"The Olms" is a member publication of the Rubbications bound, Sunded through U.S.G.

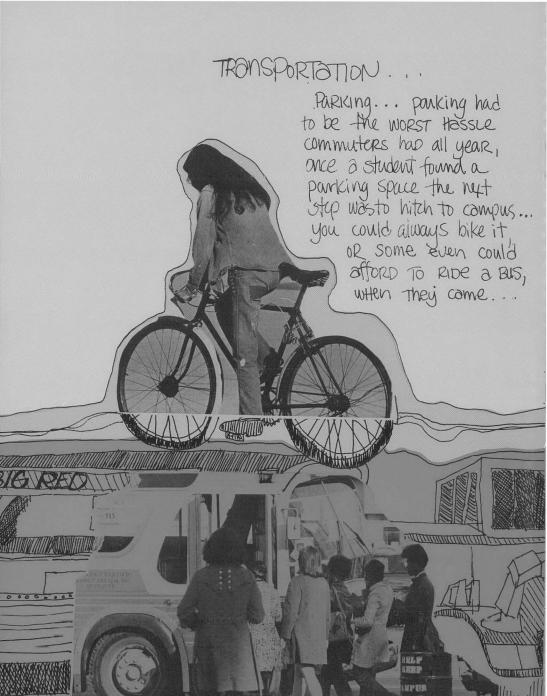

IT WAS TIME TO DO SOMETHING NEW . . .

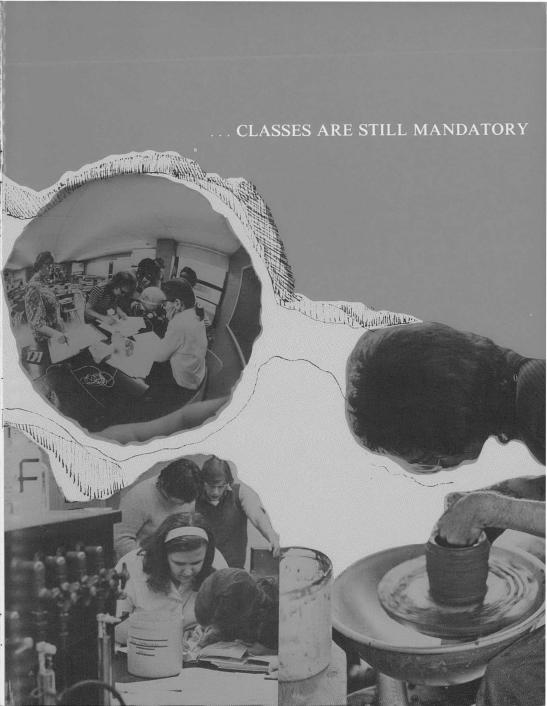

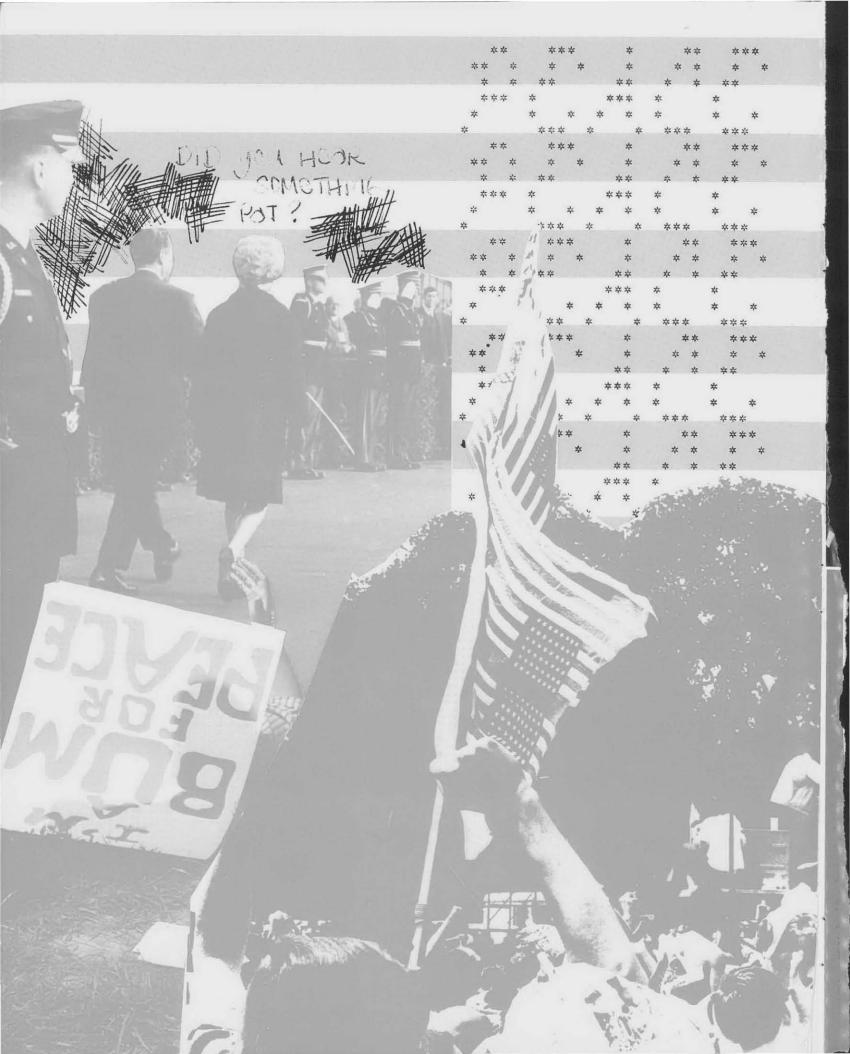

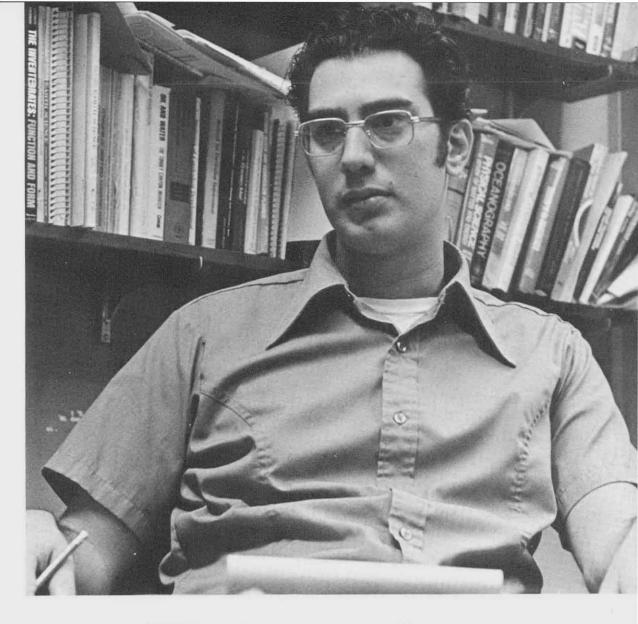

SOME STUDENTS CONTINUED TO PROTEST AGAINST THE VIETNAM WAR. OTHERS GAVE UP, THE WAR CONTINUES ... AT LEAST UNTIL THE JUST PRIORTOTHENOVEMBER ELECTIONS ...

# faculty

This year's Elms staff, rather than have the usual friculty candid section, felt that articles about faculty members would be more beneficial for the students. We sent letters to all faculty members asking their assistance and after the response from a number we present the following. Another larger faculty section will appear in the spring book:

# Laurence W. Aronstein

### Assistant Professor of General Science

Through the efforts of Mr. Aronstein, an experimental program was set up in the core area of Buffalo. He set up the Cash for Trash program as a 10 week project. Buffalo State students man the center which has its headquarters on Jefferson Avenue. People from the Core Area go to the center to redeem their glass and aluminum for money.

