Second semester.
Monday at 4:15 to 5:15 P. M. Room 318, Buffalo State Normal School.
FRANCES CROOKER,
Buffalo State Normal School.

No college credit at the University of Buffalo will be granted to students taking college credit courses at the summer session of the Buffalo State Normal School unless such students have completed the two years of work in the Buffalo State Normal School required for the Normal School certificate.

Candidates for the degree of Bachelor of Science in Education at the University of Buffalo must take at least thirty-two hours in residence at the University of Buffalo and may present ninety-six hours for credit from the Buffalo State Normal School. Of these ninety-six hours of credit, two years of work at the Buffalo State Normal School will insure sixty-four hours of credit and the remaining thirty-two must be equally divided between professional and liberal courses taken in the extension or summer session series. In case twelve teaching credits are presented, the remaining twenty hours of credit must consist of not more than four hours of professional courses and at least sixteen hours of liberal courses.

BUFFALO STATE NORMAL SCHOOL

Extension Courses, 1926-27

NORMAL SCHOOL graduates are invited to consider the opportunity now offered by the Buffalo State Normal School to earn a college degree. On June 24, 1926, the Regents of the State of New York approved the course of study for a fourth year and authorized the school to grant the degree of Bachelor of Science (in Education). The last legislature made an appropriation for eight new positions, six of which are of professorial rank. The Buffalo State Normal School is now enabled to offer four years of teacher training for elementary teachers of marked professional ambition who desire extended training for increased efficiency, for personal satisfaction or for promotion to supervisory, administrative or critic positions in elementary and junior high school fields. In the near future application will be made for a change in the name of the institution to the "Buffalo State Teachers' College."

Normal school graduates who have completed the former two year course or the present three year course may meet the additional requirement by pursuing summer session and extension courses.

Extension courses will now be given at the State Normal School on Saturdays from 9:00 a. m. to 12:20 p. m. so that teachers residing in Buffalo or adjoining cities and villages located within a commuting radius may avail themselves of this opportunity.

Tuition will be free to all former graduates of any Normal School or of a two year course in a city training school.

Prospective students who wish information regarding the evaluation of their credits may address the Principal or Registrar of the school or telephone Tupper 0707. Reasonable credit will be granted for successful teaching experience which is certified by competent supervising officials. The right is reserved to limit registration in courses to thirty in number. The school library and the cafeteria will be open on Saturdays for the convenience of students.

Saturday periods are from 9:00 to 10:40 a. m. and 10:40 a. m. to 12:20 p. m.
First semester begins October 9, 1926, and closes February 5, 1927.
Second semester begins February 5, 1927, and closes June 4, 1927.

Saturday Morning Classes at the Normal School

1. Improvement of Instruction by Means of Tests and Measurements

First semester, 9-10:40 a. m. Room 104. Two points credit.

Use of tests and measurements to analyze school and classroom conditions; diagnosis of individual difficulties; remedial methods of instruction; preparation and use of informal achievement tests in reading, spelling, arithmetic; preparation and use of charts and graphs; method of selecting tests for specific needs. An advanced course for those who have some knowledge of tests and measurements. Laboratory fee \$1.00.

HARRY J. STEEL, A. M., Director of Training, Buffalo State Normal School

2. Supervision of English and Arithmetic.

Second semester, 9-10:40 a. m. Room 104. Two points credit.

Objectives of instruction in reading, spelling, language and arithmetic; the selection of materials and methods; measurement of attainment; the objective analysis of typical lessons; standards of judging tests and drill devices. An advanced course for teachers, principals and supervisors who wish a review of recent scientific investigation in these fields.

MR. STEEL.

3. Educational Sociology.

Second semester, 10:40 a. m.-12:20 p. m. Room 218. Two points credit.

A consideration of personalities of pupils as resulting from their social environment and as related to their future experiences.

GEORGE B. NEUMANN, PH. D., Professor of Sociology, Buffalo State Normal School

4. Modern Elementary School Practice.

First semester, 10:40 a. m.-12:20 p. m. Room 104. Two points credit.

A course of reading and discussion dealing with some of the most vital elements of modern practice pertaining to the work of the classroom teacher in American elementary schools.

CHARLES C. ROOT, A. M., Head of Dept. of Education, Buffalo State Normal School

5. Advanced Psychology.

First semester, 9-10:40 a. m. Room 208. Two points credit.

Study of motor and higher level learning processes. The course will be largely concerned with the learning of children. The subject matter will be (1) recent psychological literature on learning in the common school materials—reading, writing, arithmetic, spelling, social sciences; (2) experimental work in the classroom and as outside preparation.

FRANK T. WILSON, A. M., Professor of Psychology, Buffalo State Normal School

6. Progressive Education.

Second semester, 9-10:40 a. m. Room 208. Two points credit.

Presentation and discussion of some of the outstanding developments in public education of the last twenty years with attempted estimate of present trends and future value of these contributions.

HARRY W. ROCKWELL, PD. D., Principal, Buffalo State Normal School.

