiner.

FROM THE APPOINTMENTS, ELECTIONS AND BY-LAWS COMMITTEE

I. AMENDMENTS TO NEW FACULTY BY-LAWS. On May 2, 1968 the College faculty approved a new set of By-Laws which have not as yet been put into effect. On November 23, 1970 the following amendments to these By-Laws were approved by the Faculty Council for submission to faculty vote.

Proposal, Part One - That Art. III, Sect. B, Sub-Section g be amended to read: Twelve students elected by the student body by a method to be determined by a vote of the student body.

Proposal, Part Two - That Art. III, Sect. E., Sub-Section e be amended to read: Each committee, as specified in Art. III, Section E, shall have at least one student member. The number of student members, the number of faculty members, and the total membership of each committee shall be determined by a committee composed of the officers of the Senate prior to September 30 of each year in consultation with members of the Senate. The Senate shall determine the method of consultation.

Under the current By-Laws, Article VII, Amendments, "proposed amendments shall be circulated to the faculty in written form. No vote shall take place until seven calendar days have elapsed after this distribution."

On November 12, 1970 the College faculty passed the following motion that "new ballots be presented through department Chairmen and that the Chairmen distribute and receive returned ballots from members of their department." (College Bulletin, November 13, 1970.) Therefore, distribution of the ballots to the Chairmen is scheduled to take place on or after February 1, 1971.

SUNY-PERB ELECTION

All eligible persons who have not yet voted in the SUNY-PERB election are reminded that only those ballots will be counted that arrive at the Albany post office no later than 9:00 AM on Tuesday, January 26. Mail service has been slow making immediate mailing of the ballot advisable.

INSTITUTIONAL RESEARCH

The Office of Institutional Research is currently compiling a report of all active and pending cooperative arrangements between SUCB and other institutions as of January 1971. Staff and faculty acting as coordinators of such formal cooperative activities (including consortia) should complete the short, one-page form available in RH 102 or by calling 5015. Our response is due in Albany on Feb. 5.

An eight-page summary of the SUCB Traffic Pattern Survey is now available in the Office of Institutional Research, RH 102.

FEDERAL TAX LAW

Changes to the Federal Tax Law by the Tax Reform Act of 1969, and changes to the State Tax Law by the 1970 Legislature, result in the use of new Tax Tables for wages paid on and after January 1, 1971. The new tables reflect the new lower tax rates for single persons, the increase in the Standard Deduction, and the increase in individual exemptions. The application of these new rates will result in changes to the net salaries of most employees paid after January 1, 1971. For salary paid after January 1, 1971 the Social Security Tax is 5.2% of the first \$7,800 in wages.

The above represents excerpts from a bulletin sent from the Office of the State Comptroller to Payroll and Personnel Officers of all State Departments and Agencies.

RECREATION HOURS

The Recreation Program for the Faculty will begin on Wednesday, January 20. All faculty members will receive a pass in the mail this week. OFFICIAL NOTICES

FROM THE PRESIDENT

I. FACULTY MEETING. Dr. Harold Delaney, Vice Chancellor for University Colleges, State University of New York, will be our guest speaker at the next regularly scheduled Faculty Meeting Thursday, February 4 at 4:00 PM in Communication Center N. Plans for his visit are as follows:

12:00 - 1:30 PM	Lunch, Adelbert Moot Dining Room
2:00 - 3:00 PM	Meeting with students, Union 306
3:00 - 4:00 PM	Coffee Hour preceding Faculty Meeting, Upton Gallery
4:00 PM	Faculty Meeting, Communication Center N
	Drop-in Sherry Party immediately following the meeting, Adelbert Moot Dining Room

II. AWARD RECIPIENTS. Congratulations to thirty-four members of our faculty who have been named recipients of the 1971 State University Research Foundation Awards totaling \$66,824. The awards to our campus include fourteen faculty research fellowships of \$1,600; five grants-in-aid up to \$1,600; and fifteen combination awards of grant-in-aid and fellowship not to exceed \$3,200. However, because the number of outstanding applications exceeded available resources, full funding is not possible for all third category winners. These are identified with an asterisk in the attached listing. The University Awards Committee also announced that twenty additional projects submitted by faculty at our campus are "supportable but not fundable."

III. COMMITTEE LISTINGS. Updated copies of committee listings of the Faculty Council, Administrators Council, Student Personnel Council and other college-wide committees have been distributed to various officers of the College. Limited copies of this list are available to interested faculty and staff members through Mrs. Elsie Kaye in the Public Information Office.

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. STATE UNIVERSITY FACULTY SENATE. Parking in the lot north of Caudell Hall will be reserved on Friday, February 5, and Saturday morning, February 6, for guests of the College attending the State University Senate meeting on those dates.

II. PARKING. There will be no student/faculty parking differentiations after 3:00 PM, effective immediately. Students may now park in areas designated faculty-staff without penalty after the 3:00 PM cutoff point. The decision was made as a result of a study of parking habits of Buffalo State students, faculty and staff conducted by the Office of Institutional Research under the direction of Dr. Hillard Hoffman.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. NEW COURSE PROPOSALS AND REVISIONS. New Courses: Phil. 703-704 - Graduate Tutorial in Philosophy. Revisions: Soc. 414 - Sociology of Addiction (formerly Soc. 512); Soc. 415 - Population Analysis and Problems (formerly Soc. 505).

II. CAMPUS FACILITIES. Effective immediately the Office of Continuing Education will be responsible for making arrangements for all off-campus groups wishing to use campus facilities. The use of all instructional facilities (other than those already scheduled for regular academic use through the Registrar's Office) will also be scheduled through the Office of Continuing Education (Rockwell Hall 309, 5906).

III. SABBATICAL LEAVES. Applications for sabbatical leaves for 1971-72 have been processed and faculty who applied for sabbaticals at half pay will shortly be informed that the request will be honored.

It seems also desirable to honor a significant number, perhaps ten, of requests for one-semester sabbaticals at full pay. Since some faculty members were discouraged from applying for full-pay leaves, it will be important for them to reconsider and to apply through chairman, director and dean. Any additional applications should be processed quickly so that determination may be made in time for faculty to plan their work.

Applications, or a memo indicating they are being processed, for full-pay sabbaticals must reach this office before February 11, 1971. Faculty who have already applied need not do so again.

FROM THE DIRECTOR OF ADMISSIONS AND RECORDS

I. TO CHAIRMEN, FACULTY AND STUDENTS. On behalf of the registration staff, I wish to thank you for your gracious consideration and individual efforts which made our recent registration period one of little trauma and confusion. It is true that while "one robin does not make a spring," I do believe that the many hours of planning and organizing on the part of the registration staff resulted in numerous improvements. We by no means have solved all problems but given a fighting chance and your continued cooperation, we should be well along the road to a virtually painless registration process.

SPECIAL ISSUE

FROM THE PRESIDENT

I. FACULTY MEETING POSTPONED. The Faculty Meeting to hear Vice Chancellor Delaney scheduled for today at 4:00 PM will be postponed until February 4 at 4:00 PM in Communication Center (N). Please note this new location.

