10.	a. open land D b. woodland D
	c. scattered buildings
	d. densely built-up 🖾 e. commercial 🗌
	f. industrial 🗆 g. residential 🙀
	h other:

17. INTERRELATIONSHIP OF BUILDING AND SURROUNDINGS: (Indicate if building or structure is in an historic district)

Building is situated on a standard sized corner lot within Olmsted's Parkside subdivision. House is located two blocks from Delaware Park, which was designed by Olmsted and is listed on the National Register, and east of the Zoo.

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known):

Two and a half story with Prairie School and Craftsman styling. Hip roof with curvilinear exposed rafter tails under projecting eave. Full-length hip roof dormer has hip roof with decorative rafter tails under extending eaves. Two windows have a pair single light windows. Entablature window surround. Full-width <u>SIGNIFICANCE</u> hip roof porch has rough-cut, regular course stone 19. DATE OF INITIAL CONSTRUCTION: 1909 piers. Baluster balustrade. Six 8 light

ARCHITECT:	windows. Lighted door.
	Clapboard first floor. Second floor has a set of
BUILDER:	paired double hung windows, prism-shaped tracery
	in top light. Shingle second floor.

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE: A good example of integration of Prairie School and Craftsman styling, with uniqueness of having a full-size, full-length dormer. Summit Avenue is a truncated north-south street, located between Woodward and Crescent Avenues and extending from West Oakwood Place to the northern section of Crescent Avenue. A similar street, ending south of Jewett Avenue, appears in Olmsted's early 1870's maps of "The Parkside." Summit Avenue was deeded to the city in 1889, except for the small section between Amherst and Crescent which was deeded in 1892. This street follows Olmsted's rule that it "not lead with special directness toward the town."