Results of the project? It has helped to clean up the area and make people aware of how they can help to eliminate our solid waste pollution problem. It is hoped that the program will change household habits regarding the separation of garbage. One of

the most important outcomes will be realized when the city sanitation department provides different types of garbage pick-up, so that glass and aluminum can be recycled.

The Cash for Trash project has proved that people are willing to do something about pollution. Mr. Aronstein along with the students involved in the project, hope that the Cash for Trash project will eventually be taken over by the community or a private business firm. It is also hoped that in the future, our lawmakers will take notice of such projects and begin to consider the welfare of the community.

# Joseph A. Bolinsky

**Professor of Fine Arts** 

Professor Bolinsky's cultural contributions to Buffalo and other parts of the country are seen in his sculptures, exhibits and the prizes he has won. He is currently working on a model of a sculptural fountain for the Buffalo State Campus.

Mr. Bolinsky has had numerous sculptural commissions in the Buffalo area. Among them are: the carved doors of the Temple Shaary Zadak in Amherst, and eleven foot stone figure of St. Mark for St. Mark's Catholic Church in Iowa, a copper plaque in Amherst Junior High School; and five welded sheet-copper symbols for the wall of the inner court of Temple Sinai in Amherst.

This renowned sculptor has also been exhibited in many galleries, among them are those located in New York, Georgia, Iowa and Rome, Italy.

As a teacher, he sees his students as a constant challenge and is involved with them as well as his own work.

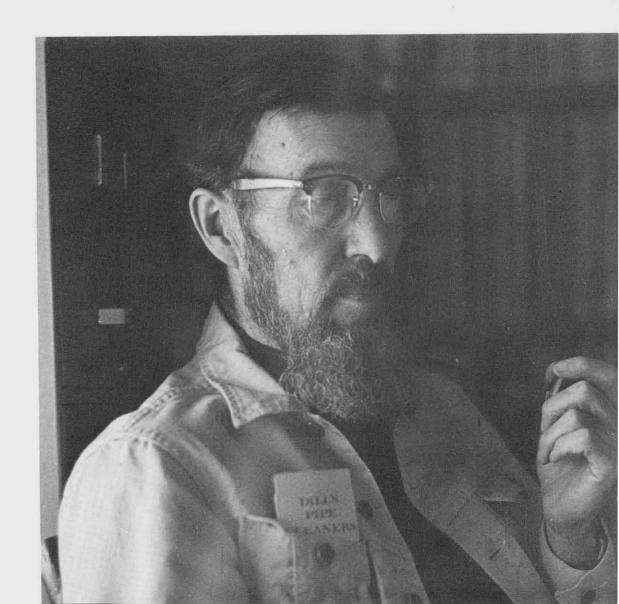

# William H. Tallmadge

### **Professor of Music**

Mr. Tallmadge's special interest in the music field deals with Afro-American folk music, rock, jazz and urban folk music. He has been teaching at Buffalo State since 1949 and has initiated several courses into the curriculum. He introduced courses in Afro-American and American Folk music in 1955; and a course dealing with rock in 1969.

Along with his work at Buffalo State, Tallmadge has written numerous articles, published in such magazines as Music Educators Journal, Jazz Report, and Ethnomusicology. He also is a joing author of "Sing Trouble Away" and has written another book entitled "Afro-American Music."

Mr. Tallmadge's most recent endeavor has been the writing of nine booklets in the areas of rock, jazz and urban folk music, which have been published by the Instructional Resources Center of State University College at Fredonia.

## Dr. Gerhard Falk

Dr. Falk's special interest is connected with his teaching. He has published and is continuing to publish numerous articles on various social problems. These articles range from the fields of crime to the problems of alcoholism. Some of these articles have been published on an international level as well. Dr. Falk feels that it's part of his professional obligation to further his research and knowledge. He feels he owes his students more than just lecturing from someone else's material.

Writing is something he enjoys doing and it gives him a sense of pride as well as prestige for the college. His writing also enables him to keep in touch with people all over the world who have read his articles. He also has read his papers at various conventions. One of the main results of his writing is that it makes the community more aware of social problems that surround them.

Dr. Falk is also working on a project for the Centennial. He is working on plans to edit a book of all publications of the faculty on this campus.

Buffalo State is fortunate to have Dr. Falk on the faculty, not only because of his publications, but for his ability to share his enthusiasm and concern with the students.

## **Fraser Drew**

Fraser Drew, a member of the English faculty, has become interested in many aspects of Irish culture. Since 1964 he has visited Ireland on five different occasions, each time taking advantage of the many different opportunities available to a visitor to the Emerald Isles.

He initiated Buffalo State's present course in Irish literature. Many of his articles on Ireland have been published in American and Irish journals.

As the director of the St. Patrick's Scholarship Fund, Fraser Drew has helped many students to study in Irish Universities. The program also sponsors Irish students in the Buffalo area. His various activities have earned him the Distinguished Alumnus Award of the University of Vermont and the Irishman of the Year Award of the United Irish Societies of Buffalo and Erie County in 1970.

While in Ireland, Fraser Drew made arrangements with the Irish government in Dublin to obtain books for Buffalo State. The Irish Vice Consul of N.Y.C. made the presentation to the Butler Library.

# **Programmed Speech**

In order to provide an efficient and economical method of assisting the large numbers of children with mild and moderate articulation problems in the elementary grades, the Programmed Speech Improvement System was devised. Four faculty members of Buffalo State, Van Hattum, Baskervill, Duguay and Page developed the program after it was unable to be completed by the two men who started it in Ossining, N.Y.

The program will free the speech clinician to help children with more severe problems and to spend more time consulting with administrators, teachers and parents. The program is not intended to replace the professional speech clinician, but, rather must be used under the supervision of such a person.

With the use of tapes, play-back equipment, response pads, and certain kinds of toys, the program has become effective and has helped 47% of the children studied in a statewide survey.

# Improvement System Robert D. Baskervill, Marshall Duguay, Rolland Van Hattum

As the professional speech clinician views PSIS, he sees three important advantages: 1.It allows him to concentrate on more complex problems for which he has been trained, instead of dealing with smaller, routine types of problems, 2.The programmed tape, which is carefully and professionally produced, provides consistently high standards of instruction, over and over again, nad 3.The status of the professional clinician has improved because he now becomes the manager of learning, in charge of a modern system of people and materials.

# and Joseph M. Page

# Dr. John Bruno

### A Man and His Thoughts

Knowledge

Why do people go to college? To learn? To find out what knowledge is?

People don't go to college to learn facts; facts change constantly. They go to search for a way to assimilate new knowledge.

Do people go to college for the same reasons now as they did in the '60's?

People went to college to learn what the professor knew. He was viewed as an end in himself. But, that was in the past. Today professors are viewed as a means to an end.

In the past, we have shaped the child to knowledge. Now we must find out how the child thinks and how we can increase this process, rather than imposing on him a miniture adult world.

Teachers and Teaching

Learning is obtained through expereince.

There is no such thing as a terminal degree for a teacher; his education never ends. It is impossible to experience everything that each child in the class experiences. Through reading, writing, and communicating, a teacher can come closer to contriving those experiences.

The education system does a fine job of reflecting how the teacher thinks, but it must devise a system to find out at what level the students are thinking. A teacher must experience the arts and humanities--"just as you visit places, you must also visit ideas".

The Nature of the University

It is very important that each member of the university contribute to the furthering of the university's development.

Teachers should not consider the university as just a place where one works. If each teacher would devote one hour a week, most of our problems would be solved more easily.

