20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:

Typical example of the American Four Square that was built in the Parkside neighborhood. This section of Amherst Street, between Colvin and Parkside, was conceived by FLO around 1873 as part of a residential "suburb" adjacent to Delaware Park. This suburb was called "The Parkside" by Olmsted and appears on an 1876 map drawn by him as a proposed area of curved winding streets on the north and east sides of the park. This section of Amherst St. was extended from Delaware Ave. to Main St.. The street follows Olmsted's original plan maintaining the picturesque character that he envisioned for the streets surrounding the park.