Dr. Delaney's visit to our campus scheduled for today has been changed as a result of storm-related airline schedule problems.

We plan to follow essentially the same schedule for his day with us as announced in this week's regular Bulletin.

II. TUITION INCREASE. The Chancellor's office has advised me that the Trustees at their January 27 meeting approved certain increases in tuition to go into effect September 1971. The Trustees have recommended increased special funding to assist students who are State residents who are in the categories of greatest financial need.

New charges will be:

Undergraduate: NYS Residents--\$550 (now \$400); Out-of-State Residents--\$900.

Graduate: NYS Residents--\$800 (now \$600); Out-of-State Residents--\$1,000.

Our new tuition will still be relatively low in contrast with what public colleges and universities in many other states are charging their students. Data are available on request in the Public Information Office, RH 222.

These changes pertain to all State-operated campuses of the SUNY system.

Increases are also announced for certain professional programs such as dentistry, law and medicine which are not offered on this campus.

The Trustees have taken no action in regard to dormitory room rental.

There is a possibility of another tuition increase in 1973 if cost trends continue.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. ACADEMIC ADMINISTRATORS' CONFERENCE. Due to the postponement of Vice Chancellor Delaney's visit, the Academic Administrators' Conference scheduled for February 4 has been changed to February 11. Materials for the meeting, to be held at the Officers' Club at Niagara Falls Air Force Base, will be available by the end of next week.

II. VICE-PRESIDENT FOR ADMINISTRATION. Dr. Sigmund A. Smith, Vice-President for Administration, has been granted a six-month sabbatical leave effective February 1, 1971. Pending the return of Thomas Davern, Associate Vice-President for Administration, from sick leave Assistant Vice-President James Young will be in charge.

III. CIVIL SERVICE RETIREES. I wish to extend to the following Civil Service employees upon their retirement a sincere thank you for the many years of faithful service to the College community: Theodore Coolbaugh, Frances Dubner, Adolph Ettli, Dorothy Faragher, Ann Hartl, Ralph Touvell and Ruth Wallshauser.

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. CIVIL SERVICE HOLIDAYS. Lincoln's Birthday, February 12, and Washington's Birthday, February 15, are official Civil Service holidays. It is expected that all classified (Civil Service) employees, with the exception of Security officers, emergency maintenance call ins, and those who have signed waivers, will be off for both holidays. Most offices will either be closed or operating with a minimal staff on both holidays. The Payroll Office will be open to disburse checks as normal.

II. CIVIL SERVICE REGULATIONS GOVERNING LEAVE FOR EXTRAORDINARY WEATHER CONDITIONS. Civil Service attendance rules require that all absences due to extraordinary weather conditions be charged to appropriate leave credits. These regulations apply when Civil Service employees are permitted to leave early or are forced to remain at home because of severe weather conditions. They also apply when the school is officially closed. The decision not to charge credits for January 27, 1971 remains in force. However, all future absences due to adverse weather conditions must be charged. A more comprehensive explanation of the attendance rules in reference to leave for extraordinary weather conditions will be sent to all department heads within the next few days.

STANDING COMMITTEES OF FACULTY SENATE

Approximately \$1,109,000 of the increase goes to cover costs of selective salary increases instituted last July plus mandatory increments effective during 1971-72.

Increases. \$30,000 has been included for rental and operation of off-campus parking areas. The library received one new civil service position plus approximately \$5,000 in temporary service funds. Two new civil service positions plus \$93,000 for utilities and repairs has been included in the maintenance and operation area. \$48,000 has been included in cover increased telephone costs.

Decreases. Summer Session expenditure has been set at \$620,000. This is a reduction of \$152,000 from the 1970 support level. Our request for a 3% cost of living increase in all supplies and expense and equipment accounts was denied. The library acquisitions account was reduced to \$314,000, a cut of \$30,000. All requested increases for the Educational Communications Center were denied. Our requests for additional funds for automotive expenses, duplicating services and data processing were denied.

The category of mandated savings was increased from \$337,000 to \$460,000. This is essentially a budget estimate of savings which can be achieved through position vacancies created by resignations, sickness, etc. at this College during the coming fiscal year.

II. COURSE APPROVALS. The new course proposals, as listed in the College Bulletin of January 14, 1971 (with the exception of Econ. 103 - Economic History of U.S.), are approved.

SUNY FACULTY SENATE MEETING

Briefly listed are some of the highlights of the SUNY Faculty Senate meeting held on this campus February 5-6.

Report of Chancellor Boyer: (1) Senate action requesting the removal of the nepotism clause in the Trustees Policies has led to the Trustees rescinding this restriction at its January meeting. (2) Senate action regarding graduate programs (see October minutes) is under review. Two additional criteria are to be added before it is put into effect. These will include proof by each campus as the means of supporting a new program and provision for a follow-up analysis of the actual costs. (3) Senate requests that graduate programs be identified with a specific office in Central administration is still being considered. (4) Senate proposed policy calling for a very close articulation between programs at two-year and four year institutions in SUNY is being debated within the many units of SUNY so as to broaden and more encompassing than the original proposal. (5) Senate guideline proposals for granting emeritus status to retired faculty should be resolved by spring. The only question seems to be whether the Trustees or the local campuses should make the final determination as to who receives that title. (6) Proposed 1971-72 University budget is not as bad as Chancellor had expected. Chancellor very concerned about drastic cuts proposed in special programs, i.e., E.O.P. and SEEK. (7) Number of applications to SUNY units is dropping but is still far in excess of the number which can be accommodated. This seems true nationwide. (8) Student to faculty ratio is increasing slightly at colleges and centers. Chancellor reports these are still very favorable when compared to many other state universities. (9) Tuition increases coupled with proposed change in incentive and state scholarship awards will mean many students will actually pay less in tuition next year than they did or would have this year. (10) The 1972 Master Plan will be developed from the point of view of the entire university having an overall plan of the units fitting into this. This will help reduce and even eliminate in some cases costly and unnecessary duplication of programs. (11) Governor's budget proposes money to make a feasibility study of developing a University Wide, degree granting non-residential college.

In a question and answer session Chancellor Boyer revealed: (1) He is attempting to persuade the Governor to let the Trustees of SUNY play a significant role in naming members to local campus councils. (2) State auditors had requested that all the "overhead funds" accumulated by the Research Foundation from charges against non-university financed research be placed in the State's general fund. As a compromise to keep the Research Foundation solvent, a lump sum was transferred into the SUNY budget.

Thirteen committee reports were received. Many resulted in specific action and/or resolutions. These are all on file in the Senators' offices and all of the professional staff are welcome to review these.

One resolution requested that the university work toward having the division of Audit and Control reestablish publication charges as an allowable expense against state funding.

Another requested that payment of graduate students' expenses to professional meetings to present papers be permitted out of travel funds and that costs for publication of research by graduate students be a permissible expense against state funds.

The Senate also resolved to recommend to all faculty the regular use of student evaluations of instructors and courses.

