BUILDER: gable shingled. Round arched panel with sunburst design.

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE: A simple version of a Queen Anne style. Similar to 24 Elam Place in building plan. Elam Place, a one-block street between Crescent Avenue and Greenfield Street just north of Jewett Parkway, is located on the lands of Elam R. Jewett and was named after him. It was deeded to the city by his widow in 1889. A similar street appears on Olmsted's early 1870's maps of "The Parkside," although that street was angled to connect Greenfield with the intersection of Crescent and Jewett. Elam Place also follows Olmsted's rule that a subdivision street "not lead with special directness toward the town."
