Memo To: Mr. Lon McAdam, Plant Superintendent

Re: Assistance with care of the Rose Garden, July 23, 1969

From: Edna M. Lindemann

Thank you for suggesting the assistance of Mr. Arthur Peters, Jr. to the faculty-student volunteer group who plan to weed, prune and generally improve the rose garden and the surrounding area, Wednesday, July 23.

Attached please find a copy of the work order written per your suggestion.

Dr. Mann, his assistants, myself, and one or two others plan to meet Mr. Peters at 5:15 to work until the job is completed, but hopefully not later than dark! It is understood that Mr. Peters will have along the necessary tools, trash buckets, and hose. I will lock the tools in the trunk of my car at the end of the session and return them to Maintenance on Thursday. We hope that Mr. Peters will be able to help us with the planting of the barberry and grass.

You may recall that I asked if a rota-tiller was available and if so, could you have the areas to the east of the sidewalk in front of the IMC Center, where the grass has been obliterated, dug! If this job could be completed in good order, we would attempt to get some good size barberry bushes and plant them Wednesday night. If grass seed, fertilizer, and peat moss were also available, we would complete the job.

Thank you very much.
