8. Elementary Teaching Certification for Liberal Arts College Graduates:

Due to the extreme shortage of elementary teachers, the State Education Department has approved a plan whereby college graduates may enter an intensive training program to prepare for general elementary school teaching. The completion of a minimum of 30 semester hours, on the graduate level, 24 hours of which shall be in education courses approved for elementary school teaching, and evidence of satisfactory teaching, for a period of 5 years, as determined by an approved evaluation program, will entitle the student to a permanent certificate to teach in the elementary grades.

This program has been inaugurated to help relieve the current teacher shortage. It has been planned so that interested college graduates may register in the Graduate Department for Saturday Extension courses and Summer Sessions. Satisfactory completion of Saturday extension courses and the 1950 Summer Session in professional study will entitle the college graduate to a renewable certificate valid for one year. Additional renewals will be granted upon evidence of continued summer session and/or extension study and satisfactory teaching.

If the student wishes to complete the requirements for the Master's Degree in education, 8 hours of graduate study, elected under the guidance of the Graduate Department of this college, will be required in addition to the 24 hours of required courses in elementary education. All college graduates interested in this program for certification in elementary school teaching, should secure application blanks and complete instructions for registration as soon as possible. Write to Dr. Robert E. Albright, Director of the Graduate Department, New York State College for Teachers, Buffalo 9, N. Y. for the necessary information.