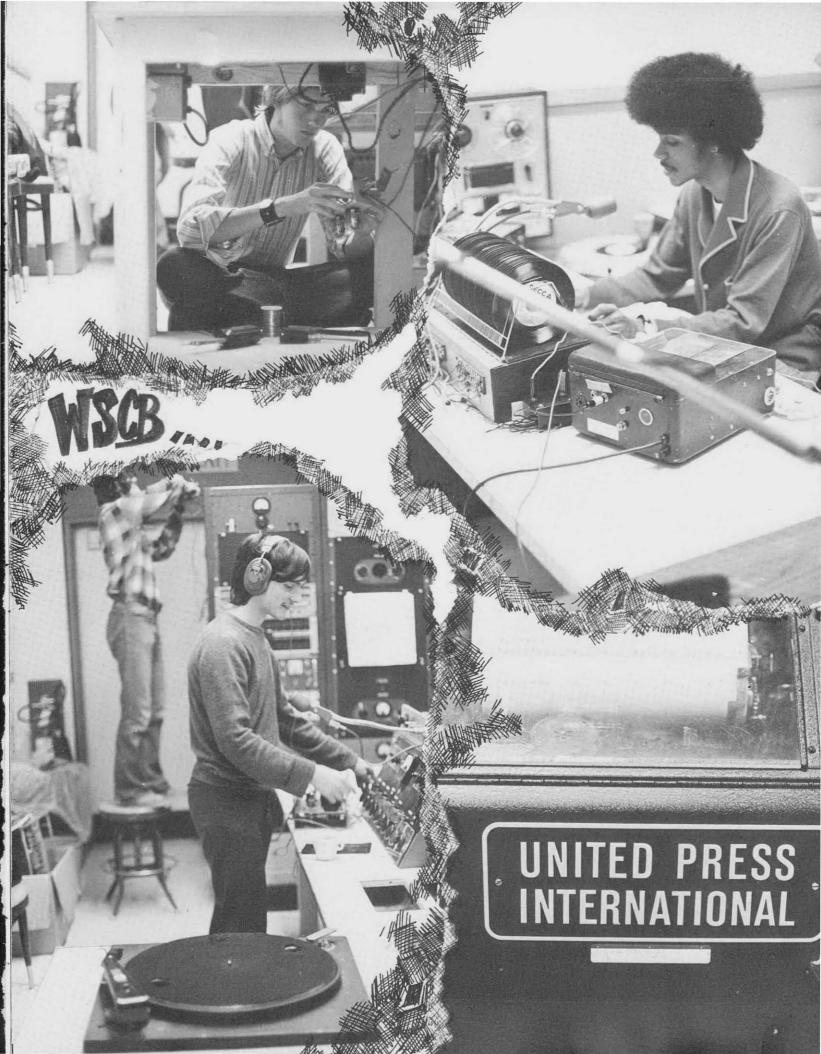

The institution of education is undergoing great changes. "We have to deal with change like we never have had to before".

The Decade of the '70's

The physical environment of our esmpus is almost completely developed. Now we must concentrate more of our efforts toward the cultural environment. Our scope of courses had widened, our enrollment is increasing and our learning experiences are not confined to the campus-they extend into the urban and suburban communities, and even farther on a national and international basis. How is our campus community reflecting these changes?

What are we going to do differently in the '70's from what we did in the '60's?

The University must not only be a transmitter of culture, but should offer a place where alternative views can be explored.

LIVING Off- Campus...

landlords, few apartments, high rents, cockroaches, furniture, utilities, parties, quiet, freedom, rent, responsibilities, bus fare, hitching decorating, rent, away from campus, roommates, food stamps, lease, pets, cleaning, dishes, phone...

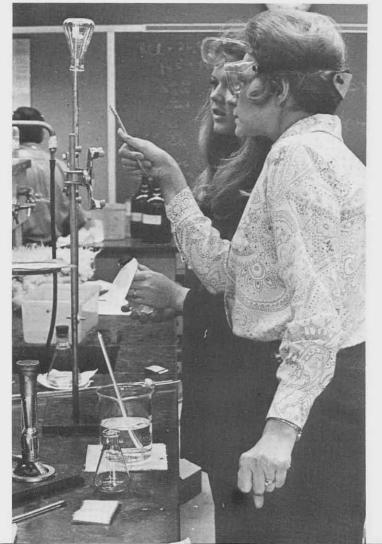

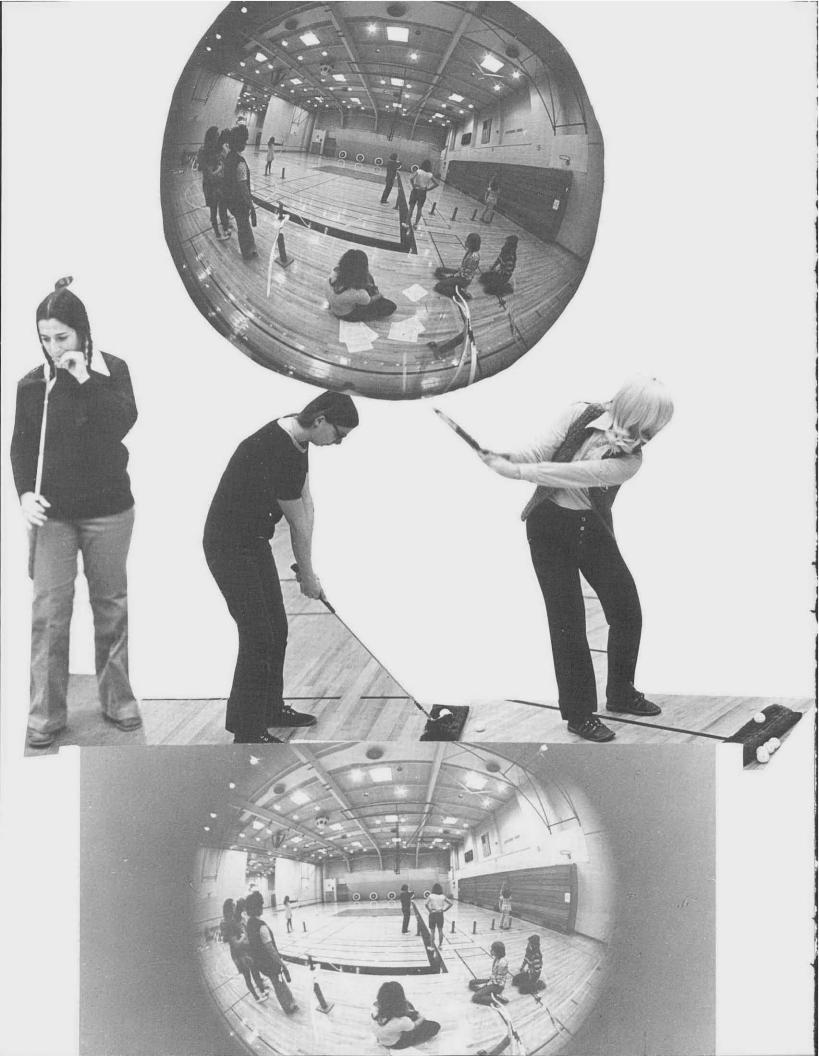

... and no more than two unrelated persons to an apartment... oh yes ... that's a halfassed city of Buffelo law aimed at students. The law is to protect us from the hippies and commune types and everyone who can't afford the overpriced apartments alone, or use reople. Still, once off campus you'll never be a dormie again...

