20. HISTORICAL AND ARCHITECTURAL IMPORTANCE: A typical vernacular form of Prairie School residence, similar to 2258 and 2262 Main Street in building style. Originally the Buffalo and Williamsville Macadam Road, Main Street was a pre-existing street at the time Olmsted designated it as the eastern border for "The Parkside." While the streets within the subdivision were designed specifically to avoid commercial development, this portion of Main Street became a combination of commercial and residential structures. It was also a major thoroughfare into the city, allowing easy access to downtown from this suburban neighborhood.