In its concern over excellence in teaching the Senate passed three resolutions. These called for the Chancellor to investigate the possibility of providing grants for faculty who propose an acceptable study for the improvement of instruction; the Senate and Faculty Council of the Community Colleges to establish criteria for awarding such grants; and the establishment of a University-wide Center for the Improvement of Instruction.

(continued)

The proposal to abolish the Faculty Senate and replace it with a University Senate (Article VII-revision sent to each professional staff member late last year) was tabled after it was moved to keep the Senate (Article VII) and make the new proposal Article V of the Trustees' Policies.

Another resolution calls on the University and others not to establish a "means" test in any program to support graduate students within the units of SUNY.

Finally, the Senate has requested that the State make its contributions to TIAA and CREF so that retirement benefits under TIAA are equivalent to those of the other retirement plans.

Senators John Urban and Rudolph J. Cherkauer

OFFICIAL NOTICES

FROM THE PRESIDENT

I. PERSONNEL POLICY RECOMMENDATIONS. The personnel policy recommendations attached to this bulletin are printed here, as required, before the president can act upon them.

The recommendations originated in the Academic Freedom and Tenure and Professional Welfare Committee of the Faculty Council and have been approved by the Faculty Council.

These recommendations are of such far-reaching significance to the College that I shall delay acting upon them until there has been adequate opportunity for response from interested persons. I am asking Vice-President Greenwood to conduct one or more general meetings for the purpose of discussing these proposals. The first such meeting is scheduled for Thursday, March 4 at 4:00 PM in New Science 213. Written comments, addressed to me, are solicited.

II. RESULTS OF VOTING ON AMENDMENTS TO THE PROPOSED COLLEGE BY-LAWS. An announcement from the Appointments, Elections and By-Laws Committee of the Faculty Council is included as a part of this Bulletin. I have now shared the results of the voting as announced by the Committee with the Local Council and with the Chancellor's office in Albany. I have been assured informally of their concurrence with the substance of the amendments and believe we will receive approval of the entire new By-Laws in the very near future.

The Faculty Council, being informed of these facts and circumstances, asked its Appointments, Elections and By-Laws Committee to proceed with the election of 15 at-large senators in accordance with Article B-1 of the current By-Laws.

A special meeting of the voting faculty will be held on Thursday, March 18 at 4:00 PM in Upton Hall for this purpose. Please plan to attend.

State University College Policy Statement
On the Use and Distribution of Narcotics and Dangerous Drugs

- I. The Guidelines of the State University of New York Governing Campus Regulations (released on January 30, 1968) clearly states the University's position on the point of the illegal use of narcotics and dangerous drugs on campus:

"The regulations on each campus shall expressly forbid the illegal use of narcotics and dangerous drugs on campus, and the regulation further shall make clear that the institution, through cooperation with appropriate health and law enforcement agencies, will provide no sanctuary for those who violate State and Federal Narcotics Laws."

- II. In complying with the State University Guidelines, the College at Buffalo prescribes its regulations in the Rights, Freedoms and Responsibilities of Students (1970) as follows: (on page 6)

"Use, possession or sale of narcotics and illegal drugs is prohibited conduct on campus."

The College recognizes its obligation to enforce its own established rules and regulations and shall apply appropriate disciplinary actions.

The College Community should be reminded that neither the College nor individuals within it are immune from Federal and State Laws. Although the College itself is not an enforcing agency of laws, it cannot prevent appropriate law enforcement agencies from carrying out their responsibilities.

- III. The College recognizes that distribution and use of narcotics and dangerous drugs are a serious threat to the quality of educational environment as well as individual well-being.

Thus, the College is strongly committed to:

1. Educating the campus community to potential dangers of drug use.
2. Encouraging and promoting the rehabilitation of users (habitual or experimental) through referral for counseling, medical, psychiatric and other professional services.

III. PERSONNEL COMMITTEES. Departmental and/or divisional personnel committees should reveal their recommendations only to chairmen, directors or deans. This confidentiality protects candidates from embarrassment that may arise if recommendations are not accepted. Discussions among committees, chairmen, deans, and others are seriously impeded if the faculty member involved is made aware of any conclusions reached before a final action is taken. Individuals--be they faculty, students or administrators--serving on personnel committees have an important professional obligation to safeguard the welfare of their colleagues by respecting confidentiality.

IV. DIRECTOR OF ADMISSIONS AND RECORDS. I am pleased to announce the appointment of Richard N. Hall as Director of Admissions and Records effective March 1, 1971.

OFFICIAL NOTICES

FROM THE PRESIDENT

Members of the College faculty, administration and staff are deeply saddened by the death on March 19 of Miss Mildred L. Sipp, 77, Director Emeritus of the Home Economics Division. Miss Sipp died in St. Petersburg, Florida after a brief illness.

A graduate of the Buffalo State Normal School, she held a B.S. and M.A. from Columbia University. A member of the College faculty since 1918, she served as Director of the Home Economics Division from 1938-53, when she retired. Miss Sipp was honored by the College at commencement ceremonies in June 1954 when she was named recipient of an honor award. She was cited for "her long and dedicated services to the preparation of teachers, her ardent leadership in local, state and national professional education, and her faith in Home Economics Education as a force for social good, and her accomplishments in demonstrating its benefits for all." She was a merited member of Zonta International and a member of the United Presbyterian Church of Buffalo, the American Association of University Women, Delta Zeta Sorority and a life member of the American Home Economics Association of New York State.

Memorial contributions may be made to either the Mildred L. Sipp Scholarship Fund, established in 1957 by the Mu Alumnae Chapter of Phi Upsilon Omicron, or to the Professors Commemorative - Mildred Sipp Memorial Fund. Please address all contributions to the Office of Director of Development, Rockwell Hall 304.

I. REGULAR FACULTY MEETING. The Regular Faculty Meeting will be held Thursday, March 25 at 4:00 PM in Upton Auditorium. Chancellor Ernest Boyer will be the guest speaker. There will be an opportunity to meet Chancellor Boyer during a coffee hour at 3:00 PM in the foyer of Upton Hall.

II. SPECIAL FACULTY MEETING. As previously announced, the special faculty meeting on the new By-Laws will be held Thursday, April 1 at 4:00 PM in Upton Auditorium. See special College Bulletin dated March 15, 1971 for details concerning this meeting.

III. ADMINISTRATIVE CONFERENCE. An important meeting of the College Administrative Conference on the 1971-72 budget will be held Monday, March 29 at 3:00 PM in the Burchfield Center.

IV. CAMPUS PLANNING COMMITTEE. I am pleased to announce the establishment of a Campus Planning Committee which will consist of the Vice President for Administration or his designee (chairman); Joseph Goupil, Director of Physical Plant; Lon McAdam, Facilities Program Coordinator; and Dr. George Laug, Campus Planning Consultant. Its goal is to establish a program for bringing about planning and implementation of procedures related to both the beautification and educational functions of campus plantings.

In his newly appointed role as Campus Planning Consultant, Dr. Laug has agreed to serve both the Campus Planning Committee and as liaison to the Maud Gordon Holmes Arboretum Board. In addition, he will continue his active service as a member of the College Buildings and Grounds Committee.

