GENERAL INFORMATION

1. Teachers in service and properly qualified undergraduates will be admitted to Extension courses.
2. A student wishing to become a candidate for a degree should secure an evaluation of his academic record and proposed program from the Registrar to assure proper accrediting and satisfactory course selection.
3. Credit granted for the completion of any course is subject to the approval of the Registrar when applied to the specific program of any student.
4. Extension credit is transferable to other academic institutions in accordance with the regulations of the individual college or university concerned.
5. Off-Campus courses will be organized in convenient centers when requests are sufficient to establish them. Teacher groups interested in such courses should inform the Director of Extension as soon as possible.
6. A minimum registration of twelve students will be required for the continuance of any proposed Extension class.*
7. Graduates of a three-year curriculum of this College should note that Off-Campus credit is not acceptable as part of the residence requirements of the Bachelor of Science degree.
8. An application for graduation is required of each student of all divisions who will complete the requirement for the Bachelor of Science or Master of Science degree. This application must be filed with the Registrar before November 1 if graduation is expected in January or June of the academic year; it must be filed before the close of Summer Session if requirements are to be completed by that time. The College assumes no responsibility for the graduation of students who omit this application procedure.
9. The right is reserved to make any necessary alterations in the course offerings listed in this catalog without notice.
10. Any students who have questions relative to courses, requirements or other matters pertaining to extension work, should write to R. E. Albright, Director of Extension, New York State College for Teachers, Buffalo 22, N. Y.

* Exceptions will be made in some cases essential for meeting graduation requirements.

GRADUATE DIVISION—EXTENSION SESSION

1954-1955

1. Graduate Curricula:

Graduate courses leading to the Master of Science degree are offered during Summer Session and in Extension classes both on campus and at off-campus points. Graduate majors can be taken in Art Education, Education for Exceptional Children, Elementary Education, Home Economics Education, and Industrial Arts Education.

2. Graduate work limited to Summer Session and Extension Department.

At present no graduate work is offered during the regular college session. Graduate schedules will be planned so that requirements for the Master of Science degree may be completed by attendance at five Summer Sessions. This time may be shortened by registration in the Extension Department classes.

3. Admission Requirements:

Applicants meeting the following requirements are eligible for admission in the Graduate Division.

A. The applicant holding an *approved* Bachelor's Degree and eligible to teach in the elementary field or in the field of specialization.

(An *approved* Bachelor's Degree is one granted by):

1. A teachers college accredited by the American Association of College for Teacher Education.
2. A teachers college, college, or university accredited by the appropriate regional accrediting agency.
3. A college accredited or approved by the state board of education or the state university in its state.

(Students possessing Bachelor's degrees not in this approved category may be admitted conditionally to graduate courses).

B. An applicant holding an elementary education certificate in another state.

(Completion of Master's degree requirements does not guarantee New York State certification. The applicants should secure an evaluation of credits and a statement of prescribed work necessary for certification from the Certification Division, State Education Department at Albany, New York). As far as possible graduate work at the college will be planned to supplement any course inadequacies.

C. An applicant having demonstrated ability for graduate work as measured by:

1. Undergraduate scholastic average of 2.3 higher. (Exceptions granted in extenuating circumstances by the Director of the Graduate Division.)
2. An acceptable teaching record (testified by a confidential statement from the administrator of the school wherein employed).
3. Recommendations concerning academic and personal qualifications from three persons in a position to make valid statements.

4. Admission Procedures:

A. Complete admission blank available from Director of Graduate Division with data required.

B. Return blank and data before May 1, for registration in Summer Session, before September 1st for registration in first semester, and before January 1st for registration in second semester Extension program.

C. Provide official transcript from college which granted degree, (not necessary for graduates of this college).

5. Admission to Candidacy:

Filing an application for admission to candidacy is the personal responsibility of each admitted student after he has completed a minimum of six hours. *He must apply for candidacy at the completion of twelve hours.*

Admission to candidacy depends upon:

- A. A cumulative average of "B" in courses presented for graduate credit. No work of "D" grade will be accepted.
- B. A recommendation from the adviser of the candidate, the director of the division, or (in the case of Elementary Education students) the Director of the Graduate Division.
- C. A comprehensive written examination may be required by the Graduate Council upon the recommendation of the student's adviser or director of the division in which application is made.