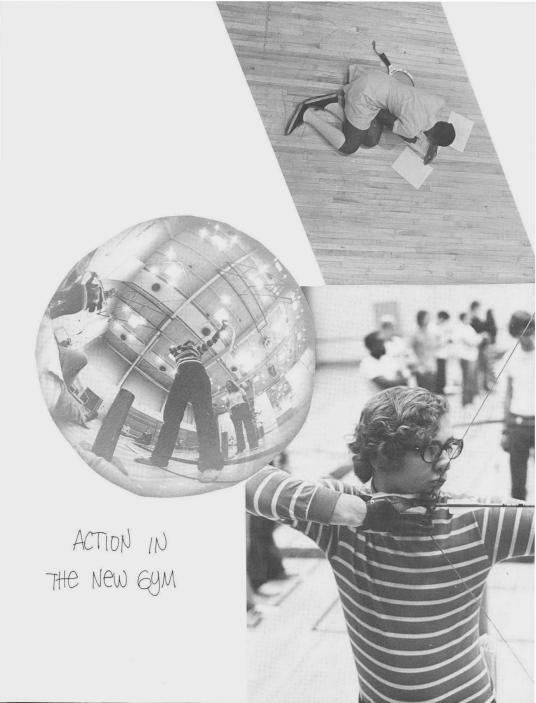

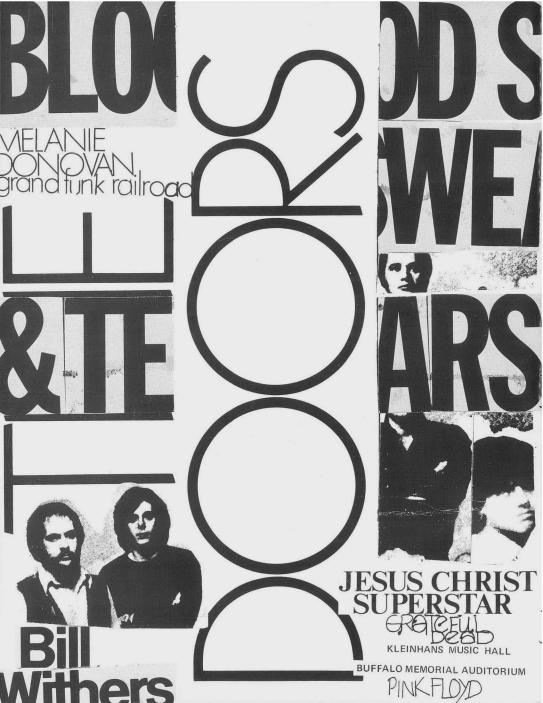

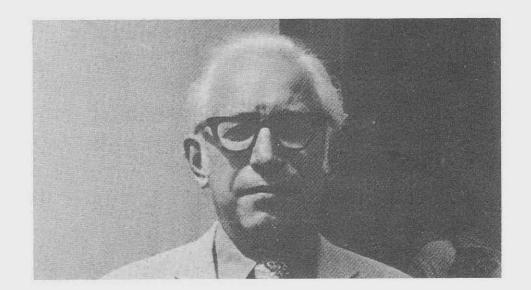

New Science scenes

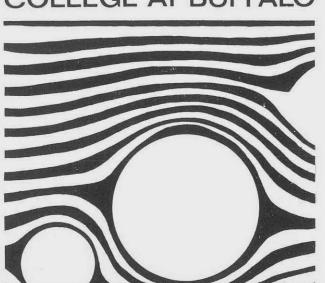

### ...from Dr. Martin Fried

One hundred years ago, on September 13, 1871, a College was born. It has since grown to tremendous proportions. What it has been is good, but what it can be is better. As we observe our Centennial Year, let us resolve to work together for the future. Students, faculty, administration, and community have a common interest in the shape and form that the College will take in the years to come. Let us labor together so that in a hundred years it will be said of us by those observing our bicentennial that we did well in paving the way for them.

State University of New York COLLEGE AT BUFFALO

MARTIN B. FRIED Director, Centennial

### ... Where IT all began, BUFFALO NORMAL SCHOOL, 1871

In observing its Centennial, the College adopted as its theme, "No College is an island," as an indication of its concern for the quality of life in and around it. One hundred years ago the State Normal School, as it was then named, offered its 86 students a curriculum that consisted of logic, methods of geography, methods of primary reading, spelling, phonics, methods of nature study, methods of elementary science, methods of manual training or household arts, penmanship, methods of physical training, methods of literature (optional), methods of Latin (optional), and observation and practice.

### CENTENNIAL 1971/72

After the first World War, there was a period of expansion in numbers of students, courses, programs, and faculty. The demand for better preparation of teachers stimulated the requirement of a college degree and in 1928 the normal school became a college which granted the B.S. in Education degree. The need for a new campus was recognized and met by the move to the present Elmwood Avenue site, where the College opened on January 23, 1931. During the Depression years, the total registration of the College was definitely fixed at 1,000 by the State Education Department. The size of the College thus remained about the same until after the Second World War, when it became necessary to expand to meet demands of an expanding population and at the same time a demand for a higher standard of teacher preparation, including the requirement of a Master's degree. During these years, the College grew at a rapid rate.

In 1971, in fact, the College is a little city in itself, with all the problems of urban life, including security, traffic, and parking. Especially parking. It is the largest four-year college and the fourth unit in the State University of New York

### Calendar

MARCH 30 - APRIL 10: REUNION IN SIENA LIBLY

APRIL 22: URBAN Affairs conference

MAY 6: MASKED BALL IN KLEINHANS-

The College opened its doors on September 13, 1871, one hundred years ago, as a State Normal School with only 86 students and a faculty of 16, of whom five were teachers in the practice school and one was the principal.

The purpose of the Normal School was to train teachers for the public schools of the County and the City. This remained the sole purpose of the institution for 92 of its first 100 years, during which period it seemed to go through many metamorphoses, changing its title from Normal School to Teachers College, then to College for Teachers, then to College of Education, and finally to State University College.

In spite of the changes in title, and in spite of the change in the purpose of the college when it became a multi-purpose institution, the College is still known to many in the community as State Teachers, partly no doubt to avoid confusion with other institutions, but partly also as a tribute to the fact that training teachers is still a major goal of the College.

In 1866 the State Legislature authorized the establishment of four additional normal schools to be located in different parts of the State. At the annual festival of the teachers of the City of Buffalo, Mr. Oliver G. Steele made the principal address, urging the adoption of suitable measures to secure the location of one of the normal schools in Buffalo. Judge George W. Clinton presented a formal petition asking the Common Council to act on the matter, and on May 21, 1866, Superintendent of Schools John S. Fosdick, urging the Common Council to act promptly noted that Jesse Ketchum had proposed to donate the block bounded by York, Jersey, Thirteenth and Fourteentn Streets, for educational purposes. All Mr. Ketchum asked was the erection by the City of suitable buildings for the Normal School and the payment of three hundred dollars annually for the purchase of books or prizes to be distributed among the scholars of the public schools as rewards for good conduct. (These Jesse Ketchum wards are still being presented each year.)

### FIFTIETH ANNIVERSARY

Buffalo Normal To Celebrate Event in June—Elaborate Preparations Being Made for Observance

### TENTATIVE PROGRAM OUTLINE—THE COMMITTEE

School Has Progressed Far Since First Commencement — Originally College Preparatory in Addition To Normal

NEXT JUNE we will be completing the first fifty years of the existence of this school. When it was opened it was not only a school of teaching, but also a college preparatory school. The old building was put up at an expense of about \$90,000, half of which was paid by the county and half by the state. The site was bought from Jesse Ketchum at such a nominal price that it is considered practically a gift from him.