V. FUND RAISING ACTIVITIES. The Director of Centennial Activities has been given the responsibility of coordinating all efforts to raise funds for the support of College programs and should, therefore, be kept informed of any such efforts.

VI. COURSE APPROVALS. The course proposals, revisions and cancellations, as listed in the College Bulletin of March 4, 1971, are approved (with the exception of: Ed. 210 - Introduction to Human Development; Ed. 250 - Human Development During Early Childhood; Ed. 251 - Human Development During Elementary School Years; Ed. 252 - Human Development During Pre-Adolescent Development and Adolescence; Biology 104 - Human Ecology).

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. NORTH-SOUTH STORM SEWER CONSTRUCTION. Due to the north-south storm sewer construction, a new temporary walk will be constructed for the students and staff who use the Water Tower parking lot. The walk will route the foot traffic from the Water Tower lot to the tennis court area, then east and north to the turn-around at Tower IV Dormitory. This will safely route the traffic around the sewer construction.

Sometime during the week of April 1-9 we can expect the sewer to cross the Gym Road. This will necessitate the closing of the road and parking there for two days. Those cars parked east of the pipe line construction will have to exit via Tower II and I roadway to Upton parking lot.

II. COLLEGE CARS. As the College has only six vehicles for use in travel by faculty and staff, it is imperative that car request forms be filled in accurately as to the time needed and time to be returned. This helps the Travel Office to schedule the use of the cars more efficiently and provides maximum use of the few cars we have. Failure to return cars on time may cause others not to have use of them; this is especially true on weekends when no one is available to reschedule other vehicles. Therefore, your cooperation in returning vehicles on time will be greatly appreciated.

III. MILEAGE ALLOWANCE. Effective April 1, 1971 the mileage allowance for personal vehicle use is increased from \$.105 to \$.11 a mile. Travel vouchers should be adjusted to the new rate.

IV. PAYROLL. The 1971-72 fiscal year includes 366 days. Salary figures are presently based on a 365-day year. As a result 1971-72 fiscal bi-weekly salaries will be slightly lower than current bi-weekly salaries. Faculty and staff may expect this adjustment to begin in their April 7 pay check.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. HONORS CONVOCATION. Honors Convocation will take place on April 22 at 1:00 PM in Upton Hall Auditorium. Class schedules will not be adjusted this year. All honor students should be allowed to attend the ceremonies without penalty. Those instructors who wish to dismiss classes in order to attend the convocation are free to do so.

II. FACULTY COUNCIL. Faculty Council, at its March 22, 1971, meeting, approved the Bachelor of Science in Engineering Technology program.

The next meeting of Faculty Council will be held on April 5.

III. FINAL EXAMINATIONS. Final Examinations will be distributed to faculty and staff Thursday, March 25. Copies of the Examination Schedule and Room Assignment Schedule should be posted in each building and departmental office.

COLLEGE BULLETIN

Volume XIV Number 36

March 26, 1971

SPECIAL ISSUE

FROM THE PRESIDENT

I. APPROVAL OF NEW COLLEGE BY-LAWS. By authority of Chancellor Boyer and with the concurrence of the College Council, I hereby declare that the new By-Laws pertaining to the State University College at Buffalo are in effect with the provision that existing councils and other bodies provided under the so-called old by-laws will remain in effect on an ad hoc basis with the present officers and membership until such time as the College Senate provided in the new By-Laws shall have been elected and shall set up appropriate committees to take over functions carried by existing committees under the old by-laws.

I am asking the Chairman and the members of the present Committee on Appointments, Elections and By-Laws to move forward at once with election of members of the new Senate. [see item below] At the Special Faculty Meeting called next Thursday, April 1 in Upton Auditorium at 4:00 p.m., the Committee will present a slate of candidates and there will also be opportunity for nominations from the floor. Professor Henry Collins, Chairman of the Committee, and his colleagues are working on a list of eligible voters pursuant to the new By-Laws and will make available such a list.

The action represents, I believe, a real milestone in the history of our College. It is fitting that as we look forward to our Centennial Year we proclaim a form of campus government which more nearly approximates the ideal of an academic community in which there is participation by faculty, students and administrators.

All those who participated in the development of the new document and saw it through the many weary hours, weeks and indeed years of discussion and improvement deserve the thanks of all of us. Additional copies of the By-Laws are being printed and will be available after spring recess and distributed via campus mail.

FROM THE APPOINTMENTS, ELECTIONS AND BY-LAWS COMMITTEE:

TO ALL ELIGIBLE VOTING FACULTY.

I. Lists of Faculty and Staff eligible to vote under the new By-Laws will be posted in the following places on Monday, March 29:

Academic Affairs Office--RH208
Butler Library--Reserve Room

Information Desk--Student Union
Biology-Chemistry Office--NS313

Please note that the up-dated lists now include personnel in all the categories specified under Article II of the new By-Laws.

II. At the Special Meeting of April 1, 1971, 4:00 p.m., Upton Auditorium, the Committee proposes to move the following:

That the slate of nominees for the 15 at-large members to the College Senate, as published in the College Bulletin Special Issue of March 4, 1971, be accepted.

III. Elections of the 15 at-large members to the College Senate will be held in accordance with Art. III, Section B, sub-section c of the new By-Laws: "Fifteen members of the faculty elected at large by a majority vote of the faculty."

IV. The number of votes received by the nominees will be published in a Special College Bulletin. Any candidate who does not wish to participate under these conditions should request that his name be withdrawn from the slate.

V. After nominations have been received from the floor for the 15 at-large members to the College Senate, the Committee recommends that voting take place as soon as the appropriate ballots can be prepared. It is also recommended that ballots be distributed and received by the Department Chairmen. However the Committee is prepared to proceed with the election at the meeting if this is the desire of the voting faculty.

ADMINISTRATIVE CONFERENCE

As previously announced, the meeting of the College Administrative Conference on the 1971-72 budget will be held Monday, March 29 at 3:00 p.m. in the Burchfield Center.

JOINT STATEMENT ON SUPPORTING PROGRAMS FOR DISADVANTAGED STUDENTS

The following joint statement was issued March 25, 1971 by President Robert L. Ketter and President E. K. Fretwell Jr.:

"Both the State University of New York at Buffalo and the State University College at Buffalo have found a great source of pride and encouragement in the success of our students from disadvantaged backgrounds. The vast majority of these students have demonstrated above average achievement, and the communities in which they will reside upon graduation will be enriched and strengthened by their presence.

"We express great concern, however, about references currently being made in the State Legislature and elsewhere about possibly reducing financial aid funds for students in Educational Opportunity Programs. Economically disadvantaged students use a combination of grants, work-study, and loans to supplement their own meager resources, and a reduction in the average amount available to them can markedly reduce the number able to continue their education or do so successfully.

"We strongly endorse maintaining, at least, the current level of financial aid support for the students in these programs."

