Dear Executive Director:

The New York State Mentoring Committee, chaired by Matilda Cuomo, was created in December, 1987. Its mission is to promote the use of mentoring as an important strategy for motivating students who are at-risk of dropping out to stay in school.

The 42-member Committee is comprised of representatives from school-business alliances, the public, private, and non-profit sectors, and community mentoring programs.

Mentoring can be a continuum of support for students from the earliest grades through junior high and high school. The Committee believes that students in the exploratory middle school years are at an exceptionally responsive stage of development for benefiting from a one-to-one supportive relationship with a caring, responsible adult—a mentor who can help in the development of a sense of personal worth, educational potential, and self-realization.

The Committee's work is designed to help mentoring programs reach these young people as early as possible, to motivate, to guide, and to encourage them to stay in school. The long-range goal is to ensure that young students in the middle school are prepared to make the transition to high school, to the world of work, and/or higher education.
April 24, 1989

January, 1989 marked the kick-off of a year-long statewide mentoring campaign to encourage the wider use of mentoring and to recruit mentors.

Your organization can play an active role in making information available to its members about the campaign and the call for mentors. The enclosed brochure provides specific information on the role of a mentor. For additional information and brochures please write or telephone:

May 10, 1989

Dear Juanita and Martha,

Just a short note to say 'hello.' Hope you are both well. I enjoyed seeing the article about Juanita's grad students and the Nightingale show. Hooray for all of you!

Thought you might enjoy seeing a copy of the resolution that a friend and I submitted for consideration by California's House of Delegates (held this September). Joke around here is the IF this proposal makes it out of the Resolutions Committee and onto the House floor, that Chris and I had better find another place to live........! Seriously, we have no idea whether or not the delegates will ever see this, but we're up for the fight! Wish us luck!

As very anxious to see both of you again this summer in Kansas City. You are such a source of continuing inspiration to me. How about a nice leisurely lunch at some point?

Love,

May it further be resolved that CNA designate and institute a firm, ten year transitional period, after which only BSN graduates be allowed to practice as professional nurses, use the title, "Registered Nurse," or sign the initials, "R.N.," after their names.

Respectfully submitted,

Theresa Stephany/Christine Kinavey

RESOLUTION TO REQUIRE BSN AS ENTRY LEVEL DEGREE FOR NURSING PRACTICE IN CALIFORNIA

Supporting Attachment/Documentation

PURPOSE: Strengthen professional nursing’s image and educational preparation throughout California.

Comply with ANA House of Delegate’s mandate for BSN as entry level degree for professional practice.

HOW PASSAGE BENEFITS THE PROFESSION:

Nursing has been aware of the need for baccalaureate education since 1965. Other health care professions already educate their members at the baccalaureate level and several require master’s and doctoral degrees before beginning practice. By complying with ANA’s request for BSN education, we will raise nursing to the professional status that other health care providers currently enjoy, eliminate the confusion that accompanies role differentiation (or lack of it), and prepare nurses to assume positions that are closed to those without a college degree.

HOW THE RESOLUTION CAN BEST BE IMPLEMENTED:

Set a firm timetable for change and stick to it without hesitation. Model changes on what has already been implemented by the North Dakota State Nurses’ Association. Appoint/elect a Legal Committee and an Educational Committee, as North Dakota did, to work together. Assure all currently licensed RNs that their education and experience will not be devalued and demand specific job site contract language to ensure the above. Hire consultant from North Dakota for assistance with planning and implementation.

COST IMPLICATIONS:

North Dakota financed the project with grant monies, largely from ANA. Consult with Constituent Forum members re: financial arrangements other states are making and investigate available grant funding, budget allocations etc.

RELATION TO STRATEGIC PLAN:

This resolution, directly addresses, Goal F, (F.2, F.3, F.4, F.5, F.6, F.7, F.8) and all of Goal G, as one cannot progress to graduate education without a bachelor’s degree.

Additionally, by bringing nursing in line with the educational preparation of other health care providers, we will be responding to Goal H. College education for health care professionals is no longer an "...emerging trend," but an established reality.