7. Principles of Education.

First semester, 10:40 a. m.-12:20 p. m. Room 319. Two points credit.

Discussion of definition and aims of education, various conceptions of educational values, controverted questions of educational theory. Credit for two year graduates only.

HOMER A. BRUCE, A. M., Assistant in Education, Buffalo State Normal School.

8. English Literature of the Romantic Movement.

First semester, 10:40 a. m.-12:20 p. m. Room 209. Two points credit.

A study of the prose and poetry from 1798 to 1832 with emphasis on Wordsworth, Coleridge, Byron, Shelley and Keats.

EARL DANIELS, PH. D., Professor of English, Buffalo State Normal School.

9. The Modern Novel.

Second semester, 10:40 a. m.-12:20 p. m. Room 209. Two points credit.

Critical survey of the work of the English novelists, George Meredith and Thomas Hardy; the American novelists, William Dean Howells, Mark Twain and Henry James; the French novelist, Flaubert, and the Russian novelists, Tolstoi, Turgenev, Tchekov and Dostoevski. The approach will be critical rather than historical or biographical.

DR. DANIELS.

10. Masterpieces of French Literature.

First and second semesters, 9-10:40 a. m. Room 218-A. Four points credit.

Reading of selected specimens of French drama, novel, tale, and lyric from the 17th century to modern times. Supplementary studies in French civilization. Emphasis on the place of French literature in the history of modern culture. Minimum prerequisite two years of high school French.

CHARLES A. MESSNER, A. M., Professor, Latin-French, Buffalo State Normal School.

11. Political Science.

First semester, 9-10:40 a. m. Room 319. Two points credit.

A study of the origin, development, organization and activities of the state from the standpoint of past development and present conditions. Particular attention will be given to the study of recent American and continental writers in this field.

ROBERT O. DEMOND, A. M., Professor of History, Buffalo State Normal School.

12. Comparative Governments.

Second semester, 9-10:40 a. m. Room 319. Two points credit.

Comparative study of the governments of Europe, including England, France, Germany, Russia and the newer Republics. Collateral reading and reports.

MR. DEMOND.

13. College Algebra.

First semester, 10:40 a. m.-12:20 p. m. Room 211. Two points credit.

A preliminary review of elementary algebra, followed by study of Progressions, Binomial Theorem, Permutations and Combinations, Logarithms, Theory of Equations, Graphs.

JOSEPH F. PHILLIPPI, A. M., Professor of Mathematics, Buffalo State Normal School.

14. Art Appreciation.

First semester, 10:40 a. m.-12:20 p. m. Room 316. Two points credit.
Study of the nature, principles, practice and history of the fine arts designed to develop an individual appreciation of art. Lectures illustrated with slides; assigned readings required; visits to the Art Gallery for study of original works of art.

CHARLES B. BRADLEY, Head of Art Department, Buffalo State Normal School.

15. Methods of Teaching Junior High School Science.

Second semester, 9-10:40 a. m. Room 314. Two points credit.
Relation of general science to other subjects in the curriculum; selection, organization and presentation of subject matter; demonstration and laboratory practices, equipment and technique; field work; collection and preservation of illustrative materials; consideration of texts, references and tests.

WILBUR C. GORHAM, A. M., Professor of Science, Buffalo State Normal School.

16. Geography of North America.

First semester, 9-10:40 a. m. Room 102. Two points credit.
A study and interpretation of the geography of North America with the emphasis on the United States. The relation of the topography, climate, and resources of the various natural regions to the type of human occupation which has developed in each.

KATHERYNE C. THOMAS, A. M., Professor of Geography, Buffalo State Normal School.

Mid-Week Classes at Hutchinson High School

17. Administration.

First semester only. Wednesday, 4:30-5:30 p. m. Room 290. One point credit.
This course is designed for those who are interested in a discussion of the general plan and purpose underlying the administration of a public school. It will undertake to study some of the means by which these purposes may be secured.

ERNEST C. HARTWELL, PD. D., Superintendent of Schools, Buffalo.

18. Classroom Management.

Two semesters. Thursday, 4:30-5:30 p. m. Room 190. Two points credit.
The teacher with reference to the qualities making for success or failure; the pupil; hygiene of the class room; the teacher's relation to the curriculum; use of incentives and rewards; elimination of waste and general consideration of the technique of teaching.

W. HOWARD PILLSBURY, A. B., Deputy Superintendent of Schools, Buffalo.

19. Methods in Beginning Algebra.

First semester only. Thursday, 4:30-5:30 p. m. Room 179. One point credit.
A course recommending procedure, methods and devices for securing interest in teaching Algebra in the junior high school or grammar grades.

HALLIE S. POOLE, A. M., Lafayette High School.

BUFFALO STATE NORMAL SCHOOL

Extension Courses, 1926-27

NORMAL SCHOOL graduates are invited to consider the opportunity now offered by the Buffalo State Normal School to earn a college degree. On June 24, 1926, the Regents of the State of New York approved the course of study for a fourth year and authorized the school to grant the degree of Bachelor of Science (in Education). Tuition will be free to all former graduates of any Normal School or of a two year course in a city training school.