OFFICIAL NOTICES

FROM THE PRESIDENT

I. BUDGET STRINGENCIES. At the Administrative Conference March 29, 1971, I indicated that mandated savings of \$460,000 would be subtracted from the College budget for the fiscal year beginning April 1, 1971 and that additional subtractions might also be forthcoming.

On April 2 we were advised of a cut of an additional \$400,000. Further details will be announced later. In the meantime, I have asked Vice President Greenwood to confer with the Faculty Committee on Fiscal Policies and Staff Allocations, and I have asked the other vice presidents to come up with suggested actions which will generate cash savings and hurt the educational programs of the College as little as possible.

II. CONTINUED RESTRICTIONS ON TRAVEL. On December 5, 1970 we put into effect procedures whereby travel would be approved only upon the recommendation of the appropriate Vice President. Procedures put into effect at that time will continue in effect until further notice as a result of the budget emergency. In other words, only that travel authorized in writing by a vice president will be funded by the College.

FROM THE VICE-PRESIDENT FOR ADMINISTRATION

I. CONSTRUCTION OF STORM SEWER. Construction of the new storm sewer is expected to enter the Gym Road and cross the mall April 8-13. Access to the parking areas east of the sewer cut will be from the Upton Hall parking lot. Starting April 14 the progress of the work will be across the parking lot behind the present snow fence towards the Campus School. Construction will proceed to Rockwell Road the week of April 26.

II. PAYROLL. The 1971-72 fiscal year includes 366 days. Salary figures are presently based on a 365-day year. As a result 1971-72 fiscal bi-weekly salaries will be slightly lower than current bi-weekly salaries. Faculty and staff may expect this adjustment to begin in their April 7 pay check.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. COURSE PROPOSALS. The following course proposals have been received in the Office for Academic Affairs: Anth 309 - Peoples of the Far East; ECS 429 - Business Organization, Management and Operation. CHANGE: Sci 409 - Change title from History of Science to Introduction to the History of Science.

II. FINAL EXAMINATIONS. Final Examination Schedules have been distributed to all faculty and staff. Administration and Student Personnel are asked to post this information for student use. Additional copies may be obtained from the Mail Room, ext. 5515. REMINDER: COLLEGE POLICY REQUIRES that the examination period be used by the instructor either for administering examinations or conducting post evaluation meetings with students.

III. FACULTY COUNCIL. Faculty Council, at its April 5, 1971 meeting, approved the B.A. in Art History program.

IV. FACULTY COUNCIL. Faculty Council approved the following resolution for transmittal to Chancellor Boyer: Resolution of Faculty Council of State University College at Buffalo Regarding the Proposed Elimination of Paid Sabbatical Leaves for State Employees.

WHEREAS arrangements for activities to be carried out during academic sabbatical leaves must be made many months in advance of taking the leave;

WHEREAS many members of the faculty of this College have already made detailed plans and binding commitments for sabbatical leaves during the coming academic year;

WHEREAS the College has already made a commitment to many faculty members to grant them paid sabbatical leaves during the 1971-72 academic year; and

WHEREAS it has been determined that these leaves will have significant effects upon the quality of the instructional programs of the College, therefore,

BE IT RESOLVED that this Faculty Council opposes in every respect the legislation now pending before Governor Rockefeller to forbid the granting of sabbaticals to employees of the State (including faculty members of the State University of New York) during the 1971-72 fiscal year.

FROM THE DEAN OF THE ARTS

I. There will be a meeting of the Faculty of the Arts on Thursday, April 22 in Communication Center W-2 at 4:00 PM. All students under the Faculty of The Arts are invited to attend this meeting.

FROM THE DIRECTOR OF THE LIBRARY

I. SCHEDULING VISITS TO BUTLER LIBRARY. From time to time we are visited by a teacher with a whole class of children or young adults. Upon investigation it turns out that in moments of enthusiasm some of our faculty members, or indeed sometimes staff members, have expressed the glories of Butler Library and have urged friends to bring classes for a visit. While we are flattered, this sort of things does disturb service. If you believe that a class can benefit by a visit, please first contact either Dr. E. A. Brunelle, ext. 6306, or Leonard Nowicki, ext. 6309. This will give us some forewarning. It will also allow us to prepare the sort of guided tour that will most benefit the particular class.

Having said this much it is clear that I have also suggested we not have classes going through Butler Library unguided. This, too, might be waived at the time of the telephone conversation, especially if the person in question gives evidence of knowing our collection quite completely.

FROM THE APPOINTMENTS, ELECTIONS AND BY-LAWS COMMITTEE. We are proceeding with the elections for 15 at-large members to the College Senate as prescribed under the By-Laws Art, III, Section B, sub-section c in accordance with the motion adopted at the Special Faculty Meeting of April 1, 1971 "that ballots be distributed and received by department chairmen." As indicated on the ballot please note that ballots are due in the chairmen's offices or other designated individuals by Noon Thursday, April 8, 1971. As soon as votes are tallied the results will be published and, if necessary, another election will be held to fill the remaining vacancies.

Please contact the chairman of the By-Laws Committee or any members for information or clarification concerning this election.

III. STUDENT ACTIVITY FEES. Resolution adopted by the Board of Trustees on March 24, 1971: Resolved that the following policy governing student activity fees at the State-operated campuses of the University, which shall be effective in relation to the collection, appropriation and disbursement of all such fees for the 1971-72 academic year, and thereafter, to be Section 302.14 of Subchapter A of Chapter V of Title 8 of the Official Compilation of Codes, Rules and Regulations of the State of New York, as hereinafter amended, be, and hereby is, approved:

302.14 Student Activity Fees (a) Referendum. Prior to the close of the academic year 1970-71, and every four years thereafter, the student body (or such components thereof as may be designated by the chief administrative officer, or his designee) at each state-operated campus shall determine by referendum whether student activity programs shall be supported by either voluntary or mandatory student fees. The implementation of the initial determination shall become effective in relation to the appropriation, collection and disbursement of such fees for the 1971-72 academic year. The determination resulting from each referendum shall remain in force for a period of four academic years, except that at any time and from time to time within such four year period a subsequent referendum held in accordance with the constitution and by-laws of the representative student organization or organizations may effect a change in this determination with respect to the following academic year and to continue for the remaining portion of the four year period.

The College Student Association is proceeding on April 21 - 23 with a referendum to determine whether collection of Student Activity Fees shall be voluntary or mandatory on our campus.

FROM THE VICE PRESIDENT FOR ACADEMIC AFFAIRS

I. FACULTY COUNCIL. Agenda for Faculty Council meeting on April 19 at 3:10 PM in Butler Library 313: (1) Curriculum Committee - B.S. in Distributive Education, Physical Education requirement, (2) Committee on Instruction, Research and Library, (3) Application of Ombudsman Concept.

FROM THE DIRECTOR OF CENTENNIAL ACTIVITIES

I. CENTENNIAL FUND RAISING CAMPAIGN. The Development Board of the College has launched a Centennial Campaign to raise funds for the Centennial and the College. The first stage of the Campaign is to raise \$20,000 for the support of Centennial programs. The second stage is to raise funds for named professorships, financial aid to faculty on sabbatical leave, scholarships for foreign students, scholarships for students wishing to study abroad, scholarships for needy students, and seed money for other programs.