6. Requirements for the Master of Science Degree:

- A. The Master of Science degree requires the completion of thirty-two semester hours of graduate study.
- B. Five summer sessions of six weeks each shall be regarded as the usual period of attendance for the completion of the thirty-two hour requirement. This period of time may be shortened by attendance in the classes of the Extension department.
- C. No graduate student, who is a full time teacher, will be permitted to carry an extension program in excess of *four credits* per semester or *eight credits* per college year. *This maximum of four hours per semester includes all work whether taken in afternoon, evening, or Saturday sessions at this college or elsewhere.* Registration above this maximum will result in loss of credit in excess of four semester hours. In the Summer Session, a graduate student may be permitted to carry a maximum of one hour of credit per week, that is for two weeks' work he may receive a maximum of two (2) credits; for six weeks' work, six (6) credits; for eight weeks' work, eight (8) credits.
- D. Credit will be withheld for courses completed in another college or university more than seven years prior to registration in the Graduate Division. A candidate shall satisfy all the prescribed requirements within six years from the date of admission.
- E. The Graduate Division has established the following residence requirements applicable to all courses submitted as part of the graduate program. *Twelve semester hours* are the maximum non-residence courses that will be approved if the candidate is a graduate of *this College*. *Eight semester hours* of non-residence courses is the maximum that will be approved if he is a graduate of *another college*. In all cases, however, such graduate study must be similar in scope and content to courses offered by the teachers college, and must form a coherent part of the total program of preparation to be completed by the student. A course shall satisfy the requirements for residence when it is offered on the campus of the College, or within the territorial limits of the village or city in which the college is located. A course offered by the college at a camp operated by the college or at a branch established by the college may be accepted as course in residence.

7. Special Students:

Students not intending to apply for admission to candidacy may register for courses in the Graduate Division limited to a total of 12 hours.

8. Registration Fees:

Graduate Division fees are \$12.50 per credit hour.

9. Elementary Teaching Certification for Liberal Arts College Graduates:

To help relieve the extreme shortage of elementary teachers, the State Education Department has approved a plan whereby college graduates may enter an intensive training program to prepare for elementary school teaching. The completion of a minimum of 30 semester hours, on the graduate level, 24 hours of which shall be in education courses approved for elementary school teaching, and evidence of satisfactory teaching, as determined by an approved evaluation program, will entitle the student to a permanent certificate to teach in the elementary grades.

This program has been planned so that college graduates may register in the Graduate Division for certain specified Saturday Extension courses and Summer Sessions. Completion of prescribed courses in a Summer Session will entitle the college graduate to a renewable certificate valid for one year. Additional renewals will be granted upon evidence of continued summer session study and satisfactory teaching.

For students wishing to complete the requirements for the Master of Science degree, 6 hours of graduate study, elected under the guidance of the Graduate Division of the College, will be required *in addition to the 26 hours of required courses in Elementary Education*. *Regulations relating to admission to candidacy stated in paragraph 5 must be followed.* All college graduates interested in this program for certification in elementary school teaching, should secure application blanks and complete instructions for registration as soon as possible.

The following is the curriculum for certification of Liberal Arts graduates:

WORKSHOP IN SPANISH FOR ELEMENTARY SCHOOL TEACHERS

Recognizing the values in teaching Spanish to elementary school children, the Extension Division offers this graduate workshop to teachers in the elementary school on Saturday mornings of its 1954-1955 schedule.

The work will progress through three related areas:

1. The Language, building vocabularies, improving pronunciation, developing conversational ability.
2. The Civilization, presenting major currents of Spanish and Spanish-American culture—customs, traditions, arts, music, dances, etc.
3. Methods and Techniques, motivating children through the media of dramatics, dancing, singing, playing games and wearing costumes.

The workshop, proceeding through group discussions and individual conferences, will make extensive use of recently developed audio-visual materials and equipment such as tape recorders, disc recordings, slides, and motion pictures. No previous foreign language background is required for registration.