It has been felt that such an occasion as the 50th anniversary should be marked by special activities. Therefore an unusually interesting program has been arranged. The date of the celebration will be June 24 to 27 and the present tentative outline of the program is as follows:

### Saturday, June 24

Class Day. The seniors have not yet announced their plans for Class Day but the program will doubtless be more elaborate than usual.

### Sunday, June 25

Baccalaureate Day. Right Rev. Charles H. Brent, D.D., Bishop of the Diocese of Western New York of the Episcopal Church, will be the speaker at the afternoon services. After the service the final "get-together" of the

Faculty will be held on the front campus.

### Monday, June 26

Alumni Day. From 3 to 5 p.m. a group of class and sorority teas will be held in the building. From twelve to fourteen teas will be run off simultaneously in as many The early classes will rooms. combine themselves while the later ones will be given separate accommodations. The sororities will also be asked to hold teas for their returning alumnae. o'clock the entire body of graduates attending the various teas will be invited to the front campus for a dedicatory program. It is hoped that the completed pool with a fountain, (the gift of the alumni) and a sun dial, with marble seats, (the gift of the 1920 Elms) will be dedicated.

(Continued on Page 2, Column 1)

### OUR FIRST STUDENT ASSEMBLY

Wasn't it fun to forget our dignity for once and have a real good time in our first student assembly? Mr. Clement is working for this sort of thing and we'll enjoy it once in a while. Our opening exercises had new interest because one of our own student men conducted them. We are glad too, that the vocational department produced such an engaging cheer leader. We can yell, can't we? The basketball support ought to be increased after the men explained it so well and impressed upon us now much it means to our team. The duet and the orchestra introduced music into the hour. Miss Littlewort presented the claims of the "Record". We are urging you to contribute to

At the close of the student activities, Supt. Kelley, of Binghamton, spoke on education. All his remarks were worth while; particularly, "An optimist can see a light when there is no light and a pessimist comes along and blows out that light." The Homemaking girls appreciated his noint of view when he said "nothing in the world is so attractive as a uniform." You know the life unstairs is one—uniform after another.

We are looking forward to our next student program, and another opportunity to cheer

"There's nothing worth the wear of winning

But laughter and the love of friends."

13 - 26 OCTOBER 1971

ANDREW ELSTON Editor

Several months ago, when 1971 was still young, the idea for a new publication on campus came about. There seemed to be quite a large voic in the program of publications at SUCB - between the Record and Elm Leaves and ElElms and the offerings from our sister campus, U.B. - ethos and Undercurrent - didn't fill that void in a meaningful

So with some of these attitudes in mind, the idea for a totally new kind of publication was brought before the Publications Board. At first, the idea was to have it replace the Elms yearbook - or at least to be an outgrowth of it: them money, them staff, some of their traditions and foatures. That idea was scrapped when a lot of opposition arose and a lot of people began to think of revolutionizing the yearbook itself.

Sometimes around March, the new magazine" still nameless, staffless and directionless - was proposed to the board as a monthly to be produced on enamel (slick) paper. It would cover all manned of bigger topics left untouched by the Record.

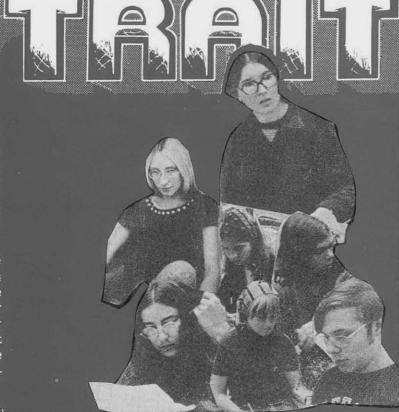

The Board approved the idea and begun shuffling dollar signs around in the coming year's budget to finance the idea. By the end of April the new magazine not only had a neat sum of money, but a core staff of editors and interested parties.

We were beginning to get our heads together. We were in a temporary office in Cassety Tunnel and were holding interest meetings. Still no name.

We had been thinking of names like Alternatives, /or (from Kierkegaard), etc. (that was one of them too, come to think of it.) Then one harried evening during a house of finance meeting, a member of the administration (one who was decidedly opposed to the whole matter and was blatently pro-yearbook) suggested in a not-so-off-handed manner that, perhaps, we should call it "The Crooked Approach." We were awe-struck.

We had been looking for a name for so

But, as you can see, we didn't call it that; we changed the spirit of the suggestion and called ourselves STRAIT. We also thought that it tied in pretty well with communications. (strait - channel: channel of communication).

STRAIT! EXCITING NEW MAGAZINE FROM THE PUBLICATIONS BOARD, CONCEIVED BY ANDY ELSTON, AHELL OF A LOT OF WORK PUT INTO THIS FINE PUBLICATION

Drama Poetry Records

The RECORD has acquired a new look this semester, to go along with the new editors who take over the operation of the paper for the current calendar year.

The new logotype, which is found at the top of page one and the top of the masthead on the editorial page, is a clean, heavy font known as Pandora Black Italic. The RECORD will continue to be published by RecordPress, the student-owned and student-operated production organization of Publications Board.

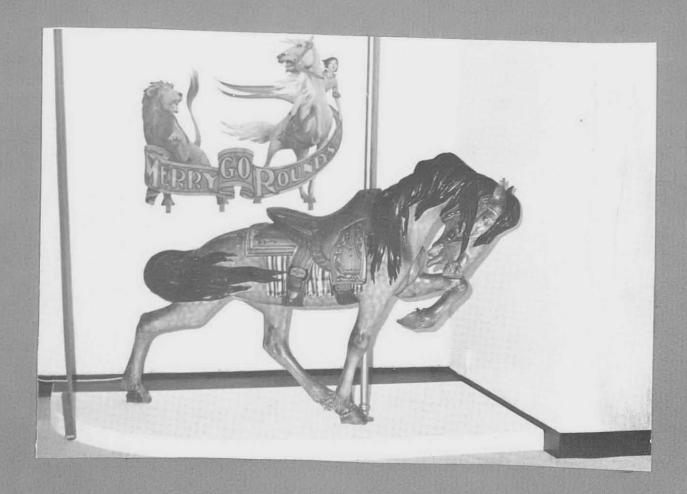

Acting as editor-in-chief of the RECORD for the coming year is Steven C. Baskin, a second semester sophomore who is majoring in Social Sciences. Baskin, a native of Wicopee, New York, was formerly business manager of the RECORD and is currently treasurer of Publications Board. Prior to his stint as business manager, he served as feature editor.

Baskin also announced the names of the various sub-editors who will be working in

conjunction with him to publish the newspaper.

Serving as news editor will be Peter Zollman; feature editor, Jim Bisco; sports editor, Carl Chiavara; photography editor, Jerry Seguin. In business positions, Roni Backinoff will be serving as business manager, and Gayl Weinheimer as advertising manager.

the record Tokes on a new look ...

## BURCHFIELD

Western New York Forum for American Art

The Charles Burchfield Center, locate in Rockwell Hall, is devoted to the exhibition of major works and memorabilia of Western New York's world famous watercolorist and aims to develop as a regional center for the study and research of American art.

The Center features continuous exhibitions of significant works by the artist including paintings, drawings and sketches; houses his journals, other writings and publications concerning him. Special exhibitions are presented several times each year featuring various collections of his work, the works of selected guest artists, or some aspect of American art related to the Buffalo area. Paintings and drawings in the permanent Center collection are available for viewing at all times.