The Development Board has twenty-four members, fourteen representatives of the community, three students, two faculty, two administrators, and one representative each of the College Council, the Alumni Association, and the Alumni Foundation.

Centennial observances are traditionally used to develop institutional pride and self-respect. This is achieved by looking at the one hundred years of the College history and noting its achievements. But a more important aim of a Centennial is to look to the future and try to improve the College. An important way to accomplish this is to launch a Centennial Campaign to raise money to help attain the excellence we all desire.

Someone has observed that there are a great many institutions these days, including most of the State Colleges in the United States, conducting campaigns to raise funds in the private sector. True. There is every reason why this should be so. A public college that disdained the effort would be limiting its ability to achieve its legitimate goals. We welcome faculty reaction and support.

Martin B. Fried
Director of Centennial Activities
Rockwell Hall 216, Ext. 6422

SPA MEETING

As soon as negotiations permit a meeting will be held and announced through both the College Bulletin and SPA Newsletter.

WAIVERS FOR HOLIDAY PAY

Contracts between the State and Civil Service employees permit the signing of waivers or the revocation of previously signed waivers during the period April 1 - May 15, 1971. Unless a waiver is signed an employee directed to work on a holiday must be paid an additional day's pay. The waiver of this right allows the employee to take a compensatory day in lieu of the additional pay.

Once a waiver is signed it remains in force for the balance of the contract period (March 21, 1972). Waivers signed a year ago will remain in force unless revoked during the period April 1 - May 15, 1971. Once a decision has been made it remains in effect for all legal holidays. An employee may not choose to be paid for some holidays and take compensatory time for others.

If you wish to sign a waiver or revoke an existing waiver please contact the Personnel Office as soon as possible for the necessary forms. Waivers or revocations not received by May 15, 1971 will not be honored.

Keep in mind that the academic calendar conflicts with Civil Service holidays on four separate occasions: Columbus Day, Veterans' Day, Election Day and Lincoln's Birthday. If you expect that you may be directed to work on these days and prefer time off later instead of additional compensation, you should sign a waiver. If you prefer the extra pay you should not sign a waiver.

If you have any questions please call the Personnel Office.

OFFICIAL NOTICES

FROM THE PRESIDENT

I. ADMINISTRATIVE CONFERENCE. A meeting of the College Administrative Conference will be held Monday, May 3 at 2:00 PM in the Burchfield Center to discuss implementation of the 1971-72 budget changes. The meeting is open to the members of the faculty and others.

II. LEAVE OF ABSENCE AND SABBATICALS. Although guidelines for the implementation of the recent legislation passed by the legislature and signed by the Governor with regard to Leave of Absences and Sabbaticals have not been firmed up, it is clear that the legislative restriction does not apply to regular vacation periods, sick leaves authorized by law or Leaves of Absence granted without compensation. The law also provides that special exceptions may be granted by the Director of the Budget when a Leave of Absence would inure to the benefit of the State. In accordance with this exception it is now proposed that requests for Leave of Absence or Sabbatical for the academic year 1971-72 be submitted to the Director of the Budget, through the Chancellor's Office, with appropriate justification under each of the following headings:

1. Will the Leave of Absence add to the operating cost of the campus.
2. Would failure to approve the requested leave create an extraordinary situation either for the campus or the faculty member involved as a result of pre-existing commitments such as a foundation grant or fellowship.
3. Will the focus of sabbatical research and study inure to the benefit of the University and the State.

Justifications for all sabbaticals that were approved locally have been prepared by the Office of Academic Affairs and have been forwarded to Vice Chancellor Harold Delaney.

III. TRAVEL RESTRICTIONS. On April 23 I was advised by the Chancellor's Office that hereafter out-of-state travel will be reimbursed by the State only if there is advance approval for the specific trip by the Director of the Budget in Albany (Richard Dunham). This pertains to State funds and also Federal or other funds subject to State audit. Please address any inquiries to your Dean. We have no knowledge how long this ruling will remain in effect. Should there be any change at some future time, a prompt announcement will be made.

During the current budget emergency no State trips should be taken except when absolutely necessary. Each Dean will be responsible for interpretation. Please confer in advance of any contemplated trip with your Dean.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

OFFICIAL NOTICES

FROM THE PRESIDENT

I. A year has passed since the events at Kent State and Jackson State campuses commanded the attention of the entire nation. As we reflect today on the tragic deaths of those students, we must dedicate ourselves anew to maintaining the university as a forum for the free and rational discussion of ideas. In the year since last May I hope that we have become increasingly aware of at least three axioms for our time: that this College, and higher education generally, can no longer stand in a vacuum separate from the surrounding world; that violent confrontation achieves nothing; that we have a justified concern with improving the society in which we live.

II. SENATE ELECTION. Early election of Faculty Senators-at-large to the new College Senate is vital so that the new Senate may become operative before classes begin next September. Please see the announcement below from the Committee on Appointments, Elections and By-Laws.

FROM THE APPOINTMENTS, ELECTIONS AND BY-LAWS COMMITTEE

I. ELECTION OF 15 AT-LARGE MEMBERS TO COLLEGE SENATE. As announced in the Special Bulletin dated April 30, 1971, a third ballot is being circulated to the voting faculty to be returned on Monday, May 24, 1971.

FROM THE VICE-PRESIDENT FOR ACADEMIC AFFAIRS

I. FACULTY COUNCIL. Faculty Council, at its May 3, 1971 meeting, approved for recommendation to the President: (1) Revision of the first paragraph of the graduation requirements (page 58 of the General Catalog) to read as follows: Each student must complete the prescribed curriculum for his major with a minimum cumulative quality-point average of 2.0 in all courses completed. The quality-point average is determined by dividing the total number of quality points earned by the total number of semester hours completed, except for semester hours completed in earning "E" and "F" grades when those "E" and "F" grades have been subsequently changed to passing grades.

(2) Revision of the policy on repeated courses (page 54 of the General Catalog) to read as follows: When a failed course is repeated and passed, only the passing grade and semester hours completed are included in computing the semester average and accumulative average.

(3) Revision of the policy on dropping a course (page 57 of the General Catalog) as follows: A student may drop a course without penalty at any time prior to the end of the tenth week of a semester or prior to the end of the fifth week of a summer session and receive a "W" for that course. Instructors are required to apprise students of their academic standing in a course no later than the end of the ninth week of a semester or the fourth week of a summer session. If a student does not process an official drop and fails to continue with the course, his grade will be "E."

(continued)

(4) Revision of the pass-fail system (page 56 of the general catalog) to (a) extend the privilege of taking courses on a pass-fail basis to first-semester freshmen, (b) increase the maximum number of hours a student may take in his undergraduate career to 24 per semester, (c) set the deadline for declaring intention to take a course on a pass-fail basis to the end of the fifth week of the semester.

(5) The proposed B.S. degree with a major in Criminalistics.

