Fine example of a Colonial Revival Style with Queen Anne influence. The house was built for Daniel H. Stoll at a cost of \$7,600. Humboldt Parkway was named for Alexander Humboldt, a noted geologist, in honor of his work as a Naturalist. The Parkway was conceived by Olmsted as a broad thoroughfare, designed with central roads and walkways for "pleasure travel." This area would provide a setting for short walks, a playground for children and an "airing ground for invalids." Roadways outside of this area would "answer the purpose of a street for ordinary travel."
