Two story American Four Square. Gable roof with returns. Shed dormer with three light over single pane windows on front facade. Projecting bay in center of south facade over doorway. Three sided projecting bay on first floor, and a two sided bay on the second floor of the north facade. Second floor front facade has a four sided bay to the north and a three sided bay to the south, both have single pane double-hung

SIGNIFICANCE

19. DATE OF INITIAL CONSTRUCTION: _____ c. 1910

ARCHITECT: _____

BUILDER: _____

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:

18. windows. Enclosed porch across front of house has a hip roof and three light over single pane windows. Stone foundation.

20. Typical example of the American Four Square style that was built in the Parkside neighborhood. This house is located on Parkside Avenue, a street conceived by FLO around 1873 as part of a residential "suburb" adjacent to Delaware Park. This suburb was called "The Parkside" by Olmsted and appears on an 1876 map drawn by him as a proposed area of curved winding streets on the north and east sides of the park. Parkside Avenue was actually created by the City of Buffalo in 1888. The street very closely follows Olmsted's original plan maintaining the picturesque character that he envisioned for the streets surrounding the park.
