The use of decorative exposed rafter tails emphasizes Craftsman styling that is juxtaposed to Classical details found in wing and window surrounds. Originally the Buffalo and Williamsville Macadam Road, Main Street was a pre-existing street at the time Olmsted designated it as the eastern border for "The Parkside." While the streets within the subdivision were designed specifically to avoid commercial development, this portion of Main Street became a combination of commercial and residential structures. It was also a major thoroughfare into the city, allowing easy access to downtown from this suburban neighborhood.
