Glass paneled door flanked on one side by small rectangular leaded window. First floor window, single hung with rectangular leaded top light. Entablature window surrounds. Second floor

SIGNIFICANCE

19. DATE OF INITIAL CONSTRUCTION: 1905 semi-hexagonal oriel. Double hung 1/1 windows. Entablature
ARCHITECT: window surrounds. Left end bay second floor has glass and wood paneled porch door flanked on one side by
BUILDER: double hung 1/1 window. Pedimented gable has three-part window, double hung 1/1 lights with entablature window head.

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:

A gable frame residence with Colonial Revival style details. Greenfield Street extends from Amherst Street to Main Street, paralleling the Belt Line Railroad. Although Greenfield Street was deeded to the city in 1889, it was laid out in 1886 by the Parkside Land Company, which had purchased the land between Amherst Street and West Oakwood Place from two major landowners, Elam R. Jewett and Washington Russell. A street very similar in configuration appears in Olmsted's early 1870's maps of "The Parkside." Greenfield follows Olmsted's plan for providing easy access to major streets while being too narrow for extensive commercial development, although some commercial buildings can be found near Main Street.
