17. INTERRELATIONSHIP OF BUILDING AND SURROUNDINGS: (Indicate if building or structure is in an historic district)

Building is situated on a standard sized lot within Olmsted's Parkside subdivision. House is located one block from Delaware Park, which was designed by Olmsted and is listed on the National Register, and northeast of the Zoo.

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known): Two and a half story with Craftsman styling. Hip roof with extending eaves. Exposed rafter tails and curvilinear knee braces under eave. Full-width hip roof porch has rough-cut, regular coursed stone base. Square supports with capital elaboration. Exposed rafter tails. Center pedimented gable has bargeboard with end bracket supports. Glass SIGNIFICANCE paneled door. First and 1913 19. DATE OF INITIAL CONSTRUCTION: second floor semi-hexagonal bay windows, 1/1 lights. Tri-part first and ARCHITECT: second floor window, 1/1 lights. Hip roof dormer with exposed rafter tails under eave. Tri-part BUILDER:

3/3 windows.

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE: Typical vernacular adaptation of Craftsman style details applied to a residential structure. Woodward Avenue runs parallel to Parkside Avenue and extends from Humboldt Avenue to the northwest portion of Crescent Avenue. This street appears on Olmsted's early 1870's maps of "The Parkside," although it is less curvilinear than originally planned. Portions of Woodward Avenue (originally called Davis Avenue) were deeded to the city by five different owners between 1887 and 1892; except for the section north of Amherst, this was done when comparable sections of Crescent Avenue were deeded. Following Olmsted's rule for a suburban street, Woodward Avenue does "not lead with special directness toward town."
