CREDIT

In obtaining credit for work completed at the Summer Session, the following regulations will obtain:

(1) Work done in courses at the Summer Session will be as nearly as possible equivalent to the work of the same courses during the regular school session. Therefore, courses will be credited hour for hour on the basis of semester-hour credits. A maximum of eight semester hours of credit toward the Normal School Curriculum may be earned in one Summer Session. Courses carrying two semester hours of credit in the regular curriculum are conducted one hour daily in the Summer Session; those carrying three semester hours or four semester hours of credit in the regular curriculum are conducted two hours daily in the Summer Session. No partial credits are given. Students who are delinquent in the regular session and desire to make up such delinquency in the Summer Session must receive permission from the Student Program Committee before applying for registration in the Summer Session.

(2) Students are now required to complete a three-year curriculum in a State Normal School in order to secure a life diploma. The completion of two years of the three-year curriculum will, however, entitle a student to a limited certificate valid for at least three years. The third year of the requirement may be completed by further attendance at the regular session and during Summer Sessions. All candidates for such certificate and diploma must be graduates of a high school curriculum approved by the Commissioner of Education.

(3) A graduate of a high school curriculum approved by the Commissioner of Education, who after graduation completed a year's course in a Training Class and has had experience in teaching since graduating from a Training Class may receive advanced credit equivalent to one year on the three-year curriculum.

CURRICULA

I. General Normal Curriculum

Candidates may receive credit for the General Normal Curriculum in any department by electing subjects named in this catalog. Care should be taken to see that subjects elected apply on the desired curriculum.

II. Extension Curriculum

Since 1919, the major appeal of the Summer Session has been made to teachers in the service. Special courses calculated to improve the efficiency of teachers in service have been offered and met with an increasingly larger registration each year. A considerable number of these courses carry college credit at the University of Buffalo and Canisius College.

III. Vocational Homemaking Curriculum

The Buffalo State Normal School has been designated as the center for summer extension work and special training of teachers of Home Economics for the State. For further particulars, see Announcement on last page of this catalog.

IV. Americanization Curriculum

Under the auspices of the State Bureau of Immigrant Education, special courses of interest to teachers of Adult Immigrants evening and day classes will be offered as indicated in the list of courses. They are open to students who have graduated from accredited high schools or who have had equivalent training plus two years of further study either at Normal School, Training Class or College.

For students successfully completing the required work, certificates will be issued by the State Department.

Last year several special excursions under the guidance of faculty members were taken. These excursions included trips to the Historical Museum, The Albright Art Gallery, Pierce Arrow Plant, and the Larkin Co. A Saturday trip to Toronto was a prominent feature of the excursion program.

In addition to the various trips a summer school field meet was held on the front campus and a summer school dance in the gymnasium. Similar trips and social activities will be carried out this year.