Michael Flanigan

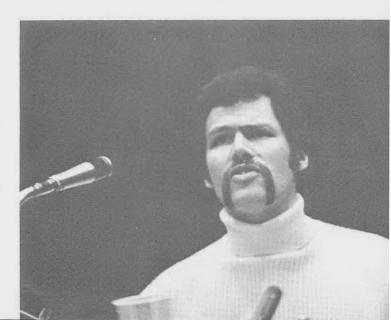

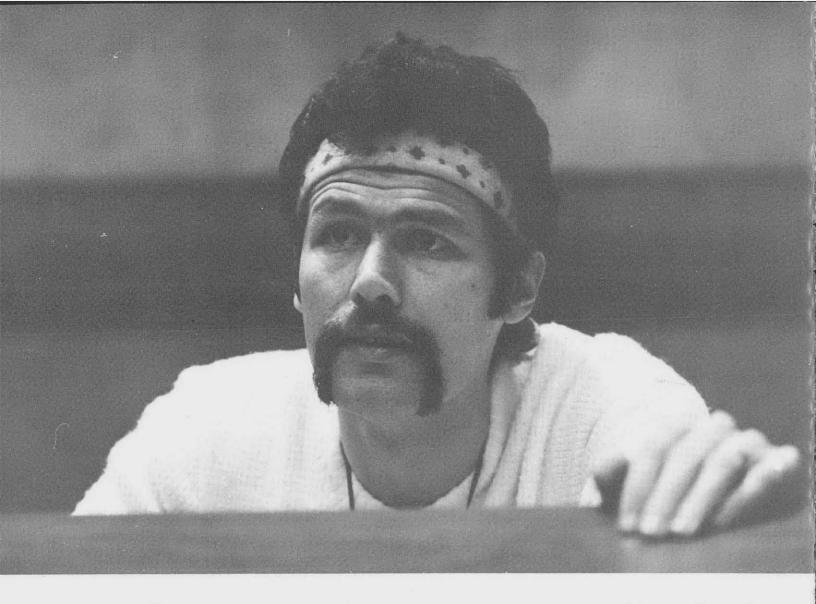

The facts concerning Michael Flanigan: with the exception of a six month term as a Lab technician in microbiology and a three week stint in a bookstore he has supported his family and himself as a professional poet, since roughly the Tall of 1963, During this time some of his accumulates credentials are as follows: 7000 pages of written poetry, approximately 1500 to 2000 pages of which he considers publishable ... involved in 132 readings to dute, over half of which were solo events; he's read with Ginsberg, orlovsky, Wien ers... studied under Charles olson and John Clark (best authority on Blake in the country)... has discussed work with and been critiqued by creeley, Barth and Fiedl ... taught and lectured at the University of

Buffalo, Canisius, Rosary Hill, and other area institutions... published in several local magazines and a few national ones... over 5000 copies of his work is in school and public libraries in Canada and the United States, and used as texts in grade schools thrugad as texts in grade schools thrugad and published seven books and

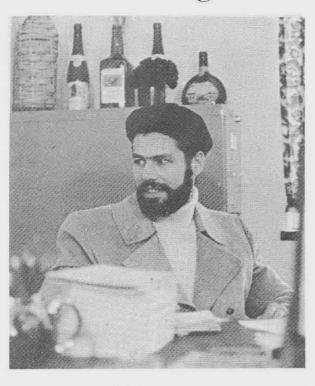

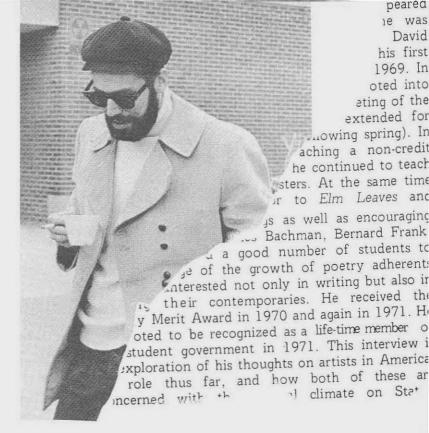

Is currently working on another to be read for the first time in february... has critiqued over 4000 pages of other poets work during his six years in Buffalo...

the phenomenon of Michael C. Flanigan appeared anthis compus in the fall of 1969; he was introduced to a number of students in David Landrey's classes through a tape; he gave his first reading here on November 19,1969. In December of the Same year he was voted into the position of poet-in-residense in a meeting of the English department (this term was extended for another twelve months in the following spring) In Jebruary 1970, he began teaching a non-credit creative writing course which he continued to do in the two succeeding semesters. At the same time he was selected advisore to "Elm Leaves" (Leevz) and continued to give readings as well as encouraging a good number of students to take advantage of the groth of poetry adherents with were interested not only in

ROBERT P. KISSINGER Died: November 27, 1971 Age: 20 years In Memoriam

Bob Kissinger, twenty, an outstanding swimmer at Buffalo State, died early Saturday evening in Kenmore Mercy Hospital. Kissinger succumbed to a stomach disorder.

A junior at State, he was regarded as one of the best freestylers in the history of the school. He captured the 100 yard and 50 yard freestyle events in the State University of New York Athletic conference meet at Cortland State as a freshman. He was a great team leader and clutch performer in competition.

He was a friend to everyone, with his friendliness being matched only by his courage and generosity. His absence will be a tremendous loss to the team.

Bob was the son of Mr. and Mrs. Edwin Kissinger of 325 Brighton Road, Town of Tonawanda and graduated from Kenmore West High School. Kissinger was hospitalized the first week in November after he complained of stomach cramps. He underwent abdominal surgery afterwards,

Swimming coach Dick Heller said, "Bob was one of the greatest athletes I have ever been associated with. He was a gentleman and a competitor to the nth degree, devoting his entire life to swimming."

Assistant Coach Dave Curtiss stated that "It isn't just now that people are saying nice things about Bob. They always did. He was that kind of a young man.

I hope that when people stop to think of Bob, they won't think of how young he was or what he will have missed in life, but instead think about what he gave everyone he knew. We all gained from knowing Bob and I learned more from him than he from me."

In his memory, Coach Heller has requested President Fretwell that the gym's natatorium be renamed "The Robert P. Kissinger Memorial Natatorium." This action has been endorsed by the Athletic Board and its president, Jim Oubre.

Bob Kissinger was laid to rest Tuesday in Arcadia Park Cemetery in Pendleton, New York.

## State swimmers sweep weekend actio

by PATRICK CARNEY Record Sports Writer

Buffalo State merman, the defending SUNYAC champs, sparkled as they swam past New Paltz 75-38 and Oneonta State 70-42 as they returned to

competition for the 1971-72 season.

Harry Jackson and Gary Toth lead the Bengals Friday night against New Paltz. In winning the one-meter diving event with 157.5 points, Harry handed New Paltz's Steve Morgan (153.5) his first defeat in four years of swimming in his home pool. Morgan was SUNYAC diving champ two seasons ago. Gary Toth scored a triple triumph for the Bengals, covering the 50 yard freestyle in 22.9 seconds and streaking the 220 yard butterfly in 2:13.6. Gary also swam the third leg of the 400 yard freestyle relay as the mermen took the event with a time of 3:29.3.

Buffalo took eight first place finishes against New Paltz, starting with the first event and taking the last, both relays. Bill Ruhland, Norm Klemmer, Jerry Mejeur and Dave Hosmer led State's 400 yard medley relay team with a time of 4:04.5. The powerful co-captains, Mike Welch and Joe Pawelski,

finished one, two in the 1000 yard freestyle event State's third first place was stymied when Toth took first place in the 50 yard freesty Sespectively. #### Editorial... Campus security

The dilemma presently facing Buffalo State's campus Security force has only one real solution - increased funds.

As the College expands in size and population, its protective force should also grow to meet its needs. This has not been the case at State, where Security is well behind. The size of the force cannot adequately cover all the residence and parking areas on the campus.