(6) The following policy on transfer of credits from another institution: The Registrar's Office is to retain and use the entire record of each transfer student for all courses for which he is granted transfer credit, including the cumulative average, as well as grades.

II. COURSE PROPOSALS AND REVISIONS. The following new course proposals and revisions have been received in the Office of the Vice-President for Academic Affairs: NEW COURSES: I.D. 120 - Fundamental Reading for the Disciplines; I.D. 121 - Speed Reading; Music 309 - Art Music of Asia: India, Indonesia and Japan; Music 457 - Practicum in Teaching Music in the Elementary Schools; Math. 124 - Fundamentals of College Mathematics. OFFICIAL NOTICES

FROM THE PRESIDENT

I. VICE PRESIDENT FOR ACADEMIC AFFAIRS. I am pleased to announce the appointment of Dr. Donald Schwartz as Vice President for Academic Affairs pursuant to recent action by the State University of New York Board of Trustees. Dr. Schwartz will arrive on campus in August. (Attached is the complete press release announcing Dr. Schwartz's appointment.)

In making this announcement, I wish to express my gratitude to the Search Committee for Academic Affairs co-chaired by Professor Carlton Bauer for their long and thoughtful work in screening potential candidates for this position.

I wish to single out for special praise Dr. Walter Greenwood who has ably served for the past academic year as Interim Vice President for Academic Affairs. Dr. Greenwood will be returning to the faculty as Professor of English in September.

II. PROMOTION. Upon the recommendation of the Vice President for Academic Affairs, the name of Mr. Paul R. Homer has been forwarded to the Central Office of State University for approval for promotion to the academic rank of Professor.

III. APPROVAL OF ACADEMIC REGULATIONS. The following revisions in the academic regulations of the College as recommended by Faculty Council have been approved (See Bulletin of May 6, 1971):

1. Revision of the first paragraph of the graduation requirements (page 58 of the 1970-71 General Catalog) to read as follows: Each student must complete the prescribed curriculum for his major with a minimum cumulative quality-point average of 2.0 in all courses completed. The quality-point average is determined by dividing the total number of quality points earned by the total number of semester hours completed, except for semester hours completed in earning "E" and "F" grades when those "E" and "F" grades have been subsequently changed to passing grades.
2. Revision of the policy on repeated courses (page 54 of the 1970-71 General Catalog) to read as follows: When a failed course is repeated and passed, only the passing grade and semester hours completed are included in computing the semester average and cumulative average.
3. Revision of the policy on dropping a course (page 57 of the 1970-71 General Catalog) as follows: A student may drop a course without penalty at any time prior to the end of the tenth week of a semester or prior to the end of the fifth week of a summer session and receive a "W" for that course. Instructors are required to apprise students of their academic standing in a course no later than the end of the ninth week of a semester or the fourth week of a summer session. If a student does not process an official drop and fails to continue with the course, his grade will be "E".

(continued)

4. Revision of the pass-fail system (page 56 of the 1970-71 General Catalog) to:
(a) extend the privilege of taking courses on a pass-fail basis to first-semester freshmen, (b) increase the maximum number of hours a student may take in his undergraduate career to 24, (c) set the deadline for declaring intention to take a course on a pass-fail basis at the end of the fifth week of the semester.
5. The following policy on transfer of credits from another institution: The Registrar's Office is to retain and use the entire record of each transfer student for all courses for which he is granted transfer credit, including the cumulative average, as well as grades.

FROM THE VICE PRESIDENT FOR ADMINISTRATION

I. AIR CONDITIONERS. Until further notice, new air conditioning units will not be ordered nor installed through College facilities. In addition, personal air conditioning units should not be installed without permission from the Director of Physical Plant, Mr. J. Goupil. Increased electrical load demand and shortage of air conditioning mechanics prohibit installation of additional units at this time.

II. BUILDING SECURITY - ACADEMIC FACILITIES. The current policies and procedures concerning use of academic facilities after building closing are hereby rescinded. The following guidelines are to be followed effective July 1, 1971.

1. The Security Department will no longer issue building passes. In the interest of personal safety and security, student access to academic facilities after closing is prohibited unless the student is supervised by a faculty member. Permission to use academic facilities after regular hours should be obtained from department chairman. Chairman in turn should notify the Security Department of the facility to be kept open and what faculty or staff will be present to supervise the activity.
2. The Security Department will continue to open all academic buildings by 7:45 a.m., Monday-Friday and any facilities which require opening on Saturday and Sunday. The Security Department will close all academic buildings at 10:00 p.m., Monday-Friday, and at 2:00 p.m. on Saturday and Sunday.
3. The Security personnel will recheck all buildings after closing and anyone found in them without the above approvals will be asked to leave. Any consistent student violators will be referred to the Student Conduct Committee. Any non-student violator may be subject to arrest.
4. Faculty wishing to work after buildings are closed should call Security stating that they will be working late and giving their expected time of departure. It is also required they call Security when they are leaving. This procedure will save Security personnel in checking out any activity in these buildings and also insure a prompt response if we do not hear from the faculty member at the expected time. Again, the objective is the safety and security of faculty, staff and students.
5. The Security Department will no longer unlock any facility for unsupervised activity. The Security men will require identification from anyone in a building after closing and will confiscate any unauthorized keys which have been borrowed.

III. CHECK DISTRIBUTION. Effective Thursday, June 17, the Payroll Office will open at 7:45 a.m. on paydays for check distribution.

Dr. Schwartz holds a Ph. D. in Chemistry from Pennsylvania State University. He has done Post Doctoral work at the University of California at Berkeley, and has a Master's of Chemistry degree from Montana State University and a Bachelor of Science from the University of Missouri.

Describing himself as a "fervent believer in the need for academic change," Dr. Schwartz has served as Program Director for Special Projects in Undergraduate Science Education for the National Science Foundation. In this capacity he developed such new programs as the College Science Improvement Program for four-year institutions and Preservice Education for Secondary School Teachers of Science. While on the staff of N.S.F., Dr. Schwartz served as consultant to the Organization of American States, making recommendations for university programs after visiting six countries in Central and South America. Preceding this experience, he served as joint science advisor on chemical education to the American Chemical Society, the U.S. State Department, and N.S.F. for six Central American national universities.

Recent professional activities include being a contributor/participant in the 1970 International Conference on Education in Chemistry. For the American Association for the Advancement of Science he has formulated guidelines, standards, and recommendations for research and development for pre-service science education of elementary school teachers.

Dr. Schwartz has published over 50 articles ranging from basic chemical research papers to general statements on education. Many of his papers have received international recognition, particularly his studies of titanium and zirconium metals. He has also been involved in the research which led to the discovery of slow release nitrogen fertilizer from coal and related materials. This discovery has significant agricultural implications. He also has four patents involving octane ratings of gasoline.

A native of Scarsdale, New York, Dr. Schwartz is married to the former Lois Fields. Their daughter, Leanne, is entering her sophomore year at Grinnell College in Iowa. Their three sons are Mark, 15; Scott, 10; and Bradley, 6.