Prospective students who wish information regarding the evaluation of their credits may address the Principal or Registrar of the school or telephone Tupper 0707. Reasonable credit will be granted for successful teaching experience which is certified by competent supervising officials. The right is reserved to limit registration in courses to thirty in number. The school library and the cafeteria will be open on Saturdays for the convenience of students.

Saturday periods are from 9:00 to 10:40 a. m. and 10:40 a. m. to 12:20 p. m.

First semester begins October 9, 1926, and closes February 5, 1927.

Second semester begins February 5, 1927, and closes June 4, 1927.

20. Methods in Arithmetic (Grades 5 to 8).

First semester only. Wednesday, 4:30-5:30 p. m. Room 240.

M. ELSIE DAVIS, A. B., School 8, Buffalo City Schools.

21. Teaching of Poems.

First semester, grades 1 to 4; second semester, grades 5 to 8. Thursday, 4:30-5:30 p. m. Room 340.

EDITH PARKER, Buffalo City Schools.

22. Primary Methods.

Two semesters. Tuesday, 4:30-5:30 p. m. Room 240.

HARRIET L. BUTLER, A. B., Deputy Superintendent of Schools, Buffalo.

23. Methods in Reading (Grades 4 and 5).

Second semester only. Tuesday, 4:30-5:30 p. m. Room 190.

MARIE MOCKLER, Buffalo City Schools.

24. Methods in Silent Reading (Grades 6, 7 and 8).

First semester only.

CHARLES P. ALVORD, Deputy Superintendent of Schools, Buffalo.

25. Methods in Geography (Grade 7).

Second semester only. Wednesday, 4:30-5:30 p. m. Room 190.

MR. ALVORD.

Home-Making Courses

Any evening school, extension class teachers, day school teachers or teachers with two or more years of training in Home Economics who desire credit toward their degree are requested to meet at the Normal School in Room 316 at 9:00 a. m. on October 9 to express their preference for one of the two following courses:

1. General Methods.

First semester. Two points credit. (May be applied on Education 40.)

Application of the technique of teaching to Home Economics. Discussion of (a) presentation of materials, (b) devices and helps, (c) special problems, (d) lesson planning.

2. Costume Design (Design 30).

First semester. Two points credit.

The composition of lines, values and colors studied with relation to the positive and negative types of individuals and expressed with pen, paint or tempera.

Vocational Industrial Courses (at the Normal School)

The courses listed are for regularly employed teachers or for those who have completed the equivalent of the evening teacher training courses. All extension courses apply toward a permanent vocational teachers' certificate or supervisors' certificate, as outlined in the bulletin on "Qualification of Vocational Teachers" issued by the State Department of Education.

During the second semester additional courses in the field of Vocational Guidance, Junior High School Organization, English and Economics will be offered. Information will be given at a later date.

All extension courses carry Normal School credit and may be applied toward the degree of Bachelor of Science in Education provided the candidate has met the minimum requirement for resident study.

1. Organization and Teaching of Trade Shop Work.

9-10:40 a. m. Room 210. Two points credit.

A study of the aims and standards of achievement in vocational shop work; the standards for selecting and arranging instructional material; special methods of teaching; planning courses; shop management.

MR. MORRICE, Instructor in Machine Shop Practice, Buffalo State Normal School.

2. Organization and Teaching of Industrial Art Shop Work.

10:40 a. m.-12:20 a. m. Room 210. Two points credit.

Aims of Industrial Arts instruction; standards for selecting and arranging instructional material; the Industrial Arts project; special methods of teaching Industrial Arts; planning courses; shop management.

MR. MORRICE.

3. Industrial History.

10:40 a. m.-10:20 p. m. Room 331. Two points credit.

A brief treatment of early and modern history to show the function of industry in promoting the progress of civilization.

MR. GRABAU, Instructor in Vocational Industrial Department, Buffalo State Normal School.

4. Principles and Problems of Part-time Education.

Thursday, Hutchinson High School, 4:15-5:35 p. m. Room 176.

A study of the purposes and the problems of various courses in part-time classes. Special attention will be given to the study of qualifications of teachers; nature of the part-time teacher's duties; a general review of the organization and management of part-time work for both boys and girls.

MR. REGAN, Principal Continuation School, Buffalo.

BUFFALO STATE NORMAL SCHOOL

Extension Courses, 1926-27

NORMAL SCHOOL graduates are invited to consider the opportunity now offered by the Buffalo State Normal School to earn a college degree. On June 24, 1926, the Regents of the State of New York approved the course of study for a fourth year and authorized the school to grant the degree of Bachelor of Science (in Education). The last legislature made an appropriation for eight new positions, six of which are of professorial rank. The Buffalo State Normal School is now enabled to offer four years of teacher training for elementary teachers of marked professional ambition who desire extended training for increased efficiency, for personal satisfaction or for promotion to supervisory, administrative or critic positions in elementary and junior high school fields. In the near future application will be made for a change in the name of the institution to the "Buffalo State Teachers' College."
