15. RELATED OUTBUILDINGS AND PROPERTY:  
 a. barn  b. carriage house  c. garage   
 d. privy  e. shed  f. greenhouse   
 g. shop  h. gardens   
 i. landscape features: large tree in front of house  
 j. other: \_\_\_\_\_
16. SURROUNDINGS OF THE BUILDING (check more than one if necessary):  
 a. open land  b. woodland   
 c. scattered buildings   
 d. densely built-up  e. commercial   
 f. industrial  g. residential   
 h. other: \_\_\_\_\_

17. INTERRELATIONSHIP OF BUILDING AND SURROUNDINGS:  
 (Indicate if building or structure is in an historic district)

Building is situated on a standard sized building lot within Olmsted's Parkside subdivision. House is to the east of Delaware Park which was designed by F.L.O. and is listed on the National Register.

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known):

Two story Shingle style house. Multiplaned roof. Roof extends over front entranceway and is supported with stone piers. First floor is stone. Second floor is shingled. Hipped dormer on west side of front facade.

**SIGNIFICANCE**

19. DATE OF INITIAL CONSTRUCTION: 1890

ARCHITECT: Marling & Burdett

BUILDER: \_\_\_\_\_

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE: Unique house within the Parkside neighborhood. Jewett Parkway was originally opened in 1875 by Elam R. Jewett whose estate was at the southwest corner of Main Street and Jewett Parkway. The street followed Olmsted's plan for the Parkside neighborhood and can be seen on his 1876 map of the City of Buffalo. In 1884 Elam Jewett deeded the street to the City of Buffalo, "on condition that it shall be placed in charge of the Park Commissioners, and be by them maintained as a Park approach, in the same manner as the other Park approaches now are or hereafter may be maintained." (See attached sheet.)

94 & 96 Jewett Parkway (continued)

20.(cont.)

The Church of the Good Shepherd, Parkside's first church, was built as a memorial to Reverend Edward Ingersoll in 1888 and was designed by architects Marling and Burdett. Today the complex includes four interconnecting buildings: the church, the Children's Chapel (1891), Jewett Memorial Hall (1923), and rectory (1890), with the sexton's cottage tucked behind the church.

Good Shepherd is a cruciform building of Gothic character, with low walls and roof; a massive tower with short broad spire; and a porch. The walls are of blue limestone laid in horizontal courses and the roof is of red tile. The interior walls and open roof-ceiling are of rough painted plaster and oak was used throughout in the timbers, arches, braces, wainscotting, and furniture. While the low-pitched roof does not give a feeling of height, the broad sweep of the arches gives an effect of spaciousness.

Three windows are of special interest: the Tiffany representation of the Good Shepherd in the chancel, the one of English subject glass depicting the Presentation of our Lord in the temple done by Booth of London, and the Tiffany window in the Children's Chapel. The images pictured in this window are the portraits of the children of William Phelps Northrup.

The original plan for this church was prepared by Silsbee and Marling. In 1888 the scheme was reworked by Marling and his new partner, Herbert C. Burdett (1855-1891), a former assistant in the office of H. H. Richardson, who, when he died prematurely, American Architect and Building News praised as "one of the most brilliant and successful of our young architects." The sturdy Romanesque chapel which he helped design developed from open imitation of Richardson's small libraries, especially the Ames Library in North Easton, Massachusetts. Tiffany glass fills the windows in the chancel and the children's chapel, which was added in 1891.