Poorly lighted areas around the Scajaquada complex invite and conceal campus crimes. Broken dormitory doors, both during this semester and last spring, provide easy accesibility

to the dormitories for unescorted visitors.

Some startling statistics, drawn from a recent report on Campus Security activities, point out that over \$40,000 in larcenies occurred during the past year. The actual figure, including unreported crimes, is considerably higher.

In all areas, both residents and commuters are threatened by what has become a minor crime wave. Theft of personal

items and parts from commonplace. Assaults and the crisis new attention: S protection of all the resid parking areas and some manpower, out of the quest

### THE FINE ARTS BOARD

by DEBBIE GANSER Record Feature Writer

The students arrived in New York at about 3 p.m. Sunday. At hat time, a majority of the tudents hurried to see the closing of a show at the Metropolitar Museum of Art. The exhibit waest of Albricht Durer, the terman woodcut genius of the parteenth centur. For these ho don't know much about this and of thing, Durer used to cary wigns into blocks of wood 16. ke prints from them. In plied to the woodcut, cess ink being absorbed into eved areas, with the uncar eas staying inked. Then, a p made by transferring the cuto paper.

Sunday night, the advisors the excursion (Mr. Jero Rothlein, Dr. Layman Jones, a Mr. and Mrs. John Bice), turn the eager students loose on t gigantic city. Some headed 1 Greenwich Village, others for play off Broadway, and some to skeptical to venture far from th Taft Hotel roamed the nearb streets in search of interesting shops and movies to attend during the rest of the trip.

Monday morning everyone hustled, as they were due at an orientation session at 8:30 a.m. across the city at New York University. Yon Vendermarck welcomed the visiting students to

New York and hoped they would find the program fruitful as well as enjoyable.

The Buffalo State students first visited the art studio of Alex Katz in the art district of the city, South Houston. This artist seemed to use a color and field method in his painting. He does a lot of figurative studies which he puts together in huge paintings it by eight feet and larger.

During the early afternoon, the students visited the home of Mr. Smithson, an earth artist. He has many displays using natural objects in pleasing compositions.

Tuesday morning the students talked to Bernar Venet, a conceptual artist that reproduced mathematical theories on canvas. His theory revolves around the notion that an artist is only an artist so long as he produces new concepts and new means of presenting his unique idea. The moment he becomes repetitive in his works, he ceases to be an artist. In his theory, the key are new ideas and creativity.

That afternoon, a visit to Ivan

Karp, an art dealer, took place. Talking to him revealed that dealers can be quite important in setting art trends.

Two other artists that the group encountered were Meredith Monk and Tom Wesselman.

Meredith Monk is an artistic choreographer. She uses personalities in her works. She fits these personalities into some very original and creative movements.

Wesselman is a painter who is known on the pop art scene. He uses brilliant colors in his works, which revolve around the bedroom scenery for the most bart. One amazing feature of his paintings is the absense of brush strokes

Wednesday, all the students were scheduled to attend a wrap-up session to sum up what they had gained during the New York trip.

The trip was organized jointly by the State University and the Visiting Artists' Program. The eneral consensus of those who pent the four days in New York has that the trip was fruitful and moyable.

## gallery 229 presents

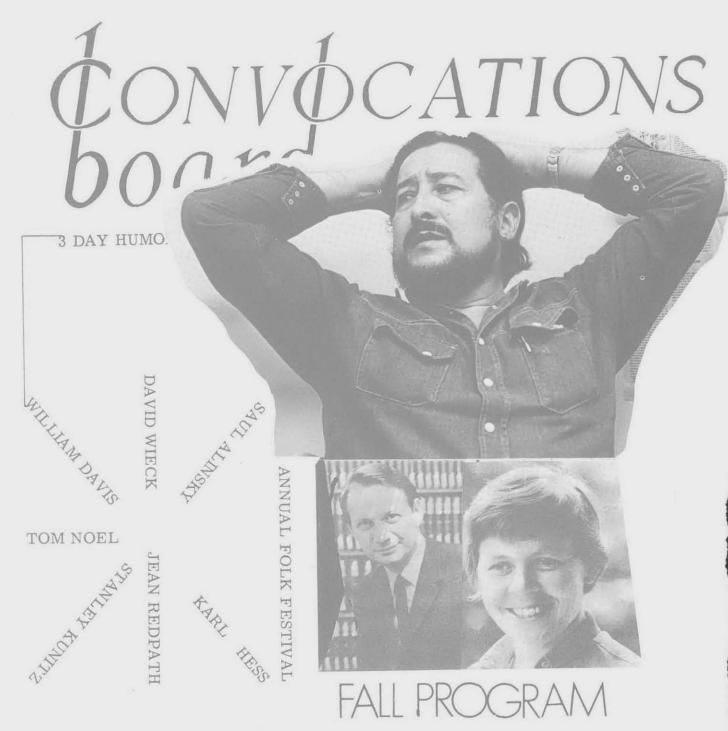

openings were the big event at gallery 229 this year - not to mention the eleven studentshows presented this year. Openings were held every other monday night with wine & cheese provided by the time ARTS BOARD. The 7.A.B. Sponsors the gallery and

provides security for the gallery. each opening provided an opportunity for curtists to meet and discuss aspects of their work. The gallery chairmen and the press board cordially invites the compus community to Future openings

STANLEY KUNITZ (Wed., Dec. 1st, 1PM & 8PM) Hailed as one of the strongest subterranean influences in modern American poetry, he won the Pulitzer Prize in 1959 for "Selected Poems 1928-1958", and is also the author of "Intellectual Things" and "Passport to the War". As lecturer, Kunitz has recently returned from an extensive four of the Soviet Union and Poland where he discussed American literature, gave poetry readings and met the new generation of Iron Curtain students and writers. The Brandeis University Creative Arts Awards Commission said of him: "One of America's finest poets...creative artist whose poetry, combining a classical strength of language and vision which goes beyond the easier uses of irony and achieves the genuinely tragic..."

KARL HESS (Thurs., Oct. 7th, 1PM & 8PM) Hess's transition from the traditional conservatism of Barry Goldwater in the late 1950's and early 1960's to the New Left in the mid 60's was a reflection of his insight into the real roots of anarchistic conservatism. Hess realized that Goldwater's rugged individualism, laissez faire policies and basic libertarianism preceded many of the same ideas of the Left in the 60's, the only difference being that the traditional conservative theories made provisions for extensive power in the hands of the federal government to ward off "global communism". "I am today what I've always been--a conservative. There's been no switch, only a refinement in my thinking that leads me to believe that the only place for true conservatism today is in the New Left." Hess has edited the Libertarian Forum, contributed to Ramparts Magazine and has authored "The End of the Draft: The Feasibility of Freedom."

JEAN REDPATH (Thurs., Oct. 14th, & Fri., Oct. 15th, 1 PM & 8 PM) Miss Redpath is a folklorist in a broad sense that we rarely find in our specialized society. She is the former head of the Folk Song Society at the University of Edinburgh, and a disciple of Hamish Henderson of the School of Scottish Studies. In addition she practices to unique perfection the art that she studied so intensively. Her repertoire runs from ancient Scottish tragedy-ballads to contemporary songs in the folk tradition. As she herself says, "I have no idea, beyond several hundred, how many songs I actually know, but give me a subject and I'll sing you a song about it!" Miss Redpath's proggram is a combination of lecture, patter and folk song.

SAUL ALINSKY (Wed., Oct., 27th, 1 PM & 8 PM) Saul Alinsky is one of the foremost community organizers in America today. Through militant yet non-violent actions he proves that the poor of this country can achieve real political power for the practice of true democracy. His practical advice provides an alternative not only to the power-lessness that threatens our attitudes, but to the random violence and bitter alienation by which so much radical energy is wasted. Some of his community efforts include F.I.G.H.T. in Rochester and B.U.I.L.D. in Buffalo.