Dr. Fretwell singled out for special praise Dr. Walter Greenwood who has served for the past year as Interim Vice President for Academic Affairs. Dr. Greenwood will be returning to the faculty of the College as Professor of English in September.

OFFICIAL NOTICES

FROM THE PRESIDENT

I. FACULTY-STUDENT ASSOCIATION. I am pleased to announce the appointment of Professor Howard MacAdam as Executive Director of F.S.A. effective August 1, 1971. The appointment was made by resolution unanimously adopted on June 23 by the Board of Directors of the Faculty-Student Association. Mr. MacAdam will undertake this responsibility in addition to his position as Director of Intercollegiate Athletics at the College.

A concurrent resolution of the F.S.A. Board of Directors recognized the outstanding service to F.S.A. and to the entire College provided by Dr. Steven Gittler who has been Executive Director of the Association over the past two years. I wish to add my sincere congratulations and thanks to Dr. Gittler for his fine work in this difficult and important task assumed in addition to his regular duties as Director of Continuing Education and Summer Session.

II. BILL #6299. We have been advised by the Central Office that Governor Rockefeller has vetoed Bill #6299 which would have prescribed a minimum teaching load for college and university faculty members in New York State. In vetoing the bill the Governor noted that the proposed legislation failed to recognize that the determination of a reasonable teaching load depends on many complex factors.

III. VICE CHANCELLOR FOR LEGAL AFFAIRS. Walter J. Relihan has been appointed Counsel and Vice Chancellor for Legal Affairs with the Central Office of State University of New York effective June 30, 1971. Mr. Relihan has served the Office of General Services as counsel since 1967. Prior to that time he was a member of a Binghamton law firm. A graduate of Cornell University and a member of the New York State and American Bar Associations, Mr. Relihan has also been admitted to practice before the Supreme Court of the United States.

IV. COLLEGE HEARING COMMITTEE. Upon recommendation of the College Hearing Committee, chaired by Professor Brueckman, I am pleased to announce that the following students are appointed as student members for this summer: Mrs. Joann Jones, Junior, majoring in Human Development; Thomas Zera, Senior, majoring in Industrial Technology; and as alternate, Michelle Gimbrone, Senior, majoring in Philosophy. These members will replace the three students who are graduating this summer. Their term will become effective July 1 and will end in the Fall as soon as the Hearing Committee completes the selection of the new regular members for the Academic Year 1971-72.

FROM THE APPOINTMENTS, ELECTIONS AND BY-LAWS COMMITTEE.

I. ELECTION OF THE 15 AT-LARGE MEMBERS TO THE COLLEGE SENATE. Upon the recommendation of the Faculty Council, the By-Laws Committee has prepared a fourth ballot to be circulated during the summer session. Ballots are being directed to Chairmen's offices or other designated individuals for distribution to eligible voting faculty members. The By-Laws Committee urges the Chairmen to make every effort to contact faculty members who may be off campus. The Office of the Vice-President for Academic Affairs is ready to assist in locating faculty who may not have left a forwarding address. Ballots are to be returned no later than Monday, August 9, 1971.

EXCHANGE PROFESSORSHIPS ABROAD

Under a new arrangement many more of our number will be paid to spend a period abroad. They will do so as exchanges with a campus such as Didsbury, England or the University of Costa Rica. No administration of student programs is required of such professors. The economical arrangements are made possible by an exchange of jobs and housing. An exchange professor will: (a) continue on same salary (Travel costs are offset by lower costs abroad), (b) teach his own discipline (in English in most cases), (c) exchange housing with a professor from the university involved and compensate him for minimum costs of commuting between his home and the SUCB campus, (d) perform a normal amount of academic advising of SUCB students enrolled at the foreign institution; (e) surrender his summer session teaching option to his counterpart. Negotiations are in progress to develop similar cooperative arrangements in Mysore, Nairobi, Siena, Sydney, Tokyo. Many would use English even in San Jose and Siena, and English only will be required elsewhere.

Further information is available from Mrs. Jean Young or Dr. Reginald Smart in the International Education Office, RH 100, ext. 5331.

VI. STUDENT ACADEMIC GRIEVANCE PROCEDURES. As a result of the deliberations of the ad hoc committee on Campus Concerns (Drescher Committee), various aspects of faculty and student relations were examined at length. The proposed student academic grievance procedure developed by the committee, adopted by the Faculty Council on January 11, 1971, and forwarded to the President is approved as a guide to the solution of problems arising in this area:

When a student believes that an instructor fails to meet his professional obligations (e.g., failure to meet classes regularly or on time, absence from scheduled office hours, capricious evaluative procedures, a pattern of demeaning behavior, etc.), he shall first confer with the professor for the purpose of resolving the difficulty. Having failed to resolve the difficulty, the student shall inform the Chairman of the Department of the problem. The Chairman, functioning primarily as mediator, shall discuss the complaint with the professor in question, informing the student of the results of this discussion. Before any action, the Chairman shall request the Dean and the Vice-President for Academic Affairs for any information relative to this and similar cases concerning the particular professor that might have been filed in their respective offices.

If the problem persists, the Chairman shall take the matter up with the Department, or appropriate committee within the Department, for action. When the problem is presented to the Department or a committee thereof, the Chairman shall present the case. The Chairman and the faculty member involved shall not vote. This decision shall be binding on the Chairman. A memorandum summarizing the findings in the case shall be incorporated into the professor's departmental file and forwarded to the Dean's office with or without a recommendation for action.

If the problem involves the department chairman, the student may appeal directly to the Division Director or Dean, who shall follow the procedures outlined above for chairmen.

Each major Faculty shall establish a pool of students and faculty sufficiently large to guarantee representation of each department or teaching unit of the Faculty to constitute a board of appeal for cases where students or faculty wish to appeal beyond the departmental level. Faculty members shall be elected by each department or teaching unit. Student representatives shall be selected in the same manner each department or teaching unit utilizes to involve students in appropriate departmental committees.

When a case is brought to the Dean, acting as chairman, he shall select, by lot, two students and two faculty members from the pool to adjudicate the matter. None shall be from the departments of the parties involved. The Dean shall be a voting member of the board of appeal. Jurisdiction is limited to academic matters.

(continued)

VI. (Continued)

The board of appeal shall hold closed official hearings at which both parties shall be present. Each may bring one adviser. Transcripts of the proceedings shall be kept. Decisions of the board of appeal shall be communicated, in writing, to both parties and to the Chairman of the Department involved.

While it is anticipated that the board of appeal will be able to dispose finally of most cases, the right of either party to appeal to the Vice-President for Academic Affairs, the President of the College, or to any other legally established grievance board is held inviolate. However, appeals beyond the Dean's board of appeal shall be in writing and include the recommendation of the board of appeal.

VII. OFFICER IN CHARGE. During the absence of the President, Dr. Donald Schwartz will be in charge of the College and is authorized to make any necessary decisions. In the case of his absence, or that of any other person listed below, please be guided by the following: Vice-Presidents: Donald Schwartz, Sigmund A. Smith, Thomas J. Quatroche. Deans: Sherman F.