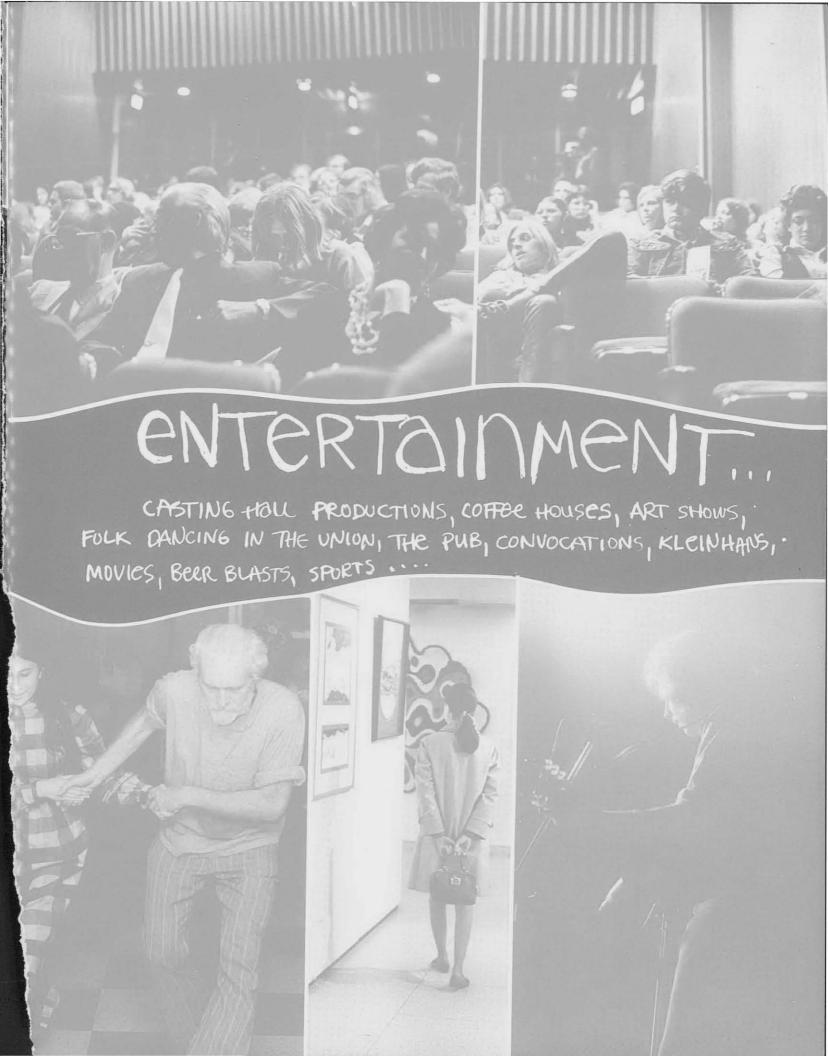

THREE DAY HUMOR SYMPOSIUM (TUES., NOV. 2nd TO THURS., NOV. 4th)
THIS SYMPOSIUM WILL CONSIST OF A SERIES OF WORKSHOPS, LECTURES AND
PRESENTATIONS THAT WILL REVOLVE AROUND THE TOPIC HUMOR TODAY--ITS TRADITIONAL ROOTS, ITS MODERN ROLE AND ITS PHILOSOPHICAL ASPECTS

<u>DAVID WIECK</u> (Tues., Nov. 2nd, 1PM & 8PM) Wieck, a professor of Philosophy at R.P.I. will analyse the topic of humor from the philosophical standpoint in both lecture and workshop formats in order to present the various implications of humor today. Wieck is presently preparing a book on the aesthetics of humor entitled "Funny Things".

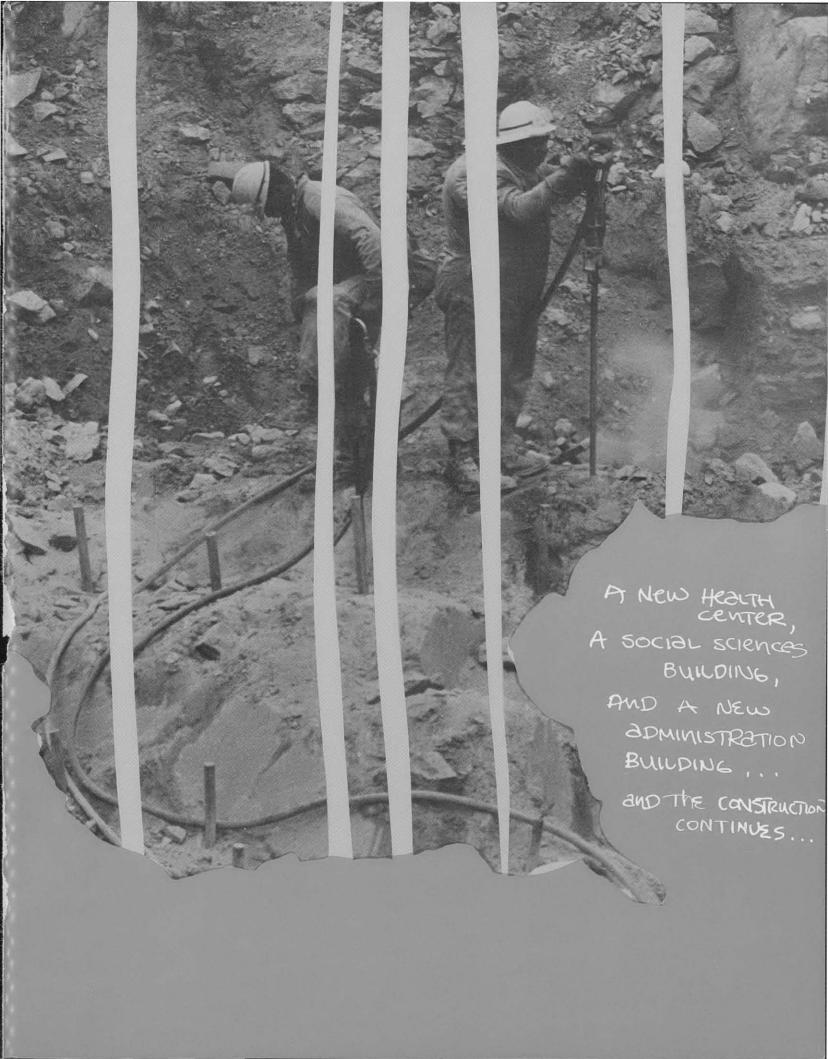

WILLIAM DAVIS (Wed., Nov. 3rd, 1 PM & 8 PM) Davis, the tenth and newest editor of PUNCH Magazine, is a serious journalist who has frequently written on politics and economics. Author of one of the most controversial political books of the 1960's, "Three Years' Hard Labor", he has also been involved in or editor of other popular magazines and a well known radio and television broadcaster. Davis has a thesis that "there is a humor crisis in the world today" and that "there is a distinct lack of humor on this side of the Atlantic--probably because people think humor is only the comedy shows, where somebody makes an ass out of himself." "Ideally, one visions the world in which battles are fought with jokes where the battle would end with one side collapsing in laughter and withdrawing from the field."

TOM NOEL (Thurs., Nov. 4th, 1PM & 8PM) Mark Twain is an American institution. Tom Noel has for many years (way before Hal Holbrook, by the way) kept Mark Twain alive by presenting a "living portrayal of Mark Twain at home". The presentation consists of song, piano playing and soliloquy by Mr. Noel in the tradition of Mr. Clemens.
